CATEGORICAL EXCLUSION

NUMBER: DOI-BLM-CO-N05-2014-0095-CX

CASEFILE/PROJECT NUMBER: See Table 1

PROJECT NAME: Red Rock Gathering Renewals

LEGAL DESCRIPTION: Sixth Principal Meridian, Colorado
See Table 1

APPLICANT: Red Rock Gathering Company, LLC

DESCRIPTION OF PROPOSED ACTION: Red Rock Gathering has requested the renewal of nine rights-of-way. Review of the files show that there have been no environmental concerns, the grants are in good standing, and are being used for the authorized purpose.

No additional disturbance is authorized by this action, and all applicable terms and conditions of the original ROW grants shall be carried forward and remain in full force and effect.

Table 1. Red Rock Gathering ROWs

COC	LEGAL	WIDTH (FT)	LENGTH (FT)	AREA
25122BX	T. 4 S., R. 103 W., Section 22, E $\frac{1}{2}$ NE $\frac{1}{4}$	35	2,352	1.890 ac.
23734BP	T. 1 S., R. 102 W., Section 14, NW $\frac{1}{4}$ NW $\frac{1}{4}$	35	897.6	0.722 ac.
34330	T. 4S., R. 102 W., Section 25, N $\frac{1}{2}$ NW $\frac{1}{4}$	30	1,500	1.03 ac.

COC25122BX: A 4½” natural gas pipeline 2,352 feet in length, 35 feet in width, with total disturbance of 1.890 acres more or less. This ROW was issued on 12/11/1981 and expired on 6/20/2011. This pipeline is in use three months out of the year serving Sloan #1 Dave Terrell.

COC23734BP: A 4½” natural gas pipeline 897.6 feet in length, 35 feet in width, with total disturbance of 0.722 acres more or less. This ROW was issued on 11/24/1982 and expired on 12/31/2012. This pipeline serves the North Douglas Creek 4-14-1-2.

COC34330: An access road to Foundation Creek Compressor Station. The road is 1,500 feet in length, 30 feet in width, with a total disturbance of 1.03 acres more or less. This ROW was issued on 9/15/1982 and expired on 9/14/2012.

COC34316: A 4½” natural gas pipeline 3,510 feet in length, 35 feet in width, with total disturbance of 2.88 acres more or less. This ROW was issued on 7/21/1982 and expired on 7/20/2012. This pipeline serves Taiga Mountain 6-14.

COC34264: A LPG Truck Loading Station (4.25 acres) with pipeline tie-in, 317 feet in length, 50 feet in width, with total disturbance of 4.614 acres, more or less. This ROW was issued on 4/9/1982 and expired on 4/8/2012.

COC37756: A 4½” natural gas pipeline 648.4 feet in length, 35 feet in width, with total disturbance of 0.521 acres more or less. This ROW was issued on 10/4/1983 and expired on 10/3/2013.

COC25122DD: A 4½” natural gas pipeline 21,889 feet in length, 35 feet in width, with total disturbance of 17.588 acres more or less. This ROW was issued on 9/28/1983 and expired on 1/27/2013. This pipeline serves Texas Mountain 2, 3, and 6 wells.

COC23734BX: A 4½” natural gas pipeline 3,951 feet in length, 35 feet in width, with total disturbance of 3.175 acres more or less. This ROW was issued on 5/25/1984 and expired on 5/24/2014. This pipeline ties into Northwest Pipelines Lateral 8-17.

COC24402AU: A 4½” natural gas pipeline 5,800 feet in length, 35 feet in width, with total disturbance of 4.660 acres more or less. This ROW was issued on 8/28/1983 and expired on 6/27/2013. This pipeline serves SW Energy L-35.

PLAN CONFORMANCE REVIEW: The Proposed Action is subject to and has been reviewed for conformance with (43 CFR 1610.5-3, BLM 1601.08) the following plan:

Name of Plan: White River Record of Decision and Approved Resource Management Plan (ROD/RMP).

Date Approved: July 1, 1997

Decision Number/Page: Page 2-49

Decision Language: To make public lands available for the siting of public and private facilities through the issuance of applicable land use authorizations, in a manner that provides for reasonable protection of other resources values.

CATEGORICAL EXCLUSION REVIEW: The Proposed Action qualifies as a categorical exclusion under 516 DM 11.9, E9: *“Renewals and assignments of leases, permits, or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations”*.

The Proposed Action has been reviewed with the list of extraordinary circumstances (43 CFR 46.215) described in the table below.

Extraordinary Circumstance	YES	NO
a) Have significant adverse effects on public health and safety.		X
b) Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; national monuments; migratory birds; and other ecologically significant or critical areas.		X
c) Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources.		X
d) Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		X
e) Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		X
f) Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		X
g) Have significant impacts on properties listed, or eligible for listing, in the National Register of Historic Places as determined by the bureau.		X
h) Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have adverse		X

Extraordinary Circumstance	YES	NO
effects on designated Critical Habitat for these species.		
i) Violate a Federal law, or a State, local or tribal law or requirement imposed for the protection of the environment.		X
j) Have a disproportionately high and adverse effect on low income or minority populations.		X
k) Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly affect the physical integrity of such sacred sites.		X
l) Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species.		X

INTERDISCIPLINARY REVIEW:

The Proposed Action was presented to, and reviewed by, the White River Field Office interdisciplinary team on 6/24/2014. A complete list of resource specialists who participated in this review is available upon request from the White River Field Office. The table below lists resource specialists who provided additional remarks concerning cultural resources and special status species.

Name	Title	Resource	Date
Michael Selle	Archaeologist	Cultural Resources, Native American Religious Concerns	8/26/2014
Lisa Belmonte	Wildlife Biologist	Special Status Wildlife Species	7/5/2014
Justina Thorsen	Ecologist	Special Status Plant Species	7/8/2014

REMARKS:

Cultural Resources:

C-15122BX: No sites known within the ROW. The ROW is in the channel bottom with potential for subsurface remains, therefore an archaeological monitor of all excavations is required.

C-23732BP: No known cultural remains in ROW.

C-34330: Covered by acceptable surface inventory but in bajada/alluvium, therefore excavations require an archaeological monitor.

C-34316: Does not follow any inventoried routes in some areas. No valid inventory data or known sites.

C-34264: There is no valid, current inventory data and no sites are identified within the ROW.

C-37756: No known sites or current inventory data are in alluvium areas. An archaeological monitor required for any excavations.

C-25144DD: No current inventory data and no known cultural resources.

C-23743BX: Northern ¼ of route is not in an inventoried and analyzed area. The pipeline intersects site location for 5RB.2561. New work will require revisit and reanalysis.

C-24402AU: Eastern 1/3 does not follow route inventoried or analyzed and approved. No known sites with inventory data inadequate.

Native American Religious Concerns: No Native American religious concerns are known in the area, and none have been noted by Northern Ute Tribal authorities. Should recommended inventories or future consultations with Tribal authorities reveal the existence of such sensitive properties, appropriate mitigation and/or protection measures may be undertaken.

Paleontological Resources:

C-34264: The ROW is in the Upper Mesa Verde Formation so there are paleontological concerns for any excavations related to pipeline maintenance. A paleontological monitor will be required for all excavations along the pipeline.

C-23732BP: The pipeline is located in the Upper Mesa Verde Formation which has been categorized as a Potential Fossil Yield Classification (PFYC) 5 Formation. A paleontological monitor will be required for maintenance work on the pipeline.

C-25144DD: The location is in two Potential Fossil Yield classifications (PFYC) 5 formations; excavations would require a paleontological monitor.

C-23743BX: Pipeline is in Wasatch Formation PFYC 5 requiring a paleontological monitor for all excavations.

C-24402AU: It is located in the Upper Mesa Verde Formation, PFYC 5 requiring a paleontological monitor for all excavations.

Special Status Wildlife Species: There are no wildlife-related issues or concerns associated with the renewal of the existing rights-of-way.

Special Status Plant Species: There are no special status plant species issues or concerns associated with the Proposed Action.

MITIGATION:

1. All applicable terms, conditions, and stipulations contained in the original ROW grants and any amendments shall be carried forward and remain in full force and effect. No new construction is authorized.
2. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.
3. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
4. Any proposal involving additional surface disturbance outside of the existing right-of-way disturbance requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.
5. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.
6. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.
7. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.
8. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to

proceed by the AO.

9. The holder is responsible for informing all persons who are associated with project operations that they will be subject to prosecution for disturbing or collecting vertebrate or other scientifically-important fossils, collecting large amounts of petrified wood (over 25lbs./day, up to 250lbs./year), or collecting fossils for commercial purposes on public lands. If any paleontological resources are discovered as a result of operations under this authorization, the applicant must immediately contact the appropriate BLM representative.

10. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way. Any request for a "Notice to Proceed" must be made to the authorized officer, who will review the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys. Additional measures may be required to protect special status species or other resources.

COMPLIANCE PLAN: On-going compliance inspections and monitoring will be conducted by the BLM White River Field Office staff during and after construction. Specific mitigation developed in this document will be followed. The operator will be notified of compliance related issues in writing, and depending on the nature of the issue(s), will be provided 30 days to resolve such issues.

NAME OF PREPARER: Janet Doll

NAME OF ENVIRONMENTAL COORDINATOR: Heather Sauls

COMPLIANCE WITH NEPA

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

DECISION RECORD

PROJECT NAME: Red Rock Gathering Renewals

CATEGORICAL EXCLUSION NUMBER: DOI-BLM-CO-N05-2014-0095-CX

DECISION

It is my decision to implement the Proposed Action, as mitigated in DOI-BLM-CO-N05-2014-0095-CX, authorizing the renewal of rights-of-way COC25122BX, COC23734BP, COC34330, COC34316, COC34264, COC37756, COC25122DD, COC23734BX, and COC24402AU for continued operation and maintenance of pipelines, a loading station, and an access road.

Mitigation Measures

1. All applicable terms, conditions, and stipulations contained in the original ROW grants and any amendments shall be carried forward and remain in full force and effect. No new construction is authorized.
2. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.
3. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
4. Any proposal involving additional surface disturbance outside of the existing right-of-way disturbance requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.
5. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.
6. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.

7. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.

8. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the AO.

9. The holder is responsible for informing all persons who are associated with project operations that they will be subject to prosecution for disturbing or collecting vertebrate or other scientifically-important fossils, collecting large amounts of petrified wood (over 25lbs./day, up to 250lbs./year), or collecting fossils for commercial purposes on public lands. If any paleontological resources are discovered as a result of operations under this authorization, the applicant must immediately contact the appropriate BLM representative.

10. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way. Any request for a "Notice to Proceed" must be made to the authorized officer, who will review the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys. Additional measures may be required to protect special status species or other resources.

COMPLIANCE WITH LAWS & CONFORMANCE WITH THE LAND USE PLAN

This decision is in compliance with the Endangered Species Act and the National Historic Preservation Act. It is also in conformance with the 1997 White River Record of Decision/Approved Resource Management Plan.

PUBLIC INVOLVEMENT

The BLM informed the public about this project by listing it on the online WRFO NEPA Register on 7/3/2014 and a copy of the completed Categorical Exclusion will be posted on the WRFO website.

RATIONALE

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

ADMINISTRATIVE REMEDIES

This decision shall take effect immediately upon the date it is signed by the Authorized Officer and shall remain in effect while any appeal is pending unless the Interior Board of Land Appeals issues a stay (43 CFR 2801.10(b)). Any appeal of this decision must follow the procedures set forth in 43 CFR Part 4. Within 30 days of the decision, a Notice of Appeal must be filed in the office of the Authorized Officer at White River Field Office, 220 East Market St., Meeker, CO 81641 with copies sent to the Regional Solicitor, Rocky Mountain Region, 755 Parfet St., Suite 151, Lakewood, CO 80215, and to the Department of the Interior, Board of Land Appeals, 801 North Quincy St., MS300-QC, Arlington, VA, 22203. If a statement of reasons for the appeal is not included with the notice, it must be filed with the Interior Board of Land Appeals at the above address within 30 days after the Notice of Appeal is filed with the Authorized Officer.
