DOCUMENTATION OF LAND USE PLAN CONFORMANCE AND NEPA ADEQUACY

NUMBER: DOI-BLM-CO-N010-2012-0050-DNA

PROJECT NAME: Mountain Bike Race and Marathon/Half Marathon Special Recreation Permit for Honey Stinger

LEGAL DESCRIPTION:

T.6N., R.85W., sec. 22-27 & 35.

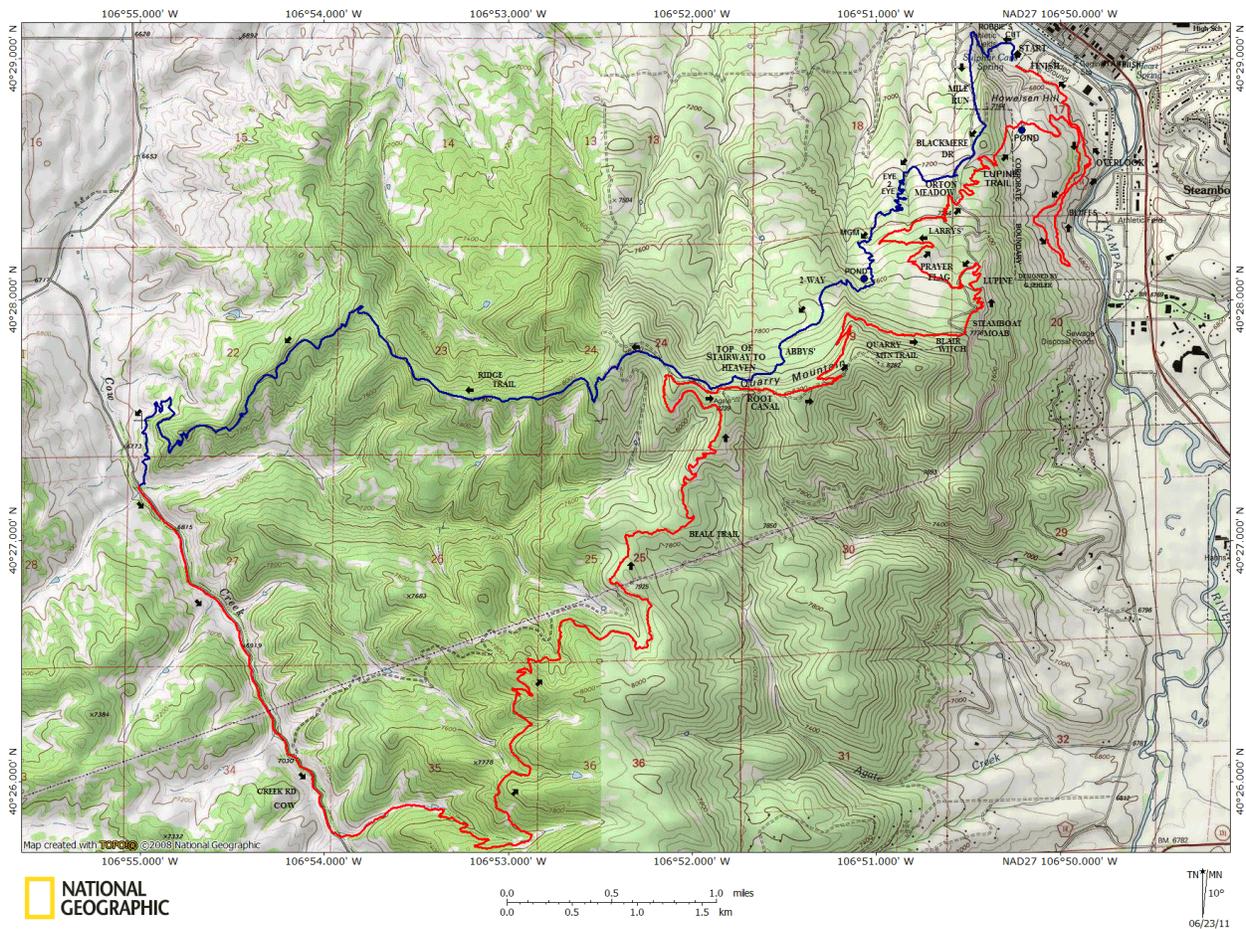

APPLICANT: Len Zanni

A. Describe the Proposed Action

The proposed action is to issue a Special Recreation Permit (SRP) to Honey Stinger for a competitive mountain bike race and a full and half marathon. The events will take place on Emerald Mountain which is located in Steamboat Springs, Colorado. The SRP will be for day use only, with no camping on public lands. The purpose of this permit is to provide an annual challenging backcountry race experience on existing singletrack trails. The event will include a 50 mile mountain bike race on the first day and a half marathon and a full marathon on the same course the second day. The races are proposed to become an annual event occurring over two days each summer between July 1 (end of the wildlife seasonal restrictions) and the 3rd week in August (start of hunting season). The 2012 event will be held on August 11th (bike race) and August 12th (half and full marathon).

The race course begins at the Howelson Hill Ski Area which is in downtown Steamboat Springs, Colorado. The course is a 25 mile loop (the participants will complete the loop two times) which climbs from the base of the ski area up through grassy meadows, sagebrush, scrub oak, aspen stands and coniferous forest. The east side of the course takes place on trails managed by the City of Steamboat Springs. At the crest of Emerald Mountain, the course drops down the "Ridge" trail for 4.8 miles through mainly scrub oak type of vegetation and course, granitic soils. The competitors will leave the Ridge Trail and proceed 2.2 miles south on the Cow Creek Road (Routt County Road #45) to the start of the "Beall" trail. The course then proceeds up the Beall trail for 6.6 miles through sagebrush on the lower and drier sites, then winds through a mixed aspen/conifer forest before breaking out near the top of the mountain onto drier courser soils again covered in sagebrush. At the very top of the Beall trail, the competitors will again be in

thick aspen woodlands. Once the riders complete the Beall trail, they will then head back down various city managed trails back to the start. The competitors then complete the loop a second time for a total of 50 miles.

The marathon race will be almost identical to the mountain bike race course, with 1.2 miles of added distance to make full marathon distance. The half marathon course will not involve BLM managed lands as it will not take place on either the Beall or Ridge trails.

The mountain bike race will start at 8:00 am and have 10 minute intervals between the three categories of riders. All participants will have started by 8:20 am. There will be a cut off time of 12:30pm for all riders to begin their second loop. The marathon will begin at 7:00am and is projected to continue for 8 hours for the slowest participants.

The participants are encouraged to “pre-ride” the course the day before the event in order to get a better understanding of the topography of the route.

SAFETY & PROFESSIONAL EVENT MEDICAL SERVICES:

Race day event medical services will be provided by Event Medical Solutions Unlimited (EMS Unlimited). Mobile rapid response event paramedics and EMT's will be strategically placed along the course and two medical aid tents, one at the Howelson Hill starting area and one on

Routt County Road 45, will be available to race participants and spectators.

An aid station along with a portable toilet will be placed at the Kemry Draw parking area.

There is no motorized access for this race. All traffic will be mechanized and on foot only. Both races will be limited to 400 participants, which will be reviewed on a yearly basis. All operations will be in compliance with the Special Recreation Permit Terms, Conditions and Stipulations (see Attachment 1) and additional stipulations (see Attachment 2).

B. Land Use Plan (LUP) Conformance

LUP Name: Little Snake Resource Management Plan and Record of Decision (ROD)

Date Approved: October 2011

- Draft RMP/EIS January 2007
- Final RMP/EIS August 2010

The Proposed Action is in conformance with the applicable LUPs because it is specifically provided for in the following LUP decisions:

The Proposed Action implements the Resource Management Plan Recreation Management objectives on page RMP-42 and 50 of the ROD,

- “Provide a diversity of outdoor recreational opportunities, activities, and experiences for various user groups, unorganized visitors and affected communities, their residences, economies, and the environment.”
- “Support tourism efforts for local economic diversification with public land resources.”
- “Special recreation permits will be considered on a case-by-case basis, depending on applications received. Commercial outfitter camps will be considered on a case-by-case basis. Commercial use permits that provide recreational opportunities, enhance recreational experiences, and protect resources will be authorized.”

The proposed action of issuing Special Recreation Permits is in conformance with the Little Snake RMP/ROD.

C. Identify applicable NEPA documents and other related documents that cover the proposed action.

- Environmental Assessment Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052 EA (June 21, 2001)

D. NEPA Adequacy Criteria

1. Is the current proposed action substantially the same action (or is a part of that action) as previously analyzed? Is the current proposed action located at a site specifically

analyzed in an existing document?

Yes. The current proposed actions are part of the proposed actions in the previously approved Environmental Assessment Decision Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052 EA (June 21, 2001).

2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the current proposed action, given current environmental concerns, interests, and resource values?

Yes. The Environmental Assessment Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052 analyzed the environmental impacts of the alternatives of a No Action Alternative and a Proposed Action Alternative. The Proposed Action Alternative was selected as the preferred alternative for the Programmatic SRP EA and approved in the Decision Record signed June 21, 2001. The Proposed Action in this DNA is a part of the listed activities covered in the Programmatic SRP EA. The current environmental concerns, interests, and resource values are essentially the same as those in 2001. No new alternatives have been proposed by the public to address current or additional issues or concerns.

3. Is the existing analysis valid in light of any new information or circumstances?

Yes. The Proposed Action would have no disproportionate impacts on minority populations or low income communities per Executive Order (EO) 12898 and would not adversely impact migratory birds per EO 13186.

4. Do the methodology and analytical approach used in the existing NEPA document(s) continue to be appropriate for the current proposed action?

Yes. The Environmental Assessment Decision Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052 methodology and analytical approach are appropriate to this proposed action.

5. Are the direct and indirect impacts of the current proposed action substantially unchanged from those identified in the existing NEPA document(s)? Does the existing NEPA document analyze site-specific impacts related to the current proposed action?

Yes. Direct and indirect impacts of the Proposed Action are unchanged from those identified in the existing NEPA documents. The Environmental Assessment Decision Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052 analyzed the direct, indirect, and site-specific impacts of the area covered under this present proposed action.

6. Are the cumulative impacts that would result from implementation of the current proposed action substantially unchanged from those analyzed in the existing NEPA document(s)?

Yes. The cumulative impacts that would result from the implementation of the Proposed Action would remain unchanged from those identified in the existing Environmental Assessment Decision Record, Little Snake Field Office, Programmatic SRP EA, CO-100-LS-01-052. No additional activities have been implemented on either that would change the impacts resulting from the Proposed Action.

7. Are the public involvement and interagency review associated with existing NEPA

document(s) adequate for the current proposed action?

Yes. Extensive public outreach through scoping and involvement of the public and other agencies occurred during the development of the EA.

Land Health Assessment

This action has been reviewed for conformance with the BLM's Public Land Health Standards adopted February 12, 1997. This action will not adversely affect achievement of the Public Land Health Standards.

Remarks:

Cultural Resources

The proposed undertaking has undergone several Class III cultural resource studies:

McDonald, Kae

2010 *Cow Creek To Ridgeview Trail, A Class III Cultural Resource Inventory Of A Proposed Trail For The Routt County Riders In Routt County, Colorado*. BLM LSFO 154.1.2010. OAH# RT.LM.NR143. Flattops Archaeological Consultants, Glenwood Springs, Colorado.

Morris, Robyn

2010 *Class III Cultural Resource Inventory Of Emerald Mountain Rotary Trail And Two Parking Area Alternatives*. BLM LSFO 10.48.2010. OAH# RT.LM.NR1078. Bureau of Land Management Little Snake Field Office, Craig, Colorado.

2007 *Class III Survey For Emerald Mountain Ridgeview Trail, Routt County, Colorado*. BLM LSFO 10.29.2007. OAH# RT.LM.NR1078. Bureau of Land Management Little Snake Field Office, Craig, Colorado.

The cultural studies did not identify any cultural resources eligible for the National Register within the area of potential effect for the proposed undertaking. The proposed undertaking will have no effect on historic properties. Under the terms of the Programmatic Agreement it may proceed with the following standard mitigative measures in place.

1. Any cultural and/or paleontological (fossil) resource (historic or prehistoric site or object) discovered by the holder, or any person working on his behalf, on public or Federal land shall be immediately reported to the authorized officer. Holder shall suspend all operations in the immediate area of such discovery until written authorization to proceed is issued by the authorized officer. An evaluation of the discovery will be made by the authorized officer to determine appropriate actions to prevent the loss of significant cultural or scientific values. The holder will be responsible for the cost of evaluation and the authorized officer will make any decision as to proper mitigation measures after consulting with the holder.
2. The operator is responsible for informing all persons who are associated with the operations that they will be subject to prosecution for knowingly disturbing historic or archaeological sites, or for collecting artifacts. If historic or archaeological materials are encountered or uncovered during any project activities, the operator is to immediately stop activities in the immediate vicinity of the find and immediately contact the authorized officer (AO) at (970) 826-5000. Within five working days, the AO will inform the operator as to:
 - Whether the materials appear eligible for the National Register of Historic Places;
 - The mitigation measures the operator will likely have to undertake before the identified area can be used for project activities again; and

- Pursuant to 43 CFR 10.4(g) (Federal Register Notice, Monday, December 4, 1995, Vol. 60, No. 232) the holder of this authorization must notify the AO, by telephone at (970) 826-5000, and with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), you must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the authorized officer.
3. If the operator wishes, at any time, to relocate activities to avoid the expense of mitigation and/or the delays associated with this process, the AO will assume responsibility for whatever recordation and stabilization of the exposed materials may be required. Otherwise, the operator will be responsible for mitigation costs. The AO will provide technical and procedural guidelines for the conduct of mitigation. Upon verification from the AO that the required mitigation has been completed, the operator will then be allowed to resume construction.
 4. Standard Stipulations for cultural resources are also attached in Standard Stipulations (Attachment 1-XVII K).

Native American Religious Concerns

Consultation for proposed general activities requiring recreational permits is consulted on annually with the tribes. Letters were sent to the tribes in the spring of 2012 describing general proposed recreational activities. No comments were received. Specific recreational activities requiring a permit are generally not consulted with the tribes unless they rise to a level that warrants specific consultation. The proposed activity will not require an evaluation due to the nature of the specific undertaking.

There are no known items, sites, or landscapes determined to be culturally significant to the tribes near the undertaking. The proposed action does not prevent access to any known sacred sites, prevent the possession of sacred objects, or interfere or otherwise hinder the performance of traditional ceremonies and rituals.

Conclusion

Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM’s compliance with the requirements of NEPA.

Attachments

Attachment 1 – Stipulations

Attachment 2 – Additional Stipulations

Attachment 1
DOI-BLM-CO-N010-2012-0050-DNA
SPECIAL RECREATION PERMIT TERMS, CONDITIONS AND STIPULATIONS
FOR ALL PERMITTED ACTIVITIES

Stipulations: The following standard stipulations are automatically included and apply to all permits (some additional stipulations are specific to only certain activities). Failure to comply with these stipulations may result in remedial actions listed below under Performance Evaluation, Section XVIII. B. Per 2932.40, violations of permit terms or stipulations may be subject to fines and imprisonment, in addition to administrative penalties.

I. RISKS, HAZARDS AND SAFETY

- A. Adequate first aid and safety equipment shall be provided while performing the permitted activities.
- B. All guides and employees responsible for clients in the field shall be trained in First Aid and hold a valid certification of training from the American Red Cross or its equivalent.
- C. In case of human death, or wildfire, involving the permitted operation, the County Sheriff shall be notified immediately, and the BLM shall be notified immediately after the Sheriff is notified.

II. INDEMNIFICATION

- A. The permittee shall indemnify, defend, and hold harmless the United States and/or its agencies and representatives from any and all demands, claims, or liabilities of every nature whatsoever, including, but not limited to damages to property, injuries to or death of persons, arising directly or indirectly from, or in any way connected with the authorized use and occupancy of the lands authorized for use under this permit.
- B. Insurance: Coverage shall be obtained for the permitted operations in the minimum liability coverage amounts of:

GENERAL GUIDELINES FOR MINIMUM INSURANCE REQUIREMENTS		
SRP Event or Activity	Per Occurrence	Per Annual Aggregate
Low Risk: general non-competitive and non-commercial activities such as group camping, group activities, mounted orienteering, backpacking, or dog trials.	\$300,000	\$600,000
Moderate Risk: whitewater boating, horse endurance rides, OHV events, mountain bike races, rock climbing (with ropes), ultra-light outings, rodeos	\$500,000	\$1,000,000
High Risk: bungee jumping, speed record events, unaided rock climbing, heli-skiing, or aviation assisted activities	\$1,000,000	\$2,000,000 - \$10,000,000

- C. An insurance certificate shall be submitted, stating the limits of coverage, identifying the “Department of the Interior, Bureau of Land Management” as additional insured, that includes the minimum shown above, expiration date, that the permittee or insurer will notify BLM 30 days in advance of termination or modification of the policy, or modification of such insurance, and a list of the activities that are permitted and insured.

III. LIMITATIONS

- A. This permit authorizes only temporary use in connection with the operations, during the period(s) and in the area(s) identified in the permit and authorized by an Annual Operating Authorization.
- B. If an existing commercial permittee wishes to sell or otherwise terminate his or her business and desires that permit privileges be transferred to a new owner, the permittee must notify the authorized officer in advance, in writing, and receive advance written approval for the permit transfer from the authorized officer.
- C. Use of Non-Public lands: This permit does not authorize use of non-BLM land (i.e. private, city, county, state, or other federal land).
- D. The applicant shall provide upon request the name(s) and address(s) of private landowners whose property is used in connection with the permitted operations, and evidence of permission to use such land.
- E. Access to Public Lands: The BLM does not guarantee legal access to public lands unless legal access for the general public is available. Where legal public access is not available, the permittee is responsible for obtaining permission from the landowner(s) to travel through or use private lands.
- F. Multi-Year Permits: A multi-year permit is not valid unless accompanied by a current Annual Operating Authorization.

- G. Joint Permit Requirement: This permit authorizes use of public lands in this Field Office; use of public lands in other Field Offices or National Forest lands must be approved under a separate or joint permit. Code of Federal Regulation citations for both the BLM and Forest Service are valid and will be enforced for joint permits on associated public lands.
- H. If a lion outfitter does not own their own dogs, they must furnish copies of all lease or rental *arrangements for the dogs and/or dog handler(s) that they plan on using. Dog handlers must be listed as guides.*

IV. ASSIGNMENT AND SUBLETTING OF PERMIT PRIVILEGES

The permittee may not assign permit privileges to a third party, including booking agents. The permittee or permittee's representative may not assign, contract, or sublease any portion of the permit authorization or interest therein, directly or indirectly, voluntarily or involuntarily. However, contracting of equipment or services may be approved by the authorized officer in advance, if necessary to supplement a permittee's operations. Such contracting should not constitute more than half the required equipment or services for any one trip or activity and the permittee must retain operational control of the permitted activity. If equipment or services are contracted, the permittee shall continue to be responsible for compliance with all stipulations and conditions of the permit.

The following is required:

- A. A third party advertisement used to book a trip must clearly indicate that the trip will be operated by the company holding the permit;
- B. Guides and employees must fall under federal and state employment regulations and be listed in the operating plan prior to each operating season. (ie. IRS Form-1099, independent contractor form).
- C. If you are proposing to employ guides or employees who are licensed and/or permitted outfitters elsewhere that must be disclosed at the time you submit their name and information on your guide list.
- D. Written notice must be given to the BLM to use equipment with outfitter markings (company names, logos, etc.) other than those of the permit holder prior to the time of use (hunt, launch, tour, etc.).

V. NON-EXCLUSIVE USE

- A. Roads, trails and trailheads, or campsites commonly in public use shall not be blocked or enclosed by the permittee.
- B. Public lands will generally remain available on a first-come, first served basis to other commercial and private recreational users.

VI. CONDUCT AND MANNERS

- A. The permittee is at all times responsible for the actions of himself, his employees, clients and guests in connection with the authorized operations, and shall not cause a public disturbance or engage in activities which create a hazard or nuisance.
- B. The permittee should practice the TREAD LIGHTLY and LEAVE NO TRACE land ethics and inform their clients about these practices and ensure that they follow them.

VII. MODIFICATION OR AMENDMENT

- A. The permittee shall request amendment or modification of the permit to provide for changes prior to issuance of annual operating authorization in: use areas or sites, season of use, services provided, fee structure, or any other changes in operations.

VIII. PAYMENTS

- A. Use Fee Payments: Permit fees are due and payable in advance based on estimated use gross receipts. Payments shall be sent to the Field Office by check, money order or cashier's check, made payable to the "Bureau of Land Management".
- B. Basis for Fee: The annual permit fee shall be three percent (3 %) of total client charges or \$100.00 annual minimum for commercial permits, or \$5.00 per person per day for events whichever is greater. Gross receipts shall be the sum of all payments made by clients for services rendered in connection with the permitted operations, before disbursement to private landowner for use of private land, payment to employees, and any other disbursement.
- C. Periodic Payments: At the Field Manager's discretion, when the estimated use fee is greater than one thousand dollars (\$1,000), a schedule for periodic payments may be arranged.
- D. End of Season Payment: The actual use fee shall be determined from the use reports. Payment should accompany the post-use reports and trip logs due 30 days after the last day of use or as specified on SRP.
- E. Refunds:
 - 1. No refunds of less than ten dollars (\$10.00) will be made.
 - 2. Unless requested in writing all overpayments will be credited for use for the following operating season.

- F. Late Payments
Late payment of fees may result in additional fee penalties, permit probation, suspension, and/or revocation, and interest and administrative handling charges.
- G. Deductions: Allowable deductions in permit fees shall be agreed upon in advance, and may include costs related to the permitted operations incurred by the permittee for long distance off-site transportation, and off-site lodging, per Handbook H-2930-1.
- H. Discounts for Non-Public Lands use (For Upland Use Only) must be requested and approved prior to use. No discounts are allowed for river related permits.

IX. USE REPORTS

- A. Trip Logs: Trip Logs shall be submitted within 30 days of the authorized use season or as specified on the permit, on a form provided by the BLM, or an approved equivalent. Trip logs shall indicate accurately the dates of use, location, type of use, number of clients, number of staff, vehicles and livestock used, total receipts, and any deductions claimed. Penalty fees may be charged for late reports.
- B. Post Use Report: A Post Use Report shall be submitted as specified or within 30 days of the last day of use authorized or as specified on permit, on a form provided by the BLM, or an approved equivalent. The post use report shall indicate accurately the total number of clients served during the term of the permit, total staff and total use, total receipts and total deductions claimed, discounts for time off public lands, and describe any accidents or injuries occurred, and management problems or concerns. Penalty fees will be charged for late reports.
- C. Late Use Reports: **Late submission of use reports may be cause for action against the permittee**, including late fees, probation, suspension, and/or revocation, and criminal penalties.
- D. Non-Use: Zero use must be requested in writing prior to the issuance of Annual Operating Authorization. Minimum payments still apply. The authorized officer may cancel a permit after two consecutive seasons of non-use. In certain areas covered by Special Recreation Management Plans, travel management plans, or other site-specific plans, special provisions regarding non-use of permits may apply.

X. INSPECTION OF RECORDS AND PREMISES

- A. The BLM and its cooperators, including Colorado Parks and Wildlife (CPW), USDA Forest Service shall at all times have the right to enter the premises

located on public land on official business. The permittee shall allow reasonable access to private lands owned or utilized in the permitted operation for purposes related to administration of the permit.

XI. SIGNING AND ADVERTISING

- A. Signs or advertising devices on public land require advance approval on the location, design, size, shape or color, and message.
- B. All advertising shall be accurate and not misrepresent in any way the services or accommodations provided, or the area authorized for use. Brochures and other advertising materials shall include the following disclosure: "All or part of this operation is conducted on Public Lands under special permit from the U.S. Bureau of Land Management".
- C. Official BLM agency symbols may not be used in advertising.

XII. CAMPSITES

- A. Camps may be set up for no longer than necessary, and no earlier than 5 days prior to the first day of use authorized and must be removed within five days after the authorized use period. No year-round, permanent camps may be established on BLM lands; only temporary facilities are permitted.
- B. Camps shall be located to avoid conflict with public road and trail traffic, and stream or lake access, and to the extent possible shall be located out of sight of major trails.
- C. All campsites and temporary improvements shall be as described in the approved operating plan.
- D. All campsite facilities including but not limited to tents, latrines, livestock control facilities, shall be located at least 200 feet from the nearest spring, stream, lake, pond or reservoir unless specifically authorized otherwise.
- E. All campsites must be approved prior to use. Clearances may be required, such as inventories for cultural resources and/or for threatened or endangered species.

XIII. CAMPFIRES

- A. Unless permanent fire rings are designated, open campfires shall be built only in areas free of hazardous fuels. Fire rings or pits shall be set on bare mineral soil. After use, fire rings or pits shall be obliterated and the site rehabilitated. Open fires may be prohibited during periods of extremely high fire hazard by order of the BLM, the applicable county or the State of Colorado.

- B. Campfires shall be completely extinguished when left unattended. The permittee is responsible for all fires started by him/herself, employees, or clients, and may be held responsible for fire suppression costs resulting from wildfire caused by his/her operations.
- C. An axe, shovel, water bucket or extinguisher for fire control shall be available at each campfire.
- D. Wildfire caused by the permitted operation shall be reported immediately to the nearest BLM office. The permittee is responsible for informing employees, clients, and participants of the current fire danger and required restrictions or precautions that may be in effect.

XV. LIVESTOCK USE

- A. Authorized pasture use of livestock is temporary and limited to transportation purposes, and will not establish a priority for future use of the range. Rangeland grazing may be restricted and feed may be required to be packed, all feed supplied as part of permitted operations must be **certified weed free**. The permittee shall prevent localized over grazing and damage to vegetation by permitted livestock.
- B. Construction of permanent fences or corrals is not permitted. Temporary livestock control structures may be erected with advanced approval, including corrals and hitching racks, provided they are dismantled after the use season.
- C. The permittee may be required to pay additional fees for forage consumed by livestock during the permitted operations. This fee will be at the current rate for grazing use.
- D. Livestock shall not be tied to trees for other than short term, temporary stops. Hobbles, pickets, high lines or corrals shall be used to control livestock.
- E. Livestock control structures (corrals, hitching racks, pickets, high lines) must be at least 200 feet from springs, streams, lakes, reservoirs or other water sources. Whatever method of livestock control is used, it will not result in removal or death of the under story vegetation.
- F. Pack stock may be grazed if permitted by the SRP. If electric fences are used, they will be moved every 3 days to a new area. If picket ropes are used, they will be moved every other day to a new area. If high lines are used, their location must be approved in advance.

XVI. EQUIPMENT CACHES

Food and/or equipment caches require advance authorization. When authorized, caches shall be neatly stored out of sight of roads and trails. Food caches must be “wildlife proof.”

XVII. RESOURCE PROTECTION

- A. Aesthetics: Permittee shall protect the scenic and aesthetic values of the public lands used in the operations, and maintain premises on permitted areas to acceptable standards of repair, orderliness, and cleanliness.
- B. Rehabilitation: After camps and other temporary facilities are dismantled, insofar as practical, the area shall be left in a natural state. Reseeding with BLM approved seed mix may be required of any areas disturbed by campsites.
- C. Sanitation: Self contained or pit type toilets/privies, with or without tent coverings, shall be used at all campsites on public land. The permittee will be responsible for establishing a latrine for all permitted camps and for final rehab when the camp is removed. Waste from self contained toilets must be disposed of at a State approved sewage disposal facility. When abandoned, toilet pits shall be covered with a minimum of 12 inches of topsoil and back filled to pre-existing grade. While in use, human waste in pits shall be covered with a layer of topsoil or lime after each individual use.
- D. Trash Disposal: Camps and other permitted areas shall be regularly cleaned and no trash or litter shall be allowed to accumulate. Combustible trash may be burned when campfires are authorized. All non-combustible trash, including but not limited to tin cans, spent brass, glass bottles, foil, and wire shall be packed out. Trash shall not be buried on public land.
- E. Dead animals and their remains shall be disposed of at least 200 feet away from springs, streams, lakes, ponds, campsites, roads/trails.
- F. Waste or by-products of any kind shall not be discharged into any stream, reservoir, lake or pond.
- G. Soils: Permittee shall conduct the permitted operations in a manner which prevents rutting, or soil erosion.
- H. Vegetation Damage/Removal: All operations shall be conducted in a manner which prevents damage to or loss of vegetation cover. Poles may be cut for temporary facilities if these are authorized by permit on public land. Cutting, clearing or defacing of standing trees, alive or dead, or clearing and cutting of shrub/groundcover for any other reason shall require specific advance authorization. When tree cutting is authorized, stumps shall be left no higher

than 6 inches above ground level and slash shall be lopped and scattered. A separate permit is required for removal and transportation of woodland/tree products from public land.

- I. Firewood Cutting: Firewood may be cut on public land only for campsite use while on public land, and may not be transported off the public lands without a separate firewood cutting permit. Only dead and down trees shall be cut for firewood, with stumps left no higher than 6 inches above ground level, and the slash shall be lopped and scattered.
- J. Protection of Public Property: Signs, equipment, markers, fences, livestock watering facilities or any other property found on public land shall not be damaged, destroyed, defaced, removed, or disturbed.
- K. Cultural Resources: All persons associated with operations under this permit must be informed that any objects or sites of cultural, paleontological, and scientific interest, such as historic or prehistoric resources, graves or grave markers, human remains, ruins, cabins, rock art, fossils, or artifacts shall not be damaged, destroyed, removed or disturbed. If in connection with operations under this permit any of the above resources are discovered, the permittee shall immediately stop operations in the immediate area of the discovery, protect such resources, and notify the BLM authorized officer of the discovery. The immediate area of the discovery must be protected until the operator is notified in writing to proceed by the authorized officer.
- L. Wilderness and Wilderness Study Areas (WSA): Use of electric generators, all motorized and mechanized equipment including chainsaws and vehicles is prohibited within a Wilderness and most WSAs. Check with your local office to see if there are exceptions. If supplemental livestock feed is used, cubed, pelletized, or processed feed or **certified weed free hay** shall be used.
- M. Permittee is responsible for knowing where Public Land, Wilderness, and WSA boundaries are and the restrictions that may apply to an area of operation within these boundaries. Maps and information concerning restrictions are available at the local Field Office.
- N. Facility Construction: Construction of permanent facilities or improvements of any kind, including but not limited to roads, trails or structures, is not approved by this permit and shall require separate written authorization.

XVIII. PERFORMANCE EVALUATION

- A. The BLM shall conduct periodic inspections and performance evaluations of the permittee's operations and compliance with the terms, conditions and stipulations of the Permit.

Evaluation Ratings are as follows:

Acceptable means that the permittee has generally operated in accordance with the terms and conditions established for the permit

Probationary means that the permittee has not operated in full accordance with the terms and conditions of the permit. Corrective action by the holder is mandatory and continued operation at this level of performance is unacceptable. If this performance level is received 2 years in a row, the authorized officer may suspend or terminate the permit and/or deny future permit applications.

Unacceptable means that the permittee has not operated in accordance with the terms and conditions of the permit and cannot be allowed to continue. This performance level will result in suspension or termination of permit privileges as appropriate to the circumstances.

- B. Violations and Penalties: Any violation of the permit terms, conditions and stipulations may be subject to penalties prescribed in 43 CFR 2932.40, which may include fines up to \$1,000 and/or imprisonment up to 12 months. Additionally, any such violation may result in permit termination, suspension, or probation. Violations may also be cause for the BLM to deny approval of a Special Recreation Permit or Operating Authorization for subsequent years. If a permit is terminated, permit applications will not be approved for any person connected to or affiliated with the operation under a terminated or suspended permit.

XVIV. CERTIFICATION

I have read these terms, conditions and stipulations and understand that I must abide by them while performing activities in connection with the permitted operations.

Additional Stipulations

The following additional stipulations apply to the Steamboat Stinger Mountain Bike Race and Marathon/Half Marathon Permit:

1. Event will be limited to 400 participants and is subject to change from year to year.
2. The aid station at Kemry Draw will have a porta potty on site.
3. The gates at Kemry and Moose Draws will be attended during the race to prevent any livestock from escaping. At the conclusion of the race, all gates will be closed.
4. The race areas around Kemry and Moose Draws will be roped off to prevent spectators from entering the course.
5. An Emergency Medical Technician will be stationed at the aid station at Kemry Draw.

Certification:

I have read these additional stipulations and understand that I must abide by them while performing activities in connection with the permitted operations.
