

High Altitude Mountain Environment Training (HAMET)

The Bureau of Land Management Royal Gorge Field Office wants your input on Fort Carson's proposal to use public lands for helicopter training. Fort Carson has used public lands in the Royal Gorge Field Office for High Altitude Mountain Environment Training since 2010 on a temporary and infrequent basis. In 2013, Fort Carson requested a longer term agreement with the BLM for HAMET activities. The HAMET program is designed to provide pilots experience flying and landing helicopters in high elevation, mountainous terrain.

Fort Carson has submitted a Plan of Development to the BLM. The BLM is analyzing this plan through an open public process, and would like your help to identify what issues and concerns should be addressed in the environmental assessment before the BLM begins drafting the document.

For more information about the use of BLM lands for HAMET activities, please visit the Royal Gorge Field Office website at: <http://www.blm.gov/co/st/en/fo/rgfo/planning/hamet.html>

This scoping period will run from Oct. 1 to Nov. 1, 2014. Comments concerning the proposed action, alternatives and identification of environmental issues are most helpful. For additional information or to submit a comment, please contact Nancy Keohane at 719-269-8531 or email comments to rgfo_comments@blm.gov. Keep up with Royal Gorge Field Office planning efforts at <http://blm.gov/3zld>.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment -- including your personal identifying information -- may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.
