NOTE TO MAP USERS

The surface and minerals management status mosaicisms are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been disposed of or acquired lands due to the lack of information available to BLM with respect to the nature of acquisition. No warranty is made by the BLM as to the accuracy of the records for purposes not initiated by BLM. The official records in the respective Bureau of Land Management offices should be consulted. Other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.

PUBLIC ACCESS

Roads crossing public lands may be travelled by the public unless closed by signing or notice by the land management agency. Public lands intervened by private lands may not have public access. Permission is required from the private landowner to cross private land, unless access is provided by a Federal, State, or County road, or a BLM road with legal access.
