

# Plan Maintenance (Change) No. 1

**Plan Name:** #1. Glenwood Springs Field Office, Record of Decision for the Approval of Portions of the Roan Plateau Resource Management Plan Amendment and Environmental Impact Statement, June 2007

#2. Glenwood Springs Field Office, Roan Plateau Planning Area, Resource Management Plan Amendment and Environmental Impact Statement, Final, Volumes I & III, August 2006

**Area:** Glenwood Springs Field Office, Glenwood Springs, Colorado

**Pages:** #1. ROD-54, and Appendix F, page F-26  
#2. Volume I; Pages; 2-67 and 2-68, Volume III; Pages C-18

**Chapters:** #1. ROD-Plan Elements, Table F-1 Stipulations and Standards  
#2. Volume I; Alternatives, Volume III; Appendix C

**Heading:** #1. Wild and Scenic Rivers (WSR), and GS-CSU-Roan-17- SSR/CSU Wild and Scenic River Eligibility Stipulations  
#2. Volume I; Streams Eligible for Suitability Study Under Wild and Scenic Rivers Act. Volume III; Appendix Table C-1. Descriptions of Surface-Use Stipulations Applicable to new Oil and Gas Leases Under the Proposed Plan.

---

## **CHANGE:**

Document #1. ROD, page 54: All language in this section needs to be changed from SSR/CSU to a NSO/NGD stipulation. Specifically the following changes need to occur:

First sentence second line change to read: "...by a NGD/NSO restriction until a suitability determination is made."

First sentence under Management Actions change to read: "Apply a NGD/NSO to the 1,117 acres until such a time a suitability study is completed. If the waterways are found to be suitable at that time, the NGD/NSO will remain in place. If the waterways are not found suitable, the NGD/NSO for this action (i.e. GS-NSO-Roan-17) will no longer apply."

Change Stipulation language to read:  
"NGD/NSO, GS-NSO-ROAN-17. Wild and Scenic River Eligibility Corridor."

Document #1. ROD, Appendix F, page F-26: Change text under the "Number" column to read:  
"GS-NSO-ROAN-17 NGD/NSO Wild and Scenic River Eligibility Corridor"

Change the Stipulation Column to read: "NSO to protect 64 stream..."

Document #2. Final, Volume I, pages 2-67 and 2-68: Change text under the "Proposed Plan" column, Management Action section to read: "Apply a NGD/NSO to the 7,833 acres until such a time a suitability study is completed. At that time if the waterways are found to be suitable the NGD/NSO would remain in place. If the waterways are found to be not suitable, the NGD/NSO for this action would be removed."

Document #2. Final, Volume III, Appendix C Table C-1, page C-18: Change text under "Stipulation" column to read: "NSO , Wild and Scenic River Eligibility"

---

**REASON:**

The Glenwood Springs Field Office, Roan Plateau Planning Area, Including Naval Oil Shale Reserves Numbers 1 & 3, Resource Management Plan Amendment and Environmental Impact Statement, Final, Volume I, August 2006, Chapter 4, Environmental Consequences, page 4-126, section; 4.5.9.1, documents that the proposed plan would protect WSR values under a NSO/NGD. The analysis was based solely on a NSO and the stipulation specifically stated no ground disturbance throughout all documents. A mistake was made that titles the Stipulation for WSR as a CSU in Appendix F in Volume I, and Appendix C in Volume III. This mistake was carried over to the ROD, June 2007. The change from the "CSU" to "NSO" is in title only and the stipulation, goals, objectives, management action and standards all remains the same.
