

Open to Geothermal Leasing Subject to Timing Limitations

ALTERNATIVE A

ALTERNATIVE B

ALTERNATIVE C

No warranty is made by the BLM for the use of the data for purposes not intended by the BLM.

Timing Limitations protect resources that are sensitive to disturbance during certain time periods and are generally applicable to specific areas, seasons, and resources and commonly applied to wildlife activities and habitat. Buffer zones specific to species and location are also used to further mitigate impacts from any human activities. All leasing allocations are on BLM land or Federal Mineral Estate.

- Timing Limitations
- San Luis Valley Field Office RMP Planning Boundary
- Federal Mineral Split-estate

- Surface Administration
- Bureau of Land Management
 - Colorado Parks and Wildlife
 - National Park Service (Withdrawn from Geothermal Leasing)

- Private
- State
- US Fish and Wildlife Service
