ERRATA SHEET

Notes Regarding the Roan Plateau Planning Area Proposed Resource Management Plan Amendment and Final Supplement Environmental Impact Statement

After preparation and public release of the Roan Plateau Planning Area Proposed Resource Management Plan Amendment and Final Supplement Environmental Impact Statement, the BLM identified the following correction to the document. Because they were already prepared and/or printed at the time this correction was identified, this change is not reflected in printed (electronic and hard copy) materials. This change is consistent with existing explanations elsewhere in the document.

- On page 2-4, the underlined paragraph should read:

“Existing stipulations for existing oil and gas leases would apply to those leases. New stipulations would apply only to lands leased pursuant to the Record of Decision (ROD) that results from this NEPA process. Leases issued in 2008 may require modification to conform with the planning decision (see Section 1.3.7.3). COAs equivalent to stipulations developed through this RMPA could be applied to development on pre-2008 leases, to the extent that they do not conflict with existing lease terms.”
