## **DOCUMENTATION OF LAND USE PLAN CONFORMANCE AND NEPA ADEQUACY**

NUMBER: DOI-BLM-CO-N010-2013-0051

PESTICIDE USE PROPOSAL NUMBER: CON010-13-009-P to CON010-13-015-P

PROJECT NAME: Herbicide application for the control of noxious and invasive weeds on BLM lands in the Little Snake Field Office resource area throughout Routt County.

LEGAL DESCRIPTION: BLM parcels within Routt County, Colorado. See map Attachment #1.

APPLICANT: Little Snake Field Office BLM and Routt County Weed Program

### **A. Describe the Proposed Action**

Herbicide applications would be made to control noxious weeds and invasive species in the resource area. Additionally, some of the herbicides would be used for bareground applications along roadways or in parking areas. Primary sites of treatment include road rights of way, grazing allotments, and recreation project areas. Treatment of weeds would be implemented to reduce spread and invasion of weeds that reduce forage, habitat value and recreation opportunities. Herbicide application methods include truck and ATV mounted boom sprayers or hand guns and backpack sprayers. Summary below describes chemicals included in proposals and basic herbicide information. Specific information can be found on the PUPs and herbicide labels. Surfactant and Hi-Light may be included in tank mixes. The herbicides may be used individually or in a tank mix depending on the target weeds.

PUP #	Trade Name	Chemical Name	App. Rate (Formulated Product)	App. Rate (Chemical)
CON010-13-009-P	2,4-D (various)	2,4-D	1 qt/ac	1 lb ae/ac/yr
CON010-13-010-P	Arsenal Powerline	imazapyr	3-6 pts/ac	0.75 – 1.5 lb ae/ac/yr
CON010-13-011-P	Escort	metsulfuron methyl	1 oz/ac	0.0375 lb ai/ac/yr
CON010-13-012-P	Glystar	glyphosate	2-5 qts/ac	1.5 – 3.75 lb ae/ac/yr
CON010-13-013-P	Sahara	imazapyr	12 lbs/ac	0.93 lbs ai/ac/yr
		diuron		7.47 lbs ai/ac/yr
CON010-13-014-P	Telar	chlorsulfuron	0.5-1 oz/ac	0.0234 - 0.0469 lb ai/ac/yr
CON010-13-015-P	Tordon	picloram	1 qt/ac	0.5 lb ae/ac/yr

All applications would conform to the stipulations in Attachment #2.

Applicant will be responsible for all required certifications and permits necessary to apply herbicides in the State of Colorado.

#### **B. Land Use Plan (LUP) Conformance**

LUP Name: Little Snake Record of Decision and Resource Management Plan (RMP)  
Date Approved: October, 2011

Final RMP/EIS, August, 2010

Draft RMP/EIS, January, 2007

The proposed action is in conformance with the applicable LUPs because it is specifically provided for in the following LUP decisions:

The Proposed Action implements Vegetation Goals and Objectives on page RMP-16 of the RMP to reduce the occurrence of noxious weeds and undesirable plant species by ensuring that all land use actions that could potentially increase the occurrence of noxious weeds are conducted by using BMPs and applying principles of integrated pest management. Additionally, weed management will be integrated across landscape and ownership boundaries by pursuing whenever possible, the use of cooperative agreements to coordinate weed management actions and identify ways of partnering with resource users and other stakeholders to reduce the occurrence of noxious weeds. The proposed action has been reviewed for conformance with this plan (43 CFR 1610.5, BLM MS 1601.03). The proposed action of approval of a Pesticide Use Proposal is in conformance with the Little Snake Record of Decision and Approved Resource Management Plan.

Other Documents:

Colorado Public Land Health Standards and Guidelines for Livestock Grazing  
Date Approved: February 12, 1997

The Federal Land Policy and Management Act of 1976, as Amended (43 USC 1752)

Rangeland Reform Final Environmental Impact Statement, December 1994.

The proposed action also conforms with county use plans.

**C. Identify applicable NEPA documents and other related documents that cover the proposed action.**

Vegetation Treatments on BLM Lands in 17 Western States Programmatic Environmental Impact Statement (PEIS) (June, 2007).

DOI-BLM-CO-N010-2009-0025-EA, Little Snake Field Office Integrated Pest Management Plan resulted in a Finding of No Significant Impact. This Environmental Assessment considered the options of Integrated Pest Management as outlined in the FEIS and adopted the standard operation procedures for vegetation treatment program implementation in the LSFO.

**D. NEPA Adequacy Criteria**

**1. Is the current proposed action substantially the same action (or is a part of that action) as previously analyzed? Is the current proposed action located at a site specifically analyzed in an existing document?**

Yes. There are no changes from the proposed action analyzed in DOI-BLM-CO-N010-2009-0025-EA, congruent with pesticide use proposal stipulations (see Attachment #1). The Pesticide Use Proposals that are reviewed and approved based on the existing NEPA documents complete the site-specific analysis for these herbicide applications.

**2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the current proposed action, given current environmental concerns, interests, and resource values?**

Yes. The density of some invasive noxious and undesirable plant species has been reduced in some areas, and although, noxious and undesirable weeds have been identified in new locations, there have been no changes in environmental concerns, interests or resource values since DOI-BLM-CO-N010-2009-0025-EA.

**3. Is the existing analysis valid in light of any new information or circumstances?**

Yes. The Proposed Action would have no disproportionate impacts on minority populations or low income communities per Executive Order (EO) 12898 and would not adversely impact migratory birds per EO 13186.

Subject to WO-IM 2011-154 and in accordance with BLM policy, some of the proposed project areas fall within areas greater than 5000 acres which may be suitable as lands with wilderness

characteristics. The proposed action may impact but not impair wilderness characteristics; however, actions to control the expansion of invasive exotic species is appropriate and consistent with applicable requirements of law and other resource management considerations, and is approved by the field manager.

**4. Do the methodology and analytical approach used in the existing NEPA document(s) continue to be appropriate for the current proposed action?**

Yes. The methodology and analytical approach used in the existing NEPA documents continue to be appropriate for the current proposed action. Impacts to all resources were analyzed.

**5. Are the direct and indirect impacts of the current proposed action substantially unchanged from those identified in the existing NEPA document(s)? Does the existing NEPA document analyze site-specific impacts related to the current proposed action?**

Yes. Direct and indirect impacts of the current proposed action are unchanged from those identified in the existing NEPA documents. The Pesticide Use Proposals that are reviewed and approved based on the existing NEPA documents complete the site-specific analysis for these herbicide applications.

**6. Can you conclude without additional analysis or information that the cumulative impacts that would result from implementation of the current proposed action substantially unchanged from those analyzed in the existing NEPA document(s)?**

Yes. The cumulative impacts that would result from implementation of the proposed action would remain unchanged from those identified in the existing NEPA documents.

**7. Are the public involvement and interagency review associated with existing NEPA document(s) adequate for the current proposed action?**

Yes. Public outreach through scoping and involvement of the public and other agencies occurred in the development of the RMP/EIS and [DOI-BLM-CO-N010-2009-0025-EA](#).

**E. Interdisciplinary Analysis:** Identify those team members conducting or participating in the preparation of this worksheet.

**Land Health Assessment**

This action has been reviewed for conformance with the BLM’s Public Land Health Standards adopted February 12, 1997. This action meets Public Land Health Standards. Land health assessments have been conducted in landscapes and watersheds within the Field Office Planning Area. Invasive plants, especially annuals weeds have been found to be a problem on many sites and once established are a threat to the herbaceous component of the ecosystems.

**Conclusion**

Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM’s compliance with the requirements of NEPA.

### **BLM LSFO PUP Stipulations**

---

#### **General Stipulations:**

- All herbicide treatments on BLM administered lands will comply with applicable federal and state statutory and regulatory requirements.
  - Manufacturers label directions and guidelines, including but not limited to, application rates, uses, handling instructions, storage and disposal requirements, will be followed
  - All BLM procedures (BLM Handbook H-9011-1 Chemical Pest Control) and Manuals 1112 Safety, 9011 Chemical Pest Control, and 9015 Integrated Weed Management, and any other BLM requirements will be followed. Where more restrictive, BLMs requirements for rates, uses, and handling instructions will apply.
  - Only certified applicators, or those directly supervised by a certified applicator, may apply herbicide on BLM administered public lands.
- 

To ensure that risks to human health and the environment from herbicide treatments are kept to a minimum, and that all practicable means to avoid or minimize environmental harm have been adopted, the following will apply:

- All herbicide treatments will be consistent with the Standard Operating Procedures (SOPs) presented in the ROD of the 2007 Final *Vegetation Treatments Using Herbicides on BLM Lands in 17 Western States Programmatic Environmental Impact Statement (PEIS)*.
  - Measures to mitigate potential adverse environmental effects as a result of herbicide treatments as found in the ROD of the PEIS.
  - All conservation measures, designed to protect plants and animals listed or proposed for listing as threatened or endangered under the Endangered Species Act, as found in the Biological Assessment of the PEIS.
- 

#### **Cultural Resources Discovery**

The applicator is responsible for informing all persons who are associated with the operations that they will be subject to prosecution for knowingly disturbing historic or archaeological sites or for collecting artifacts. If historic or archaeological materials are encountered or uncovered during any project activities, the operator is to immediately stop activities in the immediate vicinity of the find and immediately contact the authorized officer (AO) at (970) 826-5000.

Within five working days, the AO will inform the operator as to:

- Whether the materials appear eligible for the National Register of Historic Places;
- The mitigation measures the operator will likely have to undertake before the identified area can be used for project activities again; and
- Pursuant to 43 CFR 10.4(g) (Federal Register Notice, Monday, December 4, 1995, Vol. 60, No. 232) the holder of this authorization must notify the AO, by telephone at (970) 826-5000, and with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), you must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the authorized officer.
