CATEGORICAL EXCLUSION

NUMBER: DOI-BLM-CO-110-2013-0123-CX

CASEFILE/PROJECT NUMBER: COC30368 and COC31725

PROJECT NAME: Assignment and Renewal of Blue Mountain Energy and Deseret Power Rights-of-Way

LEGAL DESCRIPTION: See Table 1

APPLICANT: Blue Mountain Energy and Deseret Power Electric Cooperative

DESCRIPTION OF PROPOSED ACTION: Blue Mountain Energy and Deseret Power have requested the assignment and renewal of two rights-of-way (See Maps 1 and 2). Review of the files show that there have been no environmental concerns, the grants are in good standing, and are being used for the authorized purpose.

TABLE 1.

COC	LEGAL	WIDTH	LENGTH	AREA
30368	T.2N., R101W., Sec. 2, lots 3 & 4; Sec. 2, SENW, E2SW; Sec. 3, lots 1-3; Sec. 3, S2NW, W2SW; Sec. 4, SESE; Sec. 11, lots 3 & 8; Sec. 8, NENW.	20 feet	17,958 ft. 3.4 miles	8.25 acres
31725	T.2N., R100W., Sec. 7, lot 8; T.2N., R101W., Sec. 2, lots 3 & 4; Sec. 2, SENW, E2SW; Sec. 3, lots 1-3; Sec. 3, S2NW, W2SW; Sec. 4, SESE; Sec. 11, lots 3, 8, 17; Sec. 12, SESW, S2SE; Sec. 13, N2NW; Sec. 14, N2NE.	100 feet	29,335 ft. 5.6 miles	67.39 acres

COC30368: 17,958 foot long (3.4 miles) 13.8kv electric line to Deserado Coal Mine. This right-of-way was originally issued August 17, 1981 to Moon Lake Electric Association.

COC31725: 29,335 foot long (5.6 miles) 138kv electric line to Calamity Ridge. This right-of-way was originally issued March 1, 1982 to Moon Lake Electric Association.

PLAN CONFORMANCE REVIEW: The Proposed Action is subject to and has been reviewed for conformance with (43 CFR 1610.5-3, BLM 1601.08) the following plan:

Name of Plan: White River Record of Decision and Approved Resource Management Plan (ROD/RMP).

Date Approved: July 1, 1997

Decision Number/Page: Page 2-49

Decision Language: To make public lands available for the siting of public and private facilities through the issuance of applicable land use authorizations, in a manner that provides for reasonable protection of other resources values.

CATEGORICAL EXCLUSION REVIEW: The Proposed Action qualifies as a categorical exclusion under 516 DM 11.9, E9: *“Renewals and assignments of leases, permits, or rights-of-way where no additional rights are conveyed beyond those granted by the original authorizations”*.

The Proposed Action has been reviewed with the list of extraordinary circumstances (43 CFR 46.215) described in the table below.

Extraordinary Circumstance	YES	NO
a) Have significant adverse effects on public health and safety.		X
b) Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; national monuments; migratory birds; and other ecologically significant or critical areas.		X
c) Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources.		X
d) Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		X
e) Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		X
f) Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		X
g) Have significant impacts on properties listed, or eligible for listing, in the National Register of Historic Places as determined by the bureau.		X

Extraordinary Circumstance	YES	NO
h) Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have adverse effects on designated Critical Habitat for these species.		X
i) Violate a Federal law, or a State, local or tribal law or requirement imposed for the protection of the environment.		X
j) Have a disproportionately high and adverse effect on low income or minority populations.		X
k) Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly affect the physical integrity of such sacred sites.		X
l) Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species.		X

INTERDISCIPLINARY REVIEW:

The Proposed Action was presented to, and reviewed by, the White River Field Office interdisciplinary team on 9/24/2013. A complete list of resource specialists who participated in this review is available upon request from the White River Field Office. The table below lists resource specialists who provided additional remarks concerning cultural resources and special status species.

Name	Title	Resource	Date
Michael Selle	Archaeologist	Cultural Resources, Native American Religious Concerns	9/30/2013
Lisa Belmonte	Wildlife Biologist	Special Status Wildlife Species	10/25/2013
Heather Woodruff	Range Management Specialist/Ecologist	Special Status Plant Species	9/26/2013

REMARKS:

Cultural Resources: The power lines for COC30368 were issued based on what were then very recent cultural inventories (Anderson and Henss 1979 Compliance date 9/11/1979). The reports are old enough that any new action on the lines for maintenance or upgrade would require new inventory. Renewal without any new ground disturbance would not result in any new impact to cultural resources.

Power lines for COC31725 are only partially covered by inventory data (Anderson and Henss 1979 compliance date 9/11/1979, Chandler and Nickens 1979 compliance date 7/13/1979, Gordon et al. 1982 compliance dated 2/5/1982, Hubbard, 1981 compliance date 7/30/1981,

Kranzush, 1983 compliance dated 7/8/1983, Martin, et al 2008 compliance dated 7/1/2008). The remainder of the ROW appears to be tied into the already existing 138kV line built in the 1960's and not re-inventoried when the ROW was issued. The renewal does not involve any new ground disturbance and would result in no new impacts to any potentially present cultural resources. New disturbance for maintenance will require new inventory to meet current inventory requirements.

Native American Religious Concerns: No Native American religious concerns are known in the area, and none have been noted by Northern Ute Tribal authorities. Should recommended inventories or future consultations with Tribal authorities reveal the existence of such sensitive properties, appropriate mitigation and/or protection measures may be undertaken.

Paleontological Resources: ROW COC30368 is located in an area generally mapped as the Upper Mesa Verde (Tweto 1979) which the BLM has classified as a Potential Fossil Yield Classification (PFYC) 5 formation meaning it is known to produce scientifically significant fossil resources. Renewing the ROW will not immediately impact any fossil resources. However, should maintenance requiring excavation into the underlying sedimentary rock become necessary there is a potential to impact scientifically noteworthy fossil resources. A monitor would be required for any such excavations unless it is just auguring a new pole hole.

ROW COC31725 crosses three mapped formations including the Upper Mesa Verde, Quaternary Alluvium and Wasatch formations (Tweto 1979). The BLM has classified the formations as PFYC 5, PFYC 2 and PFYC 5, respectively. The potential for fossils in the Quaternary Alluvium PFYC 2 is very low. The potential or fossil to be impacted in the Upper Mesa Verde and Wasatch should any maintenance that involves excavation into the underlying sedimentary rock is quite high. A monitor would be required for any such excavations unless it is only auguring a new pole hole.

Special Status Wildlife Species: There are no wildlife-related issues or concerns associated with the Proposed Action. Rights-of-way renewals do not result in surface disturbing activities and therefore would have no potential to influence wildlife species in the area.

Special Status Plant Species: There are parts of the project area that are located in potential habitat for BLM sensitive plant species. The project area is largely un-surveyed and little is known about what sensitive species actually exist in that area. Since no disturbance is occurring at this time there are no special status plant species concerns associated with the Proposed Action. However, if maintenance is required in the future and disturbance will be occurring special status plant surveys will be required prior to any disturbance.

MITIGATION:

1. All applicable terms and conditions of original right-of-way grants COC30368 and COC31725 are carried forward and remain in full force and effect.
2. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
3. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.

4. Any proposal involving additional surface disturbance outside of the authorized right-of-way requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.

5. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.

6. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way. Any request for a "Notice to Proceed" must be made to the authorized officer, who will review the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys by a third party contractor at the expense of the holder. Additional measures may be required to protect special status species or other resources.

7. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.

8. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.

9. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the AO.

10. The holder is responsible for informing all persons who are associated with the project operations that they will be subject to prosecution for disturbing or collecting vertebrate fossils,

collecting large amounts of petrified wood (over 25lbs./day, up to 250lbs./year), or collecting fossils for commercial purposes on public lands.

11. If any paleontological resources are discovered as a result of operations under this authorization, the holder or any of his agents must stop work immediately at that site, immediately contact the BLM Paleontology Coordinator, and make every effort to protect the site from further impacts, including looting, erosion, or other human or natural damage. Work may not resume at that location until approved by the AO. The BLM or designated paleontologist will evaluate the discovery and take action to protect or remove the resource within 10 working days. Within 10 days, the operator will be allowed to continue construction through the site, or will be given the choice of either (a) following the Paleontology Coordinator's instructions for stabilizing the fossil resource in place and avoiding further disturbance to the fossil resource, or (b) following the Paleontology Coordinator's instructions for mitigating impacts to the fossil resource prior to continuing construction through the project area.

12. Any excavations into the underlying native sedimentary stone must be monitored by a permitted paleontologist. The monitoring paleontologist must be present before the start of excavations that may impact bedrock.

COMPLIANCE PLAN: On-going compliance inspections and monitoring will be conducted by the BLM White River Field Office staff during and after construction. Specific mitigation developed in this document will be followed. The operator will be notified of compliance related issues in writing, and depending on the nature of the issue(s), will be provided 30 days to resolve such issues.

NAME OF PREPARER: Janet Doll

NAME OF ENVIRONMENTAL COORDINATOR: Heather Sauls

COMPLIANCE WITH NEPA

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

DECISION RECORD

PROJECT NAME: Renewal of Blue Mountain Energy and Deseret Power Rights-of-Way

CATEGORICAL EXCLUSION NUMBER: DOI-BLM-CO-110-2013-0123-CX

DECISION

It is my decision to implement the Proposed Action, as mitigated in DOI-BLM-CO-110-2013-0123-CX, authorizing the renewal of rights-of-way COC30368 and COC31725 for continued use of electric power lines.

Mitigation Measures

1. All applicable terms and conditions of original right-of-way grants COC30368 and COC31725 are carried forward and remain in full force and effect.
2. The holder shall conduct all activities associated with the operation and termination of the right-of-way within the authorized limits of the right-of-way.
3. At least 90 days prior to termination of the right-of-way, the holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will result in the development of an acceptable termination and rehabilitation plan submitted by the holder. This plan shall include, but is not limited to, removal of facilities, drainage structures, and surface material; recontouring; topsoiling; or seeding. The Authorized Officer must approve the plan in writing prior to the holder's commencement of any termination activities.
4. Any proposal involving additional surface disturbance outside of the authorized right-of-way requires an application to the BLM for analysis and authorization. New stipulations for construction would be applied to projects subject to the regulations and policies existing at the time of authorization.
5. The holder shall monitor all disturbed and reclaimed areas through final abandonment for the presence of invasive, non-native, and/or noxious plant species. The applicant will be responsible for eradication of noxious weeds that occur on site using materials and methods approved in advance by the Authorized Officer.
6. The holder shall notify the authorized officer at least 60 days prior to non-emergency activities that would cause surface disturbance in the right-of-way. A "Notice to Proceed" shall be required prior to any non-emergency activities that would cause surface disturbance on the right-of-way. Any request for a "Notice to Proceed" must be made to the authorized officer, who will review

the Proposed Action for consistency with resource management concerns such as wildlife, big game winter range, paleontology, special status species, and cultural resource protection. The authorized officer may require the completion of special status species surveys or other resource surveys by a third party contractor at the expense of the holder. Additional measures may be required to protect special status species or other resources.

7. The holder is responsible for informing all persons who are associated with the project that they will be subject to prosecution for knowingly disturbing archaeological sites or for collecting artifacts.

8. If any archaeological materials are discovered as a result of operations under this authorization, activity in the vicinity of the discovery will cease, and the BLM WRFO Archaeologist will be notified immediately. Work may not resume at that location until approved by the AO. The holder will make every effort to protect the site from further impacts including looting, erosion, or other human or natural damage until BLM determines a treatment approach, and the treatment is completed. Unless previously determined in treatment plans or agreements, BLM will evaluate the cultural resources and, in consultation with the State Historic Preservation Office (SHPO), select the appropriate mitigation option within 48 hours of the discovery. The holder, under guidance of the BLM, will implement the mitigation in a timely manner. The process will be fully documented in reports, site forms, maps, drawings, and photographs. The BLM will forward documentation to the SHPO for review and concurrence.

9. Pursuant to 43 CFR 10.4(g), the holder must notify the AO, by telephone and written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the AO.

10. The holder is responsible for informing all persons who are associated with the project operations that they will be subject to prosecution for disturbing or collecting vertebrate fossils, collecting large amounts of petrified wood (over 25lbs./day, up to 250lbs./year), or collecting fossils for commercial purposes on public lands.

11. If any paleontological resources are discovered as a result of operations under this authorization, the holder or any of his agents must stop work immediately at that site, immediately contact the BLM Paleontology Coordinator, and make every effort to protect the site from further impacts, including looting, erosion, or other human or natural damage. Work may not resume at that location until approved by the AO. The BLM or designated paleontologist will evaluate the discovery and take action to protect or remove the resource within 10 working days. Within 10 days, the operator will be allowed to continue construction through the site, or will be given the choice of either (a) following the Paleontology

Coordinator's instructions for stabilizing the fossil resource in place and avoiding further disturbance to the fossil resource, or (b) following the Paleontology Coordinator's instructions for mitigating impacts to the fossil resource prior to continuing construction through the project area.

12. Any excavations into the underlying native sedimentary stone must be monitored by a permitted paleontologist. The monitoring paleontologist must be present before the start of excavations that may impact bedrock.

COMPLIANCE WITH LAWS & CONFORMANCE WITH THE LAND USE PLAN

This decision is in compliance with the Endangered Species Act and the National Historic Preservation Act. It is also in conformance with the 1997 White River Record of Decision/Approved Resource Management Plan.

PUBLIC INVOLVEMENT

The BLM informed the public about this project by listing it on the online WRFO NEPA Register on 9/24/2013 and a copy of the completed Categorical Exclusion will be posted on the WRFO website.

RATIONALE

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E9. This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The Proposed Action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 apply.

ADMINISTRATIVE REMEDIES

This decision shall take effect immediately upon the date it is signed by the Authorized Officer and shall remain in effect while any appeal is pending unless the Interior Board of Land Appeals issues a stay (43 CFR 2801.10(b)). Any appeal of this decision must follow the procedures set forth in 43 CFR Part 4. Within 30 days of the decision, a Notice of Appeal must be filed in the office of the Authorized Officer at White River Field Office, 220 East Market St., Meeker, CO 81641 with copies sent to the Regional Solicitor, Rocky Mountain Region, 755 Parfet St., Suite 151, Lakewood, CO 80215, and to the Department of the Interior, Board of Land Appeals, 801 North Quincy St., MS300-QC, Arlington, VA, 22203. If a statement of reasons for the appeal is not included with the notice, it must be filed with the Interior Board of Land Appeals at the above address within 30 days after the Notice of Appeal is filed with the Authorized Officer.
