CATEGORICAL EXCLUSION

A. Background

BLM Office: Kremmling Field Office Lease/Serial/Case File No.: N/A

Number: DOI-BLM-LLCON02000-2012-29-CX

Proposed Action Title/Type: YMCA Snow Mountain Ranch Special Recreation Permit

Applicant: YMCA – Snow Mountain Ranch

Location of Proposed Action: BLM-administered lands within:
T. 1 S., R. 76 W., 6th P.M., Sections 7, 8, 17

Description of Proposed Action:

The YMCA Snow Mountain Ranch has applied for a Special Recreation Permit (SRP) to conduct guided day hikes on Sheep Mountain BLM-administered lands in conjunction with their summer camp and guest programs. The YMCA has previously been authorized for hiking activities on BLM-administered lands but relinquished the permit due to lack of use. Hikes would occur on the existing trail beginning at the reservoir on YMCA's property on the north side of Sheep Mountain and ending at its peak. All alternatives within the Draft Resource Management Plan would designate this trail for foot travel only and the authorization of an SRP is not in conflict with any proposed management actions. The existing trail also crosses USFS-administered lands and requires a USFS Special Use Permit (SUP) for use. The YMCA is currently applying for use on this section of trail and authorization of BLM-administered lands beyond USFS would require that the YMCA has the authorization to cross USFS-administered lands.

The permit would be issued for a one year period. A multi-year permit would be considered pending the applicant's performance rating, trail realignment approved in future NEPA, and an agreement is made to allow for public access to the trailhead for hiking. The trail alignment would be implemented cooperatively with the YMCA and volunteer groups. The YMCA would adopt the trail through an agreement and assist in maintenance responsibilities. New stipulations may be attached to the permit as required to protect natural resources and ensure that the permit is in compliance with current policies. Authorized activities would include Guided Hiking and directional signage along the existing trail year round.

Scoping was done with the USFS Sulphur Ranger District whom the applicant has had a SUP with in the past.

The permit would include the following special stipulations:

1. Special Recreation Permit Terms, Conditions and Stipulations For All Permitted Activities – See Attachment 1.
2. The permittee would be responsible for clearing the trail of fallen timber and basic maintenance including removing rocks along the trail.
3. A sign plan would be developed by the permittee that includes the type of signage, sign information and locations to be posted along the trail.
4. The trail would require a reroute to ensure sustainability and provide for public health and safety. Once a trail alignment is approved, the permittee would formally adopt the trail through an agreement and be responsible for annual maintenance of the trail in conjunction with the BLM.
5. Reauthorization of the permit and the use of BLM funding to design, analyze and implement a sustainable trail would be dependent on public access and public use of the trail.

B. Land Use Plan Conformance

Land Use Plan Name: Kremmling Resource Management Plan (RMP), Record of Decision (ROD) Date Approved/Amended: December 19, 1984; Updated February 1999

The proposed action is in conformance with the applicable LUP because it is specifically provided for in the following LUP decisions(s):

Decision Number/Page: Decision Number II B 7a/ Page 11

Decision Language: a. Objective. "To ensure the continued availability of outdoor recreational opportunities which the public seeks and which are not readily available from other sources, to reduce the impacts of recreational use on fragile and unique resource values, and to provide for visitor safety, and resource interpretation."

C. Compliance with NEPA:

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 2, Appendix 1,

1.5 H. Recreation Management

(1) Issuance of Special Recreation Permits for day use or overnight use up to 14 consecutive nights; that impacts no more than 3 staging area acres; and/or for recreational travel along roads, trails, or in areas authorized in a land use plan. This CX cannot be used for commercial boating permits along Wild and Scenic Rivers. This CX cannot be used for the establishment or issuance of Special Recreation Permits for "Special Area" management (43 CFR 2932.5).

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in 516 DM2 apply.

I considered having as an additional stipulation of the SRP the requirement to provide an approved portable toilet during hiking excursions. However, hiking excursions are typically a half-day or less with only a portion of the trip on BLM-administered lands. Having a stipulation requiring the proper disposal of waste should mitigate potential issues of litter.

DECISION RECORD
CX # DOI-BLM-LLCON02000-2012-0029CX

DECISION: It is my decision to authorize the Proposed Action as described in the attached CX.

This decision is in compliance with the Endangered Species Act, National Historic Preservation Act, and the Clean Water Act. This decision is also in conformance with the LUP and other applicable laws, regulations and policies.

This action is listed in the Department Manual as an action that may be categorically excluded. I have evaluated the action and have determined that it does not represent an extraordinary circumstance and is, therefore, categorically excluded from further environmental analysis.

RATIONALE: The proposed action to authorize the YMCA Snow Mountain Ranch to conduct Guided Hikes on BLM-administered lands within Grand County was chosen to provide a recreational opportunity for guests of the YMCA to hike with a guide on Sheep Mountain and which is not readily available due to the trail being restricted by private lands. The YMCA is open to allowing public access onto Sheep Mountain in return for providing a more sustainable trail that provides for public health and safety and can be used by their programs and their guests. Stipulations are included in the permit as required to protect natural resources and ensure that the permit is in compliance with current policies and State regulations.

When tree cutting is authorized, stumps shall be left no higher than 6 inches above ground level and slash shall be lopped and scattered. A separate permit is required for removal and transportation of woodland/tree products from public land.
- I. Firewood Cutting: Firewood may be cut on public land only for campsite use while on public land, and may not be transported off the public lands without a separate firewood cutting permit. Only dead and down trees shall be cut for firewood, with stumps left no higher than 6 inches above ground level, and the slash shall be lopped and scattered.

require separate written authorization.

XVIII. PERFORMANCE EVALUATION

- A. The BLM shall conduct periodic inspections and performance evaluations of the permittee’s operations and compliance with the terms, conditions and stipulations of the Permit.

Evaluation Ratings are as follows:

Acceptable means that the permittee has generally operated in accordance with the terms and conditions established for the permit

Probationary means that the permittee has not operated in full accordance with the terms and conditions of the permit. Corrective action by the holder is mandatory and continued operation at this level of performance is unacceptable. If this performance level is received 2 years in a row, the authorized officer may suspend or terminate the permit and/or deny future permit applications.

Unacceptable means that the permittee has not operated in accordance with the terms and conditions of the permit and cannot be allowed to continue. This performance level will result in suspension or termination of permit privileges as appropriate to the circumstances.

- B. Violations and Penalties: Any violation of the permit terms, conditions and stipulations may be subject to penalties prescribed in 43 CFR 2932.40, which may include fines up to \$1,000 and/or imprisonment up to 12 months. If a permit is terminated, permit applications will not be approved for any person connected to or affiliated with the operation under a terminated or suspended permit.

XVIII. CERTIFICATION

I have read these terms, conditions and stipulations and understand that I must abide by them while performing activities in connection with the permitted operations.
