**CATEGORICAL EXCLUSION**

NUMBER: DOI-BLM-CO-110-2013-0048-CX

CASEFILE/PROJECT NUMBER: COC53600

PROJECT NAME: Mountain Communications Baxter Pass Comm Site

LEGAL DESCRIPTION: Sixth Principal Meridian, Colorado  
T. 5 S., R. 103 W.,  
sec. 27, SE $\frac{1}{4}$ SW $\frac{1}{4}$ .

APPLICANT: Mountain Communications and Electronics, Inc.

DESCRIPTION OF PROPOSED ACTION: Right-of-way (ROW) COC53600 was issued to Motorola, Inc. on April 6, 1992. Mountain Communications and Electronics, Inc. submitted an application for renewal of the existing Baxter Pass communications site (see Exhibit A). The two way radio communications site includes a 10 ft by 20 ft equipment building and a 100 ft tower. The site is 50 ft by 50 ft and contains approximately 0.06 acres. Mountain Communications and Electronics, Inc. plans to remove the existing fence in the summer of 2013.

No additional disturbance is authorized by this action, and all applicable terms and conditions of the original ROW grant shall be carried forward and remain in full force and effect. The communications use lease would be issued for a term of 30 years.

PLAN CONFORMANCE REVIEW: The Proposed Action is subject to and has been reviewed for conformance with (43 CFR 1610.5-3, BLM 1601.08) the following plan:

Name of Plan: White River Record of Decision and Approved Resource Management Plan (ROD/RMP).

Date Approved: July 1, 1997

Decision Number/Page: Page 2-49

Decision Language: "To make public lands available for the siting of public and private facilities through the issuance of applicable land use authorizations, in a manner that provides for reasonable protection of other resource values."

**CATEGORICAL EXCLUSION REVIEW:** The Proposed Action qualifies as a categorical exclusion under 516 DM 11.9, E9: “*Renewals and assignments of leases, permits, or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations.*”

The Proposed Action has been reviewed with the list of extraordinary circumstances (43 CFR 46.215) described in the table below.

Extraordinary Circumstance	YES	NO
a) Have significant adverse effects on public health and safety.		X
b) Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; national monuments; migratory birds; and other ecologically significant or critical areas.		X
c) Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources.		X
d) Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		X
e) Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		X
f) Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		X
g) Have significant impacts on properties listed, or eligible for listing, in the National Register of Historic Places as determined by either the bureau of office.		X
h) Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have adverse effects on designated Critical Habitat for these species.		X
i) Violate a Federal law, or a State, local or tribal law or requirement imposed for the protection of the environment.		X
j) Have a disproportionately high and adverse effect on low income or minority populations		X
k) Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly affect the physical integrity of such sacred sites.		X
l) Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species.		X

INTERDISCIPLINARY REVIEW:

The Proposed Action was presented to, and reviewed by, the White River Field Office interdisciplinary team on 3/5/2013. A complete list of resource specialists who participated in this review is available upon request from the White River Field Office. The table below lists resource specialists who provided additional remarks concerning cultural resources and special status species.

Name	Title	Resource	Date
Michael Selle	Archaeologist	Cultural Resources, Native American Religious Concerns	3/26/2013
Laura Dixon	Wildlife Biologist	Special Status Wildlife Species	3/8/2013
Baili Foster	Biological Technician – plants	Special Status Plant Species	3/8/2013

REMARKS:

*Cultural Resources:* The Proposed Action is to renew a right-of-way for an existing communications tower built during the early 1980's. At the time a good faith effort was made to inventory the proposed disturbance (Babcock 1981) though the mapping of the day does not indicate the level of accuracy currently available to workers; therefore, the map locations do not agree. However, the renewal does not entail any new ground disturbance, and there is no anticipated impact to cultural resources.

*Native American Religious Concerns:* No Native American religious concerns are known in the area, and none have been noted by Northern Ute Tribal authorities. Should recommended inventories or future consultations with Tribal authorities reveal the existence of such sensitive properties, appropriate mitigation and/or protection measures may be undertaken.

*Paleontological Resources:* The communications tower is located in an area generally mapped as the Douglas Creek member of the Green River formation (Tweto 1979), which the BLM WRFO has classified as a Potential Fossil Yield Classification (PFYC) 4 formation indicating that it has the potential to produce scientifically noteworthy fossil resources. However, since no new ground disturbance is anticipated, there should be no new impacts to fossil resources from the Proposed Action.

*Special Status Wildlife Species:* There is no new disturbance associated with the Proposed Action. Therefore, there are no special status wildlife species issues or concerns associated with the Proposed Action.

*Special Status Plant Species:* There are no special status plant species known to occur near the Proposed Action. Therefore, there are no special status plant species issues or concerns associated with the Proposed Action.

MITIGATION:

1. All applicable terms and conditions of original right-of-way grant COC53600 are carried forward and remain in full force and effect.
2. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
3. New construction authorized by an amendment to an existing communications use authorization must also meet the R-56 standards.
4. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.
5. Any proposal involving additional surface disturbance outside of the authorized right-of-way requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.
6. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.
7. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way.

Any request for a "Notice to Proceed" must be made to the authorized officer, who will review the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys by a third party contractor at the expense of the holder. Additional measures may be required to protect special status species or other resources.

8. The holder shall post the authorization number COC53600, the name, and phone number of the holder in an exterior location visible to the entrance of the building.

9. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.

10. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.

11. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the AO.

12. The holder is responsible for informing all persons who are associated with the project operations that they will be subject to prosecution for disturbing or collecting vertebrate fossils, collecting large amounts of petrified wood (over 25 lbs./day, up to 250 lbs./year), or collecting fossils for commercial purposes on public lands.

13. If any paleontological resources are discovered as a result of operations under this authorization, the holder or any of his agents must stop work immediately at that site, immediately contact the BLM Paleontology Coordinator, and make every effort to protect the site from further impacts, including looting, erosion, or other human or natural damage. Work may not resume at that location until approved by the AO. The BLM or designated paleontologist will evaluate the discovery and take action to protect or remove the resource within 10 working days. Within 10 days, the operator will be allowed to continue construction through the site, or will be given the choice of either (a) following the Paleontology Coordinator's instructions for stabilizing the fossil resource in place and avoiding further

disturbance to the fossil resource, or (b) following the Paleontology Coordinator's instructions for mitigating impacts to the fossil resource prior to continuing construction through the project area.

COMPLIANCE PLAN: On-going compliance inspections and monitoring will be conducted by the BLM White River Field Office staff during and after construction. Specific mitigation developed in this document will be followed. The holder will be notified of compliance related issues, and depending on the nature of the issue(s), will be provided 30 days to resolve such issues.

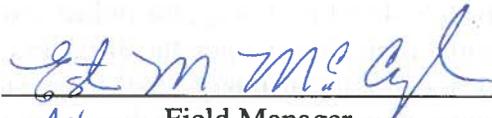

NAME OF PREPARER: Stacey Burke

NAME OF ENVIRONMENTAL COORDINATOR: Heather Sauls

COMPLIANCE WITH NEPA

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

**DECISION RECORD**

**PROJECT NAME:** Mountain Communications Baxter Pass Comm Site Renewal

**CATEGORICAL EXCLUSION NUMBER:** DOI-BLM-CO-110-2013-0048-CX

**DECISION**

It is my decision to implement the Proposed Action, as mitigated in DOI-BLM-CO-110-2013-0048-CX, authorizing the issuance of communications use lease COC53600 for continued use of the existing Baxter Pass communications site.

**Mitigation Measures**

1. All applicable terms and conditions of original right-of-way grant COC53600 are carried forward and remain in full force and effect.
2. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
3. New construction authorized by an amendment to an existing communications use authorization must also meet the R-56 standards.
4. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.
5. Any proposal involving additional surface disturbance outside of the authorized right-of-way requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.
6. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.

7. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way. Any request for a "Notice to Proceed" must be made to the authorized officer, who will review the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys by a third party contractor at the expense of the holder. Additional measures may be required to protect special status species or other resources.

8. The holder shall post the authorization number COC53600, the name, and phone number of the holder in an exterior location visible to the entrance of the building.

9. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.

10. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.

11. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the AO.

12. The holder is responsible for informing all persons who are associated with the project operations that they will be subject to prosecution for disturbing or collecting vertebrate fossils, collecting large amounts of petrified wood (over 25 lbs./day, up to 250 lbs./year), or collecting fossils for commercial purposes on public lands.

13. If any paleontological resources are discovered as a result of operations under this authorization, the holder or any of his agents must stop work immediately at that site, immediately contact the BLM Paleontology Coordinator, and make every effort to protect the site from further impacts, including looting, erosion, or other human or natural damage. Work may not resume at that location until approved by the AO. The BLM or designated paleontologist will evaluate the discovery and take action to protect or remove the resource

within 10 working days. Within 10 days, the operator will be allowed to continue construction through the site, or will be given the choice of either (a) following the Paleontology Coordinator's instructions for stabilizing the fossil resource in place and avoiding further disturbance to the fossil resource, or (b) following the Paleontology Coordinator's instructions for mitigating impacts to the fossil resource prior to continuing construction through the project area.

**COMPLIANCE WITH LAWS & CONFORMANCE WITH THE LAND USE PLAN**

This decision is in compliance with the Endangered Species Act and the National Historic Preservation Act. It is also in conformance with the 1997 White River Record of Decision/Approved Resource Management Plan.

**PUBLIC INVOLVEMENT**

The BLM informed the public about this project by listing it on the online WRFO NEPA Register on 3/5/2013 and a copy of the completed Categorical Exclusion will be posted on the WRFO website.

**RATIONALE**

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

**ADMINISTRATIVE REMEDIES**

This decision shall take effect immediately upon the date it is signed by the Authorized Officer and shall remain in effect while any appeal is pending unless the Interior Board of Land Appeals issues a stay (43 CFR 2801.10(b)). Any appeal of this decision must follow the procedures set forth in 43 CFR Part 4. Within 30 days of the decision, a Notice of Appeal must be filed in the office of the Authorized Officer at White River Field Office, 220 East Market St., Meeker, CO 81641 with copies sent to the Regional Solicitor, Rocky Mountain Region, 755 Parfet St., Suite 151, Lakewood, CO 80215, and to the Department of the Interior, Board of Land Appeals, 801 North Quincy St., MS300-QC, Arlington, VA, 22203. If a statement of reasons for the appeal is not included with the notice, it must be filed with the Interior Board of Land Appeals at the above address within 30 days after the Notice of Appeal is filed with the Authorized Officer.
