Letter of Transmittal

Attention:	BLM White River Field Office Chad A. Schneckenburger 220 E. Market St. Meeker, CO 81641 970.878.3800	Date:	November 20, 2012
Project reference:	Lands with Wilderness Characteristics Field Survey Data – White River and Little Snake BLM Field Offices	Project number:	60139683-108B 60279367-100

This transmittal includes:

- 1 DVD, which contains:
 - Completed BLM forms for each unit;
 - Photographs of each unit;
 - Map of each unit documenting field inventory features and results;
 - Scanned field notes/backup info from each unit; and,
 - Supporting GIS shapefiles.
- 1 Printed Map Set: 1 Set of 11x17" Maps of each Unit surveyed in the field office.

Enclosed is the field data and analyses completed as part of the 2012 field survey effort for LWC units affected by transmission projects proposed by TransWest Express and Pacificorp through the Little Snake Field Office. A summary of the findings of each unit can be found in the Summary section of BLM Manual 6310 Form 2. **Table 1** shows a summary of the units inventoried and the general results.

Documentation of each unit includes completed BLM Manual 6310 Form 1 and 2, as well as Form 3 for all roads/routes observed in the field. All photos taken are included in the data package. The included GIS database includes line features for all documented roads/routes, as well as point features for all photograph locations. Electronic scans of field notes and field markup maps are included as backup.

We appreciate the opportunity to complete this work for the BLM. If you have any questions related to the results of this effort, please feel free to contact me at 970-530-3499.
