

Roan Plateau Supplemental EIS FACT SHEET: Providing Comments

How can I comment on the Draft Supplemental EIS?

Copies of the Draft SEIS may be downloaded from www.BLM.gov/co/crvfo. Hard copies are available for review at the Glenwood Springs, Silt, Carbondale, and Rifle public libraries, or at the BLM Colorado River Valley Field Office. CDs are available in limited quantities by request from the Colorado River Valley Field Office.

Comment instructions are available on the project website. Please send by e-mail to: roanplateau@blm.gov or by mail to: Roan Plateau Comments, BLM Colorado River Valley Field Office, 2300 River Frontage Road, Silt, CO 81652.

The BLM will be hosting three open house public meetings to inform the public, answer questions, and take written comments at the following locations:

Date and Time	Location	Address
Tuesday, January 12, 4-7 p.m.	BLM Colorado River Valley Field Office	2300 River Frontage Road, Silt
Wednesday, January 13, 4-7 p.m.	Grand Valley Recreation Center	398 Arroyo Drive, Battlement Mesa
Thursday, January 14, 4-7 p.m.	Rifle Branch Library	207 East Avenue, Rifle

The January 14 meeting in Rifle will focus on recreation at Hubbard Mesa, including recreational target shooting.

How can I make my comments the most effective?

The most effective comments will address specific details of the Draft SEIS, including methodologies, sources of information, and components of the alternatives. All comments received will be considered during the BLM's decision-making process, but only specific, substantive comments will be addressed in the Final SEIS.

Comments need to be received by February 18, 2016.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
