

H-2930-1 RECREATION PERMIT ADMINISTRATION (Public)

e. For further clarification for calculating the percent of time off public lands use fee adjustment, a trip is defined as: The time the client or participant spent with the permittee that starts either after the first night's lodging or when the client begins participating in the advertised use. For example, the trip is usually advertised by the permittee as a five-day hunt or a three-day river trip. Each day of permitted service is not considered a trip. A trip is usually the culmination of several consecutive days. A trip ends when the client returns to the permittee's headquarters or lodge for the last night's lodging.

**5. Discounts.** A discount for time off public lands and related waters is appropriate for commercial, competitive, and organized group events. A discount will be allowed for time spent off public land and related water from the time and date of entry to the time and date of exit from public lands (see Table 1). The key to successfully determining the time off public lands is to reach agreement with the permittee, prior to issuing the permit, when and where the trip or event starts and ends on public lands. For time spent on non-public lands, the authorized officer may require the permittee to submit a signed Trip Log or Operating Plan specifying this nonpublic land use. Commercial permittees, who rent equipment, deliver, and pick-up customers on public lands or related waters are not eligible for this non-public land use discount. The discount fee adjustment will be based on the percent of total time on public lands from the following table:-

**Table 1 – DISCOUNT FOR NON-PUBLIC LAND USE**

Percent of Total Time on Public Lands or Related Waters	Fee Reduction	Multiplication Factor
Less than 6%	80%	.20
6 - 60%	40%	.60
61 - 100%	None	None
