September 11, 2001

NOTICE OF COMPETITIVE LEASE SALE OIL AND GAS

The Colorado State Office is offering competitively 191 parcels containing 259,173.021 acres of Federal lands in the State of Colorado for oil and gas leasing. This notice provides:

- the time and place of the sale,
- how to participate in the bidding process,
- the sale process,
- the conditions of the sale,
- how to file a noncompetitive offer after the sale, and
- how to file a presale noncompetitive offer.

Attached to this notice is a list of the lands being offered by parcel number and legal land description. We have included stipulations that apply to each parcel.

When and where will the sale take place?

When: The competitive oral sale will begin at 9 a.m. on November 08, 2001. The sale room will open one hour earlier to allow you to register and obtain your bid number. Registration begins at 8 a.m.

Where: The sale is held at the Bureau of Land Management, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215. Parking is available.

Access: The sale room is accessible to persons with disabilities. If assistance is needed for the hearing or visually impaired, contact Donna Kronauge at (303) 239-3987, Sharon Deuter at (303) 239-3750 or Judy Sloan at (303) 239-3780 two weeks before the sale day.

How will the sale be conducted?

The sale will be conducted by oral auction. You must make your bids verbally. The winning bid is the highest verbal bid equal to or exceeding the national minimum acceptable bid.

How do I participate in the bidding process?

To participate in the bidding process, you must register to obtain a bid number. We will begin registering bidders at 8 a.m. on the day of the sale. Bidders must register in order to bid on a parcel.

What is the sale process?

Starting at 9 a.m. on the day of the sale:

- the auctioneer will offer the parcels in the order they are shown in the attached notice,
- all bids are on a per-acre basis, rounded up to whole acres, for the entire acreage in the parcel,
- the winning bid is the highest oral bid equal to or exceeding the minimum acceptable bid, and
- the decision of the auctioneer is final.

The minimum acceptable bid is \$2 per acre. If a parcel contains fractional acreage, round it up to the next whole acre. For example, a parcel of 100.401 acres requires a minimum bid of \$202 (\$2 x 101 acres).

How long will the sale last?

We begin the sale at 9 a.m. and it continues until all of the parcels in this Notice have been offered. The length of the sale depends on the number of parcels we are offering and the pace of the bidding. Normally, the sale is done by noon.

What conditions apply to the lease sale?

- **Parcel withdrawal or sale cancellation:** We reserve the right to withdraw any or all parcels before the sale begins. If we withdraw a parcel, we will post a notice in the State Office Information Access Center (Public Room). If we cancel the sale, we will try to notify all interested parties early enough to stop them from traveling to the sale site.
- **Fractional interests:** 43 CFR 3120.1-2(c) If the United States owns less than 100 percent of the oil and gas mineral interest for the land in a parcel we will show that information with the parcel. When we issue the lease, it will be for the percentage or fraction of interest the United States owns. However, you must calculate your bonus bid and advance rental payment on the gross acreage in the parcel, not the United States net interest. For example, if a parcel contains 200 acres and the United States owns 50 percent of the oil and gas mineral interest, the minimum bonus bid will be \$400 (\$2 x 200

acres) and the advance annual rental will be \$300 (\$1.50 x 200 acres) for the first 5 years and \$400 (2 x 200 acres) for the remainder of the lease term. Conversely, your chargeable acreage and royalty on production will be calculated on the United States net oil and gas mineral interest.

- **Payment due:** You cannot withdraw a bid. Your bid is a legally binding contract when you sign the bid form, accept the lease, and pay all monies due. For each parcel you win, the **money due the day of the sale** is the total of the bonus bid deposit (at least \$2 per acre), the first year's rent (\$1.50 per acre), and the administrative fee (\$75). You may pay at the sale site or by 4 p.m. at the Colorado State Office. You must pay any remaining balance due by **4 p.m. November 26, 2001**, which is the tenth working day following the sale. **If you do not pay the balance due by this date, you forfeit the right to the lease and all money paid the day of the sale.** If you forfeit a parcel, we may offer it at a future sale.
- **Form of payment:** You can pay by personal check, certified check, money order, or credit card (Visa, MasterCard, American Express, and Discover cards only). We cannot accept cash. Make checks payable to: **Department of the Interior—BLM**. If a check you have sent to us in the past has been returned for insufficient funds, we may require that you give us a guaranteed payment, such as a certified check. If you pay by credit card and the transaction is refused, we will try to notify you early enough so that you can make other payment arrangements. However, we cannot grant you any extension of time to pay the money that is due the day of the sale.
- **Bid form:** On the day of the sale, if you are the successful bidder, you must give us a properly completed and signed competitive bid form (Form 3000-2 dated October 1989 or later) with the required payment on the day of the sale. This form constitutes a legally binding offer by the prospective lessee to accept a lease and all its terms and conditions. Once the form is signed, you cannot change it. *We will not accept any bid form that has information crossed out or is otherwise altered.*

We recommend you get a copy of the bid form and complete all but the money part before the sale. You can fill out the money part at the sale. Your completed bid form certifies:

- (1) that you and/or the prospective lessee are qualified to hold an oil and gas lease under our regulations at 43 CFR 3102.5-2; and
- (2) that both of you have complied with 18 U.S.C. 1860, a law that prohibits unlawful combinations, intimidation of and collusion among bidders.

- **Lease terms:** A lease issued as a result of this sale has a primary term of 10 years. It will continue beyond its primary term as long as oil or gas in paying quantities is produced on or for the benefit of the lease. Rental at \$1.50 per acre for the first 5 years (\$2 per acre after that) is due on or before the lease anniversary date each year until production begins. Once a lease becomes producing, royalty of 12.5 percent must be paid. You will find other lease terms on our standard lease form (Form 3100-11, June 1988 or later edition). (**Note:** You may copy the lease form, but it must be an exact copy with both sides on one page. If you copy the form on two pages or use an obsolete lease form, your offer will be rejected. The copy you make must be legible.)
- **Stipulations:** Stipulations are part of the lease and supersede any inconsistent provisions of the lease form.
- **Lease issuance:** After we have received the bid form and all monies due, the lease can be issued. The lease effective date is the first day of the month following the month in which we sign it. If you want your lease to be effective the first day of the month in which we sign it, you must ask us in writing to do this. We have to receive your request before we sign the lease.

Legal Land Descriptions: We prepared that Notice with land status information from our Legacy Rehost 2000 (LR2000) case recordation system. We are providing you with the following information to assist you in understanding the legal descriptions given for each parcel:

The township and range contains additional zeros. For example, T. 9 S., R. 92 W., is shown as, T. 0090S., R. 0920W. (additional zeros underlined).

Lands are described separately by lots, aliquot parts, tracts, and exceptions to survey for each section.

Cellular Phone Usage: You are restricted from using cellular phones in the sale room during the oral auction. You must confine your cellular phone usage to the hallway.

Other Conditions of the Sale: At the time the sale begins, we will make any rules regarding sale procedures that we feel are necessary for the proper conduct of the sale.

NONCOMPETITIVE OFFERS TO LEASE

How do I file a noncompetitive day-after-sale offer after the sale?

Parcels that do not receive a bid are available on a first-come, first-served basis for a two-year period beginning the day after the sale. If you want to file a noncompetitive offer on an unsold parcel, you must file in this office:

- an offer to lease form properly filled out and signed. The lands in your offer must be described as specified in our regulations at 43 CFR 3110.5; and
- your remittance for the total of the \$75 filing fee and the advanced first year's rental (\$1.50 per acre). Remember to round up any fractional acreage when you calculate the amount of rental.

We will have a drop box in the payment room. All offers, filed the day of a sale and the first business day after it are considered filed simultaneously. When a parcel receives more than one filing by 4 p.m. on the day after the sale, a drawing is held to determine the winner. A presale offer has priority over any offer filed after the sale. After the day-after-sale drawing, any parcels remaining are available for a period of two years. Offers receive priority as of the date and time of filing in this office.

How do I file a noncompetitive presale offer?

Under our regulations at 43 CFR 3110.1(a), you may file a noncompetitive presale offer for lands that:

- are available;
- have not been under lease during the previous one-year period; or
- have not been included in a competitive lease sale within the previous two-year period.

If we do not get a bid for the parcel that contains the lands in your presale offer, it has priority over any offer for that parcel filed after the sale. Your presale offer is your consent to the terms and conditions of the lease, including any additional stipulations.

If you want to file a presale offer you must file in this office:

- an offer to lease form properly filled out and signed. The lands in your offer must be described as specified in our regulations at 43 CFR 3110.5; and

- your remittance for the total of the \$75 filing fee and the advanced first year's rental (\$1.50 per acre). Remember to round up any fractional acreage when you calculate the amount of rental.

When is the next competitive oil and gas lease sale scheduled?

We have tentatively scheduled our next competitive sale for **FEBRUARY 14, 2002**. Expressions of Interests (EOI) cutoff for the February 14, 2002 Sale is October 5, 2001. We can make no guarantee as to when a given parcel will be offered for competitive sale. We will try to put EOIs on the earliest possible sale.

How can I find out the results of this sale?

We will post the sale results in the State Office Information Access Center (Public Room) and on our public Internet site when they have been compiled. You can buy (\$5) a printed copy of the results list from the Information Access Center. The list will also be available at our public Internet site: <http://www.co.blm.gov/oilandgas/leasinfo>

May I protest BLM's decision to offer the lands in this Notice for lease?

If you are adversely affected by our decision to offer the lands in this Notice for lease, you may protest the decision to the State Director under regulations at 43 CFR 3120.1-3. You must submit your protest in writing to the State Director prior to the day of the sale. Generally, if we are unable to decide the protest before the sale, we will hold the sale while we consider the merits of your protest.

You may review the decision to offer the lands for lease and the supporting National Environmental Policy Act documents.

FOREST SERVICE PARCELS: All bidders are hereby notified that stipulations for parcels located within the administrative boundaries of some Forest Service units are described in terms of the appropriate Forest plan. No description of those parts of the parcels affected by any given stipulations is available other than as depicted on Forest Maps, which are generally taken from the USGS quadrangles. Copies of the original maps and stipulations may be reviewed in the appropriate District Ranger's Office, the Forest Supervisor's Office, or the Rocky Mountain Regional Forester's Office at 740 Simms St., Lakewood, Colorado (303) 275-5090.

NOTE: All parcels in the Grand Junction resource area may be affected by a stipulation for slopes of 40 percent or greater steepness.

NOTE: The posting of this notice serves to withdraw the lands listed herein from filings under 43 CFR 3110.1(a)(1)(ii).

Who should I contact if I have questions?

If you have questions on BLM stipulations, lease notices, etc., please contact the appropriate BLM Filed Office for assistance. If you have questions on another surface management agency's stipulations or restrictions, etc., for parcels under their surface management jurisdiction, please contact that agency. For general information about the competitive oil and gas lease sale process, or this Notice, please contact:

Sharon Deuter: e-mail: sharon_deuter@co.blm.gov phone (303) 239-3750,

Donna Kronauge: e-mail donna_kronauge@co.blm.gov phone (303) 239-3987, or

Judy Sloan: e-mail judy_sloan@co.blm.gov phone (303) 239-3780.

(Note: In the e-mail address there is an underscore between the first and last name.)

SURFACE MANAGEMENT AGENCY DESCRIPTION

The list of parcels offered for competitive sale includes a description of the surface management agency(ies) involved. Where the surface is administered by a federal agency other than the BLM, the coordinating BLM District and Resource Area Offices are depicted immediately below. The following abbreviations are used:

	Surface Management Agencies
BLM	Bureau of Land Management
PVT	Private surface
FS	Forest Service surface
BOR	Bureau of Reclamation surface
DOE	Department of Energy surface
NF	National Forest
NG	National Grassland
STCO	State of Colorado
	BLM District Offices
CDO	Craig District Office
CCDO	Canon City District Office
MDO	Montrose District Office
GJDO	Grand Junction District Office
	BLM Resource Area Offices
KRA	Kremmling Resource Area (CDO)
LSRA	Little Snake Resource Area (CDO)
WRRRA	White River Resource Area (CDO)
GJRA	Grand Junction Resource Area (GJDO)
GSRA	Glenwood Springs Resource Area (GJDO)
UBRA	Uncompahgre Basin Resource Area (MDO)
GBRA	Gunnison Basin Resource Area (MDO)
SJRA	San Juan Resource Area (MDO)
*NERA	Northeast Resource Area (CCDO)
SLRA	San Luis Resource Area (CCDO)
RGRA	Royal Gorge Resource Area (CCDO)

*The Northeast Resource Area (NERA) has been merged into the Royal Gorge Resource Area (RGRA)

Sample Number 1: PVT;BLM; CCDO: RGRA

(This entry shows the parcel contains both private and BLM surface located in the Royal Gorge Resource Area of the Canon City District Office.)

Sample Number 2: FS; Routt NF; CDO: LSRA

(This entry shows the parcel is Forest Service land in the Routt National Forest. The coordinating BLM office is in the Little Snake Resource Area of the Craig District Office.)

THE FOLLOWING ACQUIRED LANDS ARE SUBJECT TO FILINGS IN THE MANNER SPECIFIED IN THE APPLICABLE PORTIONS OF THE REGULATIONS IN 43 CFR, SUBPART 3120.

Sec. 33: Lot 1-20;

Sec. 33: N2;

Gunnison County

Colorado 1665.350 Acres

All lands are subject to Exhibit FS-01 .

All lands are subject to Exhibit FS-02 .

NSO - to avoid areas with high geologic hazard to prevent mass slope failure.

NSO - to protect areas with slopes greater than 60% to prevent impacts to soil resources through erosion, mass failure, loss of productivity, etc.

NSO - to protect wetlands, floodplains, and riparian areas.

All or part of the lands are subject to Exhibit FS-03 .

TL - to protect big game winter range.

All or part of the lands are subject to Exhibit FS-04 .

CSU - to insure the stability of facilities required during the oil and gas operations and to insure the stability of lands adjacent to these facilities.

CSU - to minimize potential for soil loss, mass land movement, revegetation failure and unacceptable visual impairment on slopes 40-60%.

CSU - to protect big game winter range.

All or part of the lands are subject to Exhibit FS-LN.

LN - to advice lessee this lease may be subject to the rule entitled "Special Area; Roadless Area Conservation Rule, Final Rule".

All lands are subject to Exhibit UB-10 to protect coal mining.

EXHIBIT CO-02

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below (legal description or other description):

For the purpose of:

To protect grouse dancing grounds (including sage and mountain sharp-tailed grouse and lesser and greater prairie chickens) within a one-quarter mile radius from the site.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

An exception may be granted depending on current usage of the site or on the geographical relationship to topographic barriers and vegetation screening.

EXHIBIT CO-04

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below (legal description or other description):

<LEGAL_DESCRIPTION>

For the purpose of:

To protect bald eagle roosts and nests within a one-quarter mile radius from the site.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

An exception may be granted to this stipulation depending on the current usage of the site, or the geographical relationship to the topographic barriers and vegetation screening.

EXHIBIT CO-07

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below (legal description or other description):

<LEGAL_DESCRIPTION>

For the purpose of:

To protect waterfowl and shorebird habitat and rookeries within significant production areas.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-09

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 01 through April 30

On the lands described below:

For the purpose of (reasons):

To protect big game (mule deer, elk, pronghorn antelope, and bighorn sheep) winter range, including crucial winter habitat and other definable winter range as mapped by the Colorado Division of Wildlife. This may apply to sundry notice that require an environmental analysis.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

An exception may be granted under mild winter conditions for the last 60 days of the closure.

EXHIBIT CO-14

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 16 through May 30

On the lands described below:

For the purpose of (reasons):

To protect desert bighorn sheep lambing.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-15

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 16 through March 15

On the lands described below:

For the purpose of (reasons):

To protect grouse (including sage and mountain sharp-tailed grouse, and lesser and greater prairie chickens) crucial winter habitat.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-16

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 01 through October 16

On the lands described below:

For the purpose of (reasons):

To protect Greater Sandhill Crane nesting and staging habitat during usage.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-22

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 15 through June 15

On the lands described below:

For the purpose of (reasons):

To protect bald eagle nesting habitat within a one-half mile buffer around the nest site.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Exceptions may be granted during years when the nest site is unoccupied, when occupancy ends by or after May 15, or once the young have fledged and dispersed from the nest.

EXHIBIT CO-23

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

November 16 through April 15

On the lands described below:

For the purpose of (reasons):

To protect bald eagle winter roost sites within a one-half mile buffer around the site.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Exceptions may be granted for partial or complete visual screening of the oil and gas activity from the primary zone (that is, one-quarter mile around the roost site).

EXHIBIT CO-25

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface Occupancy or use is subject to the following special operating constraints:

Operations proposed within the area of an approved surface or underground coal mine will be relocated outside the area to be mined or to accommodate room and pillar mining operations.

On the lands described below:

For the purpose of:

To protect surface or underground coal mines.

Exception Criteria:

This stipulation may be waived without a plan amendment if the lessee agrees that the drilling of a well will be subject to the following conditions:

(1)(a) well must be plugged when the mine approaches within 500 feet of the well and reentered or redrilled upon completion of the mining operation;

(b) well must be plugged in accordance with Mine Safety and Health Administration (formerly Mine Enforcement and Safety Administration) Informational Report 1052;

(c) operator will provide accurate location of where the casing intercepts the coal by providing a directional and deviation survey of the well to the coal operator; or

(2) relocate well into a permanent pillar or outside the area to be mined. A suspension of operations and production will be considered when the well is plugged, and a new well is to be drilled after mining operations move through the location.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).

EXHIBIT CO-26

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the purpose of:

Protecting fragile soils. Prior to surface disturbance of fragile soils, it must be demonstrated to the Authorized Officer through a plan of development that the following performance objectives will be met.

Performance Objectives:

- I. Maintain the soil productivity of the site.
- II. Protect off-site areas by preventing accelerated soil erosion (such as land-sliding, gullyng, rilling, piping, etc.) from occurring.
- III. Protect water quality and quantity of adjacent surface and groundwater sources.
- IV. Select the best possible site for development in order to prevent impacts to the soil and water resources.

Fragile soil areas, in which the performance objective will be enforced, are defined as follows:

- a. Areas rated as highly or severely erodible by wind or water, as described by the Soil Conservation Service in the Area Soil Survey Report or as described by on-site inspection.
- b. Areas with slopes greater than or equal to 35 percent, if they also have one of the following soil characteristics:
 - (1) a surface texture that is sand, loamy sand, very fine sandy loam, fine sandy loam, silty clay or clay;
 - (2) a depth to bedrock that is less than 20 inches;

EXHIBIT CO-26 (Continued)

(3) an erosion condition that is rated as poor; or (4) a K factor of greater than 0.32.

Performance Standards:

- I. All sediments generated from the surface-disturbing activity will be retained on site.
- II. Vehicle use would be limited to existing roads and trails.
- III. All new permanent roads would be built to meet primary road standards (BLM standards) and their location approved by the Authorized Officer. For oil and gas purposes, permanent roads are those used for production.
- IV. All geophysical and geochemical exploration would be conducted by helicopter, horseback, on foot, or from existing roads.
- V. Any sediment control structures, reserve pits, or disposal pits would be designed to contain a 100-year, 6-hour storm event. Storage volumes within these structures would have a design life of 25 years.
- VI. Before reserve pits and production pits would be reclaimed, all residue would be removed and trucked off-site to an approved disposal site.
- VII. Reclamation of disturbed surfaces would be initiated before November 1 each year.
- VIII. All reclamation plans would be approved by the Authorized Officer in advance and might require an increase in the bond.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-27

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the purpose of:

Protecting soils on surfaces greater than 40 percent slope. Prior to surface disturbance of steep (greater than 40 percent) an engineering/reclamation plan must be approved by the Authorized Officer. Such plans must demonstrate how the following will be accomplished:

- a. Site productivity will be restored.
- b. Surface runoff will be adequately controlled.
- c. Off-site areas will be protected from accelerated erosion such as drilling, gullying, piping, and mass wasting.
- d. Surface-disturbing activities will not be conducted during extended wet periods.
- e. Construction will not be allowed when soils are frozen.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT CO-28

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the purpose of:

To protect perennial water impoundments and streams, and/or riparian/wetland vegetation by moving oil and gas exploration and development beyond the riparian vegetation zone.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Exceptions may be granted only if an on-site impact analysis shows no degradation of the resource values.

EXHIBIT CO-29

Lease Number:

LEASE NOTICE

An inventory of fossil resources in Class I and II paleontological areas must be performed by an accredited paleontologist approved by the Authorized Officer.

On the lands described below:

EXHIBIT CO-30

Lease Number:

LEASE NOTICE

The lessee is hereby notified of potential closure period (March 01 through June 30) and special mitigation to protect nesting sage grouse from surface disturbing activities. Sage grouse nesting habitat is described as sagebrush stands with plants between 30 and 100 centimeters in height and 15-40 percent mean canopy cover.

On the lands described below:

EXHIBIT CO-31

Lease Number:

LEASE NOTICE

Special biological and/or botanical inventory and special mitigative measures to reduce impacts of surface disturbance to the sensitive plant or animal species may be required.

On the lands described below:

EXHIBIT FS-01

R2-FS-2820-13 (92)

Lease Number:

NOTICE FOR LANDS OF THE NATIONAL FOREST SYSTEM
UNDER JURISDICTION OF
DEPARTMENT OF AGRICULTURE

The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 26, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by an exploration plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed

to:

at

Telephone:

who is the authorized representative of the Secretary of Agriculture.

NOTICE

CULTURAL AND PALEONTOLOGICAL RESOURCES - The FS is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the FS, shall:

1. Contact the FS to determine if a site specific cultural resource inventory is required. If a survey is required, then:

2. Engage the services of a cultural resource specialist acceptable to the FS to conduct a cultural resource inventory of the area of proposed surface disturbance. The operator may elect to inventory an area larger than the area of proposed disturbance to cover possible site relocation which may result from environmental or other considerations. An acceptable inventory report is to be submitted to the FS for review and approval at the time a surface disturbing plan of operation is submitted.
3. Implement mitigation measures required by the FS and BLM to preserve or avoid destruction of cultural resource values. Mitigation may include relocation of proposed facilities, testing, salvage, and recordation or other protective measures. All costs of the inventory and mitigation will be borne by the lessee or operator, and all data and materials salvaged will remain under the jurisdiction of the U. S. Government as appropriate.

The lessee or operator shall immediately bring to the attention of the FS and BLM any cultural or paleontological resources or any other objects of scientific interest discovered as a result of surface operations under this lease, and shall leave such discoveries intact until directed to proceed by FS and BLM.

ENDANGERED OR THREATENED SPECIES - The FS is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determine effects upon any plant or animal species listed or proposed for listing as endangered or threatened, or their habitats. The findings of this examination may result in some restrictions to the operator's plans or even disallow use and occupancy that would be in violation of the Endangered Species Act of 1973 by detrimentally affecting endangered or threatened species or their habitats.

The lessee/operator may, unless notified by the FS that the examination is not necessary, conduct the examination on the leased lands at his discretion and cost. This examination must be done by or under the supervision of a qualified resource specialist approved by the FS. An acceptable report must be provided to the FS identifying the anticipated effects of a proposed action on endangered or threatened species or their habitats.

EXHIBIT FS-02

R2-FS-2820-14 (92)

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

For the purpose of:

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).

EXHIBIT FS-03

R2-FS-2820-15 (92)

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

On the lands described below:

For the purpose of (reasons):

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.

EXHIBIT FS-04

R2-FS-2820-16 (92)

Lease Number:

CONTROLLED SURFACE USE STIPULATION

SURFACE OCCUPANCY OR USE IS SUBJECT TO THE FOLLOWING SPECIAL OPERATING CONSTRAINTS.

On the lands described below:

For the purpose of:

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.

EXHIBIT GJ-12DA

Lease Number:

DEER AND ELK WINTER RANGE STIPULATION

In order to protect important seasonal wildlife habitat, lease activities such as exploration, drilling, and other development will be allowed only during the period from May 01 to December 01 on the following portions of this lease:

This limitation does not apply to maintenance and operation of producing wells.

This stipulation may be waived or reduced in scope if circumstances change, or if the lessee can demonstrate that operations can be conducted without causing unacceptable impacts on the concern(s) identified.

EXHIBIT GJ-13EE

Lease Number:

THREATENED AND ENDANGERED HABITAT STIPULATION

The following portions of this lease are within known threatened and endangered species habitat:

Threatened and endangered species:

Black-Footed Ferret.

The lessee/operator shall submit a plan for avoidance or mitigation of impacts on the identified species to the authorized officer. This may require completion of an intensive inventory by a qualified biologist. The plan must be approved prior to any surface disturbance. The authorized officer may require additional mitigation measures such as relocation of proposed roads, drilling sites, or other facilities. Where impacts cannot be mitigated to the satisfaction of the authorized officer, surface occupancy on that area must be prohibited.

EXHIBIT GJ-2GI

Lease Number:

SCENIC AND NATURAL VALUES STIPULATION

Special design and reclamation measures may be required to protect the outstanding scenic and natural landscape value of the following portion(s) of this lease:

For the protection of:

Grand Mesa Slopes (Visibility Resources Management)

Special design and reclamation measures may include transplanting trees and shrubs, fertilization, mulching, special erosion control structures, irrigation, site recontouring to match the original contour, buried tanks and low profile equipment, and painting to minimize visual contrasts. Surface disturbing activities may be denied in sensitive areas, such as unique geologic features and rock formations, visually prominent areas, and high recreation use areas.

This stipulation may be waived or reduced in scope if circumstances change or if the lessee can demonstrate that operations can be conducted without causing unacceptable impacts on the concern(s) identified.

EXHIBIT GS-CSU-02

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the Purpose of protecting:

Riparian and Wetland Zones: within 500 feet of the outer edge of the riparian or wetland vegetation, activities associated with oil and gas exploration and development, including roads, pipelines and wellpads, may require special design, construction, and implementation measures, including relocation of operations beyond 200 meters, in order to protect the values and functions of the riparian and wetland zones. Such measures will be based on the nature, extent and value of the riparian vegetation are most important to the function of the riparian zone and will be avoided.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT GS-CSU-04

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the Purpose of Protecting:

Erosive Soils and Slopes Greater Than 30 Percent: special design, construction, and operation and reclamation measures will be required to limit the amount of surface disturbance, to reduce erosion potential, to maintain site stability and productivity, and to insure successful reclamation in identified areas of highly erosive soils and of slopes greater than 30 percent. Highly erosive soils are soils in the "severe" and "very severe" erosion classes based on NARCS Erosion Condition mapping. Areas identified in the RMP as Erosion Hazard Areas and Water Quality Management Areas are also included in this stipulation. Implementation may include relocation of operations beyond 200 meters.

The surface use plan of the APD submitted for wells on erosive soils or slopes greater than 30 percent must include specific measures to comply with the GSRA Reclamation Policy, such as stabilizing the site to prevent settling, land sliding, slumping, and highwall degradation, and controlling erosion to protect the site and adjacent areas from accelerated erosion and sedimentation and siltation of nearby water sources.

Specific performance objectives for the plan include:

- Limitation of total disturbance to 3.0 acres for the wellpad;
- Limitation of the interim "in use" area to 0.5 acres; and
- Maximizing the area of interim reclamation that is shaped to a grade of 3:1 or less; any planned highwall must be demonstrated to be safe and stable and include enhanced reclamation and erosion prevention measures as needed.

EXHIBIT GS-CSU-04 (Continued)

The operator must also provide an evaluation of the site's reclamation potential based on problematic characteristics of the site (slope, aspect, vegetation, depth of soils, soil salinity and alkali content) and a comparison of the site with comparable sites already constructed. When the proposed site is comparable to sites where reclamation has not been successful, the operator will be required to make adjustments to reclamation techniques. Special measures might include: locating production facilities off-site; building roads to higher standards, including surfacing; constructing sediment catchments; reclaiming the reserve pit immediately after use; and applying fertilizers, mulches, soil additives and geotextile fabrics. The Authorized Officer will evaluate plans submitted by the operator and approve a design and any special measures that best accomplish the performance objectives, achieving a reasonable balance of site stability and re-vegetation potential and minimizing overall disturbance.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT GS-CSU-05

Lease Number:

CONTROLLED SURFACE USE STIPULATION

Surface occupancy or use is subject to the following special operating constraints.

On the lands described below:

For the Purpose of protecting:

Visual Resource Management (VRM) Class II Areas: protection may include special design requirements, relocation of operations by more than 200 meters, and other measures to retain the overall landscape character. Such measures would be designed to blend the disturbance in with the natural landscape so that it does not attract attention from key observation points. BLM acknowledges that activities on private lands may alter the landscape character and such modifications will be considered when evaluating mitigation proposals relative to the visual quality of the overall landscape.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT GS-LN-01

Lease Number:

LEASE NOTICE

The lessee is hereby notified that an inventory shall be conducted by an accredited paleontologist approved by the Authorized Officer prior to surface-disturbing activities in Class I and II Paleontological Areas.

On the lands described below:

EXHIBIT GS-LN-02

Lease Number:

LEASE NOTICE

The lessee is hereby notified that, in areas of known or suspected habitat of special status species, or habitat of other species of interest, such as raptor nests or elk calving areas, or significant natural plant communities, a biological inventory will be required prior to approval of operations.

The inventory would be used to prepare mitigating measures to reduce the impacts of surface disturbance on the affected species or their habitats. These mitigating measures may include, but are not limited to, relocation of roads, wellpads, pipelines, and other facilities, and fencing operations or habitat.

Given the high potential for sensitive species to occur in the NOSR Production Area, it is likely that a biological inventory will be required for most proposed locations in that area prior to development activities.

On the lands described below:

EXHIBIT GS-LN-03

Lease Number:

LEASE NOTICE

All lessees in the Glenwood Springs Resource Area are required to report to the Authorized Officer annually on the ongoing progress of reclamation at locations developed on the lease.

On the lands described below:

EXHIBIT GS-LN-04

Lease Number:

LEASE NOTICE

The lessee is hereby notified that, the operator is required to prepare and maintain a current emergency communications plan. The plan shall be provided to the BLM, Colorado State Patrol, the affected county and communities, and the general public.

The plan shall contain information sufficient to describe the potential for emergency incidents related to oil and gas development which pose an immediate danger to human health and safety and would normally require immediate actions by the operator to remove the threat, such as for hazardous materials spills; actions to be taken by the operator in the event of such an incident; and a communications plan to inform appropriate authorities and potentially affected citizens.

On the lands described below:

EXHIBIT GS-LN-06

Lease Number:

LEASE NOTICE

The lessee is hereby notified that, the operator is required to establish a set of reasonable operating procedures for employees and contractors working in important wildlife habitats. Such procedures would be designed to inform employees and contractors of ways to minimize the effect of their presence on wildlife and wildlife habitats. Procedures might address items such as working in bear country, controlling dogs, and understanding and abiding by hunting and firearm regulations.

On the lands described below:

EXHIBIT GS-LN-10

Lease Number:

LEASE NOTICE

The lessee is hereby notified that special design and construction measures may be required in order to minimize the visual impacts of drilling activities within five miles of all communities or population centers throughout the GSRA, major BLM or county roads, and state or federal highways. The overall goal of these measures would be to blend the disturbance with the natural landscape as much as possible. At a minimum, operations should be designed to insure that the disturbance does not dominate the natural landscape character (VRM Class III objective). BLM acknowledges that activities on private lands may alter the landscape character, and such alterations will be considered when evaluating mitigation proposals relative to the visual quality of the overall landscape.

On the lands described below:

EXHIBIT GS-LN-11

Lease Number:

LEASE NOTICE

The lessee is hereby notified that, in areas being actively developed, the operator must submit a Geographic Area Proposal (GAP) that describes a minimum of two to three years activity for operator-controlled federal leases within a reasonable geographic area (to be determined jointly with BLM). The GAP will be used to plan development of federal leases within the area, to account for well locations, roads, and pipelines, and to identify cumulative environmental effects and appropriate mitigation. The extent of the analysis will be dependent on the extent of surface ownership, extent of lease holding, topography, access and resource concerns. This requirement for a GAP may be waived for individual or small groups of exploratory wells, for directional wells drilled on previously developed well pads, or for individual wells proposed along existing roads.

On the lands described below:

EXHIBIT GS-NSO-04

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

Protecting wildlife habitat values for which these areas were acquired by the state, including crucial big game and upland game winter habitat, and concentration areas and riparian values.

Exception criteria include special mitigative measures developed in consultations with the Colorado Division of Wildlife.

EXHIBIT GS-NSO-11

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy/or use is allowed on the lands described below (Legal subdivision or other description):

For the Purpose of Protecting:

Wildlife Seclusion Areas: To protect fourteen seclusion areas that provide high wildlife value: The Roan Cliffs, Cottonwood Gulch, and Webster Hill/Yellowslide Gulch (all in the NOSR Production Area); Hayes Gulch; Riley and Starkey Gulch; Riley Gulch; Crawford Gulch; Magpie Gulch; Paradise Creek; Coal Ridge; Lower Garfield; Jackson Gulch; Bald Mountain; and Battlement Mesa.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Exceptions may be granted based on approval by the Authorized Officer of a mitigation plan that suitably addresses the wildlife seclusion values at risk. These areas provide several unique qualities, such as an optimum mix of quality forage, cover and water; proximity to natural migration corridors; birthing areas; topographic features which moderate severe winter conditions; and seclusion from human intrusion.

EXHIBIT GS-NSO-15

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy/or use is allowed on the lands described below (Legal subdivision or other description):

For the Purpose of protecting:

Steep Slopes: To maintain site stability and site productivity, on slopes greater than 50 percent. This NSO does not apply to pipelines.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

In the event the lessee demonstrates that operations can be conducted without causing unacceptable impacts and that less restrictive measures will protect the public interest, an exception may be approved by the Authorized Officer. A request for an exception must include an engineering and reclamation plan which provides a high level of certainty that such operations can be conducted consistent with the objectives of the GSRA Reclamation Policy. All elements of the Erosive Soils and Steep Slope CSU would apply (Exhibit GSCSU-04). In addition, the operator must provide sufficient on-site analysis of soil types, vegetation types, aspect, depth to bedrock, nature of subsurface materials and potential for below ground seeps or springs. The lessee must also provide an evaluation of past practices on similar terrain and be able to demonstrate success under similar conditions. Previous success under similar conditions would be a critical element in the Authorized Officer's determination.

.EXHIBIT GS-NSO-17

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

Protecting non-motorized recreation opportunities, no surface occupancy will be authorized within the Sunlight Peak Area.

No exceptions are permitted.

EXHIBIT GS-TL-01

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 1 to April 30

On the lands described below:

For the purpose of protecting:

Big Game Winter Habitat (includes mule deer, elk, pronghorn antelope and bighorn sheep) which includes severe big game winter range and other high value winter habitat as mapped by the Colorado Division of Wildlife.

Any changes to this stipulation will be made in accordance with the land use plan/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Under mild winter conditions, the last 60 days of the seasonal limitation period may be suspended after consultation with the CDOW. Severity of the winter will be determined on the basis of snow depth, snow crusting, daily mean temperatures, and whether animals were concentrated on the winter range during the winter months. This limitation may apply to work requiring a Sundry Notice pending environmental analysis of any operational or production aspects.

EXHIBIT GS-TL-02

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time periods. This stipulation does not apply to operation and maintenance of production facilities.

Elk Calving - April 16 to June 30

Pronghorn Antelope Fawning - May 1 to July 15

Rocky Mountain Bighorn Sheep Lambing - May 1 to July 15

Desert Bighorn Sheep Lambing - March 16 to May 30

On the lands described below:

For the purpose of:

Protecting big game birthing areas.

Exception for Big Game Birthing Areas: When it is determined through a site specific environmental analysis that actions would not interfere with critical habitat function nor compromise animal condition within the project vicinity, the restriction may be altered or removed.

EXHIBIT LS-08

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 2 - June 30

On the lands described below:

For the purpose of (reasons):

To protect wild horse foaling in the wild horse herd management area.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT LS-09

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 1 through December 1

On the lands described below:

For the purpose of (reasons):

To protect wild horse water sources during critical periods of use.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT LS-13

Lease Number:

LEASE NOTICE

No surface-disturbing activities will be allowed that may significantly alter the prairie dog complex, making it unsuitable for reintroduction of the blackfooted ferret.

On the lands described below:

EXHIBIT OS-A

Lease Number:

OIL SHALE
STIPULATION

- A. No wells will be drilled for oil or gas except upon approval of the Authorized Officer of the Bureau of Land Management. Drilling will be permitted only in the event that it is established to the satisfaction of the Authorized Officer that such drilling will not interfere with the mining and recovery of oil shale deposits or the extraction of shale oil by in situ methods or that the interest of the United States would best be served thereby.
- B. No well will be drilled for oil or gas at a location which, in the opinion of the authorized officer, would result in undue waste of oil shale deposits or constitute a hazard to or unduly interfere with operations being conducted for the mining and recovery of oil shale deposits or the extraction of shale oil by in situ methods.
- C. When it is determined by the Authorized Officer that unitization is necessary for orderly oil and gas development and proper protection of oil shale deposits, no well will be drilled for oil and gas except pursuant to an approved unit plan.
- D. The drilling or the abandonment of any well on leases within an oil shale area will be done in accordance with applicable oil and gas operating regulations including such requirements as the Authorized Officer may prescribe as necessary to prevent the flow or infiltration of oil, gas, or water into formations containing oil shale deposits or into mines or workings being utilized in the extraction of such deposits.

Special Stipulation to Protect Rights of Owner(s) of Oil Shale Estate(s)

The rights and obligations of the Lessee hereunder are subject to the terms of an Agreement To Settle Pending Litigation Between The United States And The Owners Of Certain Oil Shale Mining Claims In Colorado, dated August 4, 1986. Under that Agreement, the owner(s) of the oil shale deposits present within lands covered in whole or in part by this lease hold dominant mineral estate vis-à-vis the Lessor's subservient mineral estate in the oil, gas and coal that is present in the same lands. Among the rights of the pertinent holder(s) of such a dominant oil shale estate arising under the aforesaid Agreement are the following, which are hereby expressly incorporated into this Lease.

EXHIBIT OS-A (Continued)

1. Upon receipt of the Lessee's Application for Permit to Drill (or similar request for authority to develop), the Lessor shall promptly provide written notice to the owner(s) of the pertinent dominant estate(s) concerning the authorization being sought by the Lessee.
2. The Lessor shall thereupon notify the Lessee of the identity and address of the owner(s) of pertinent dominant estate(s) and direct the Lessee to contact such person(s) and attempt in good faith to reach agreement on the need for, and terms of, any oil-shale protective measures in addition to, or more specific than, those included in the Standard Oil Shale Stipulation of this Lease. Any agreed protective provisions of this kind shall be adopted by the Lessor and incorporated into the Lessee's permit (or other authorization) to develop.
3. If the Lessee does not agree to a particular additional or more specific oil shale-protective provision desired by the owner(s) of a pertinent dominant estate, the rights of such dominant estate owner(s) will vary, depending on whether the protective measures in question relate to proposed developmental activities that are to take place above or below the essentially horizontal line of demarcation that is two hundred feet below the bottom of the Orange Marker (or a lateral stratigraphic projection of the Orange Marker or the equivalent thereof) as the term "Orange Marker" is used, and mapped, by Henry W. Roehler, United States Geological Survey, "Depositional Environments of Rocks in the Piceance Creek Basin, Colorado," Figures 1 and 2 and Guidebook to the Energy Resources of the Piceance Creek Basin, Colorado, Rocky Mt. Association of Geologists (1974).
 - a. With respect to proposed developmental activities that would occur above the aforesaid line of demarcation, the Lessor shall adopt and incorporate into the Lessee's permit (or other authorization to develop) any additional or more specific provisions recommended by the owner(s) of a pertinent dominant oil shale estate which reasonable relate to protection of such dominant estate. The right of the owner(s) of a pertinent dominant estate to require adoption and incorporation of such additional or more specific oil shale-protective provisions shall be deemed to be in the nature of a right to impose any reasonable conditions (but not the payment of money) as consideration for a required consent to develop.
 - b. With respect to proposed developmental activities that would occur below the aforesaid line of demarcation, the owner(s) of a pertinent dominant estate shall have a reasonable opportunity to recommend to the Lessor the adoption of any additional or more specific oil shale-protective provisions. The Lessor shall give careful consideration to such recommendations, shall adopt and incorporate such recommendations into the Lessee's permit (or other authorization to

EXHIBIT OS-A (Continued)

develop) where and to the extent that they are reasonable, and shall provide the pertinent owner(s) of a dominant estate with a written explanation of its decision not to so adopt and incorporate any or all of such recommendations. However, the provision of such explanation shall not be deemed to relieve the Lessor or the Lessee of any liability either may have under then applicable law for damage or injury to the dominant estate.

4. The Lessee is hereby placed on notice that the Lessor is required to, and shall, vigorously enforce all oil shale-protective provisions included in the Standard Oil Shale Stipulation of this Lease or in this Special Stipulation, and any additional or more specific oil shale-protective provisions adopted in connection with, and incorporated into, Lessee's permit (or other authorization to develop) issued under this Lease.
5. The Lessee is hereby placed on notice that under the Lessor's August 4, 1986 Agreement referenced above, it is the stated intent of the parties that the owner(s) of such dominant oil shale estate(s) can enforce rights and obligations arising under that Agreement, including those incorporated expressly herein, directly against the lessee.

EXHIBIT RG-03

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 1 through July 31

On the lands described below:

For the purpose of:

To protect the lesser prairie chicken nesting habitat.

This species is a threatened species in Colorado and sensitive to habitat encroachment. Limited nesting habitat is available and full protection is necessary to ensure nesting success.

Any changes to this stipulation will be made in accordance with the land use plan and or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT SJ-03

Lease Number:

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below (legal description or other description):

For the purpose of:

To protect recreational and visual values of the Dolores River Canyon, and Menefee and Weber Mountains.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT SJ-06

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

March 2 through June 30

On the lands described below:

For the purpose of (reasons):

To protect wild horse foaling.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT SL-01

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 15 to March 31

On the lands described below:

For the purpose of (reasons):

To protect big game winter range.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT UB-04

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 1 - April 30

On the lands described below:

For the purpose of (reasons):

To protect crucial deer and elk winter ranges.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

EXHIBIT UB-10

Lease Number:

COALBED METHANE/COAL MINING STIPULATION

On the lands described below:

For the purpose of (reasons):

To protect the maximum economic recovery and safety of coal mining where the overburden is 3500 feet or less.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of the stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

Exception Criteria:

Within the Paonia-Somerset Known Recoverable Coal Resource Area (KRCRA), coal and oil and gas leasing and development will be managed consistent with land use plans and lease terms. More specifically, the portions of the KRCRA where the overburden above the B-Seam of the Mesa Verde coals is less than 3500 feet will be managed primarily for the exploration and development of the coal resources. Oil and gas operators anticipating exploration or development operations are encouraged to consult and coordinate their activities with the affected coal operators. In the event that the oil and gas and coal operators are unable to reach agreement on proposed oil and gas exploration or development, the BLM authorized officer will intervene and use all pertinent lease terms, regulations, and policy to determine what course of action is in the public's interest. However, under no circumstances will the BLM approve any oil and gas operations that compromise maximum economic coal recovery or the safety of underground mining operations

EXHIBIT WR-CSU-01

Lease Number:

CONTROLLED SURFACE USE

Surface occupancy or use is subject to the following special operating constraints:

Surface disturbing activities will be allowed in these areas only after an engineered construction/reclamation plan is submitted by the operator and approved by the Area Manager. The following items must be addressed in the plan: 1) How soil productivity will be restored; 2) How surface runoff will be treated to avoid accelerated erosion such as riling, gullying, piping, and mass wasting.

On the lands described below:

For the purpose of:

PROTECTING FRAGILE SOILS ON SLOPES GREATER THAN
35 PERCENT & SALINE SOILS

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: An exception may be granted by the Area Manager if an environmental analysis of the proposed action identifies that the scale of the operation would not result in any long term decrease in site productivity or increased erosion. An exception may also be granted by the Area Manager if a more detailed soil survey determines that soil properties associated with the disturbance do not meet fragile soil criteria.

MODIFICATION: None.

WAIVER: None.

EXHIBIT WR-CSU-03

Lease Number:

CONTROLLED SURFACE USE

Surface occupancy or use is subject to the following special operating constraints:

Prior to authorizing activities in this area, the Area Manager will confer or consult with the U.S. Fish & Wildlife Service as required by Section 7 of the Endangered Species Act. Depending on the scope of the proposed action, a plan or development may be required that demonstrates how the proposed activities would be conducted or conditioned to:

- 1) avoid the direct or indirect loss of black-footed ferrets; or
- 2) avoid affecting the capability of the site to achieve reestablishment objectives.

The Area Manager may impose land use measures and limitations derived from a site specific ferret reintroduction and management plan. The measures and limitations would be designed to avoid, or reduce to acceptable levels, the short and long term adverse effects on ferret survival, behavior, reproductive activities, and/or the area's capacity to sustain ferret population objectives.

Examples of measures and limitations include:

- 1) relocation of surface activities more than 200 meters;
- 2) deferring activities longer than 60 days;
- 3) limiting access to designated roads and trails;
- 4) modifications to project design to discourage raptor perching and prohibit the disruption of certain or all prairie dog burrow systems;
- 5) limit surface disturbance to certain seasons and times of day;
- 6) require participation in ferret surveys and/or efforts to offset losses of, or expand suitable prairie dog habitats to compensate for, unavoidable habitat loss or adverse habitat modification.

On the lands described below:

EXHIBIT WR-CSU-03 (continued)

For the purpose of:

PROTECTING BLACK-FOOTED FERRET REINTRODUCTION AREA

This is a controlled surface use area for promoting the reestablishment and development of a self-sustaining black-footed ferret population.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may authorize surface disturbance or use within these areas if an environmental analysis and associated biological assessment find that the activity as proposed or conditioned, would not adversely influence ferret recovery, or conflict with the ferret reintroduction and management plan.

MODIFICATION: The Area Manager may modify the terms of the controlled surface use stipulation if the proposed action is shown to be compatible with ferret recovery goals and/or the ferret reintroduction and management plan.

WAIVER: The Area Manager may grant a waiver if extirpation of wild, free roaming ferret populations culminates in the discontinuance of the species recovery program, or local reintroduction efforts are otherwise abandoned.

EXHIBIT WR-LN-01

Lease Number:

LEASE NOTICE

PRAIRIE DOG TOWNS: Lands within this lease parcel involve prairie dog ecosystems that constitute potential habitat for wild or reintroduced populations of the federally endangered black-footed ferret. Conservation and recovery efforts for the black-footed ferret are authorized by the Endangered Species Act of 1973 (as amended). The successful lessee may be required to perform special conservation measures prior to and during lease development. These measures may include one or more of the following:

1. Performing site-specific habitat analysis and/or participating in ferret surveys.
2. Participating in the preparation of a surface use plan of operations with Bureau of Land Management, U.S. Fish & Wildlife Service, and Colorado Division of Wildlife, which integrates and coordinates long term lease development with measures necessary to minimize adverse impacts to black-footed ferrets or their habitat.
3. Abiding by special daily and seasonal activity restrictions on construction, drilling, product transport, and service activities.
4. Incorporating special modifications to facility siting, design, construction, and operation.
5. Providing in-kind compensation for habitat loss and/or displacement (e.g., special on-site habitat enhancement).

On the lands described below:

EXHIBIT WR-LN-02

Lease Number:

LEASE NOTICE

PALEONTOLOGICAL VALUES: This lease encompasses a Class I paleontological area and has the potential to contain important fossils. Prior to authorizing surface disturbing activities, the Bureau of Land Management will make a preliminary determination as to whether potential exists for the presence of fossil material. If potential exists for the presence of valuable fossils, the area will be required to have a Class I paleontological survey completed. Mapped fossil sites will be protected

by applying the appropriate mitigation to the use authorization. Mitigation may involve the relocation of disturbance in excess of 200 meters, or excavation and recording of the fossil remains. Certain areas may require the presence of a qualified paleontologist to monitor operations during surface disturbing activities. Bureau of Land Management will determine the disposition of any fossils discovered and excavated.

On the lands described below:

EXHIBIT WR-LN-03

Lease Number:

LEASE NOTICE

WILD HORSE HABITAT: This lease parcel encompasses a portion of a wild horse herd management area. In order to protect wild horses within this area, intensive development activities may be delayed for a specified 60 day period within the spring foaling period between March 1 and June 15.

The lessee may be required to perform special conservation measures within this area including:

1. Habitat improvement projects in adjacent areas if development displaces wild horses from critical habitat.
2. Disturbed watering areas would be replaced with an equal source of water, having equal utility.
3. Activity/improvements would provide for unrestricted movement of wild horses between summer and winter ranges.

On the lands described below:

EXHIBIT WR-NSO-01

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING LANDSLIDE AREAS. Identified soils are considered unstable and subject to slumping and mass movement. Surface occupancy will not be allowed in such areas delineated from U.S. Department of Agriculture Soil Conservation Service Order III Soil Surveys.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may authorize surface occupancy if an environmental analysis finds the nature of the proposed action could be conditioned so as not to impair the stability of the landslide areas. An exception may also be granted if a more detailed soil survey, that is, Order I, conducted by a qualified soil scientist, finds the soil properties associated with the proposed action are not susceptible to slumping and mass movement.

MODIFICATION: Site specific modifications may be granted by the Area Manager pending determination that a portion of the soil units meet the following conditions:

1. Inclusions within the soil unit where slopes are less than 35 percent.
2. A more detailed survey identifies and delineates wet areas and sloping rock formations, and the proposed action is designed to avoid those areas.
3. The proposed action utilizes land treatments and soil stabilization practices that will demonstrate a high probability of reducing soil loss and preventing degradation of water quality.
4. The proposed action would not cause slumping or mass movement as demonstrated through engineering and design criteria.

WAIVER: None.

EXHIBIT WR-NSO-03

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING OTHER RAPTORS. This area encompasses raptor nests of other than special status raptor species. Surface occupancy is not allowed within 1/8 mile of identified nests.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: An exception may be granted by the Area Manager if authorization is obtained from the U.S. Fish & Wildlife Service (through applicable provisions of the Endangered Species Act, Eagle Protection Act, or Migratory Bird Treaty Act) , to interrupt active nesting attempts and/or cause short or long term adverse modification of suitable nest site characteristics. The Area Manager may also grant an exception if an environmental analysis finds that the nature or conduct of the action, as proposed or conditioned, would not impair the function or utility of the nest site for current or subsequent nest activities or occupancy.

MODIFICATION: Site specific modifications to the no surface occupancy area may be granted by the Area Manager pending determination that a portion of the area is not essential to nest site functions or utility; or that the nature or conduct of the activity, as proposed or conditioned, would not impair the function or utility of the nest site for current or subsequent nest activities or occupancy. The stipulation may also be modified if the proponent, Bureau of Land Management, and where necessary, other affected interests, negotiate compensation that satisfactorily offsets anticipated impacts to candidate raptor breeding activities and/or habitats. Modifications could also occur if sufficient information is provided that supports the contention that the action would not contribute to the suppression of breeding population densities or the population's production or recruitment regime from a Geographic Reference Area perspective.

EXHIBIT WR-NSO-03 (Continued)

WAIVER: A waiver may be granted by the Area Manager if documentation shows the nest site has been abandoned for a minimum of three years; or that the site conditions, including surrounding nest habitat, have changed such that there is no reasonable likelihood of site occupation for a subsequent minimum period of 10 years.

EXHIBIT WR-NSO-04

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING SAGE GROUSE LEKS. This area encompasses sage grouse leks. Surface occupancy is not allowed within 1/4 mile of identified lek sites.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: An exception may be granted by the Area Manager if an environmental analysis determines that the action, as proposed or conditioned, would not impair the function or utility of the site for current or subsequent reproductive display, including daytime loafing/staging activities.

MODIFICATION: The no surface occupancy area may be modified in extent, or substituted with a timing limitation, by the Area Manager if an environmental analysis finds that a portion of the area is nonessential to site utility or function, or that the proposed action could be conditioned so as not to impair the function or utility of the site for current or subsequent reproductive display, including daytime loafing/staging activities. The stipulation may also be modified if the proponent, Bureau of Land Management, Colorado Division of Wildlife, and where necessary, other affected interest, negotiate compensation that satisfactorily offsets anticipated impacts to sage grouse breeding activities and/or habitats.

WAIVER: This stipulation may be waived if, in cooperation with the Colorado Division of Wildlife, it is determined that the site has been permanently abandoned or unoccupied for a minimum of five years; site conditions have changed such that there is no reasonable likelihood of site occupation for a subsequent minimum period of 10 years.

EXHIBIT WR-NSO-06

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING AREAS OF CRITICAL ENVIRONMENTAL CONCERN (ACEC). These ACECs contain vertebrate and/or invertebrate fossils of high scientific value or possess plant species that are listed as threatened or endangered, candidates for listing, Bureau of Land Management sensitive, State of Colorado plant species of concern, or remnant vegetation associations. Surface occupancy or disturbance will not be allowed within the boundaries of the ACEC.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may grant an exception to this stipulation if, after an on the ground plant inventory is conducted, an environmental analysis indicates that the nature or conduct of the action, as proposed or conditioned, would not directly or indirectly affect the identified important values of the ACEC.

MODIFICATION: None.

WAIVER: None.

EXHIBIT WR-NSO-08

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING KNOWN & POTENTIAL HABITAT OF LISTED &
CANDIDATE THREATENED OR ENDANGERED PLANT SPECIES.

This area contains threatened or endangered plants, candidate threatened or endangered plants, or potential habitat for these plants. No surface occupancy will be allowed on mapped populations of these plants.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTIONS: The Area Manager may grant an exception if an inventory and subsequent environmental analysis indicates that the nature or conduct of the action, as proposed or conditioned, would not directly or indirectly affect plant populations.

MODIFICATION: None.

WAIVER: None.

EXHIBIT WR-NSO-09

Lease Number:

NO SURFACE OCCUPANCY

No surface occupancy or use is allowed on the lands described below:

For the purpose of:

PROTECTING SENSITIVE PLANTS & REMNANT VEGETATION ASSOCIATIONS. This area contains Bureau of Land Management sensitive plants and remnant vegetation associations. Surface occupation will not be allowed within known populations of these plants.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTIONS: The Area Manager may grant an exception if an inventory and subsequent environmental analysis indicated that the nature or conduct of the action, proposed or conditioned, would not directly or indirectly affect plant populations. An exception may also be applied if the no surface occupancy stipulation would hinder or preclude the exercise of valid existing rights. Under that circumstance, protection of the plants would be afforded through Conditions of Approval, that would require reclamation of disturbed areas to include utilizing native seed mixes in remnant vegetation association areas, and reproducing sensitive species via transplant or some other means in areas containing sensitive species.

MODIFICATION: None.

WAIVER: None.

EXHIBIT WR-TL-04

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

No development activities are allowed within 1/4 mile of identified nests from February 1 through August 15, or until fledgling and dispersal of young. (Development will be allowed from August 16 through January 31)

On the lands described below:

For the purpose of (reasons):

PROTECTING OTHER RAPTORS: This area encompasses the nests of raptors that are other than threatened, endangered, or candidate species.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: An exception may be granted to these dates by the Area Manager, if authorization is obtained from the U.S. Fish & Wildlife Service (through applicable provisions of the Endangered Species Act, Eagle Protection Act, or Migratory Bird Treaty Act) to harass, harm, wound, or kill in the context of active nesting attempts. An exception can also be granted if an environmental analysis of the proposed action indicates that nature or conduct of the activity could be conditioned so as not to impair the utility of nest for current or subsequent nesting activity or occupancy. The Area Manager may also grant an exception if the nest is unattended or remains unoccupied by May 15 of the project year.

MODIFICATION: The Area Manager may modify the size of the stipulation area if an environmental analysis indicates that a portion of the area is nonessential to nest utility or function, or that the proposed action could be conditioned so as not to impair the utility of the nest site for current or subsequent nest activities or occupation. The stipulation may also be modified if the proponent, Bureau of Land Management, and where necessary, other affected interests, negotiate compensation that satisfactorily offsets anticipated impacts to raptor breeding activities and/or habitats. Modifications could also occur if sufficient information is provided that supports the contention that the action would not contribute to the suppression of breeding population densities or the population's production or recruitment regime from a Geographic Reference Area perspective.

WAIVER: A waiver may be granted if the nest has remained unoccupied for a minimum of three years or conditions have changed such that there is no reasonable likelihood of site occupation over a minimum 10 year period.

EXHIBIT WR-TL-06

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

This stipulation will not take effect until direct and indirect impacts to suitable nesting cover exceed 10 percent of the habitat available within 2 miles of identified leks. Further development, after this threshold has been exceeded, will not be allowed from April 15 through July 7. (Development can occur until 10 percent of the habitat associated with a lek is impacted, from then on, additional activity can occur from July 8 through April 14.)

On the lands described below:

For the purpose of (reasons):

PROTECTING SAGE GROUSE NESTING HABITAT.

This area encompasses suitable sage grouse nesting habitat associated with individual leks.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may grant an exception if an environmental analysis and consultation with the Colorado Division of Wildlife indicate that the proposed action could be conditioned so as not to affect nest attendance, egg/chick survival, or nesting success. An exception could also be granted if the proponent, Bureau of Land Management, and Colorado Division of Wildlife negotiate compensation that would satisfactorily offset the anticipated losses of nesting habitat or nesting activities. Actions designed to enhance the long term utility or availability of suitable nest habitat may be excepted.

EXHIBIT WR-TL-06 (Continued)

MODIFICATION: The Area Manager may modify the size of the timing limitation area if an environmental analysis indicates that the proposed action could be conditioned so as not to affect nest attendance, egg/chick survival, or nesting success. Time frames may be modified if operations could be conditioned to allow a minimum of 70 percent of nesting attempts to progress through hatch.

WAIVER: This stipulation may be waived if Colorado Division of Wildlife determines that the described lands are incapable of serving the long term requirements of sage grouse nesting habitat and that these ranges no longer warrant consideration as components of sage grouse nesting habitat.

EXHIBIT WR-TL-08

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

No development activity is allowed from December 1 through April 30. (Development activities are allowed from May 1 through November 30.)

On the lands described below:

For the purpose of (reasons):

PROTECTING BIG GAME SEVERE WINTER RANGE.
This area encompasses big game severe winter range.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may grant an exception in an environmental analysis indicates that the proposed action could be conditioned as not to interfere with habitat function or compromise animal condition within the project activity. An exception may also be granted if the proponent, Bureau of Land Management, and Colorado Division of Wildlife negotiate compensation that would satisfactorily offset anticipated impacts to big game winter activities or habitat condition. Under mild winter conditions, when prevailing habitat or weather conditions allow early dispersal of animals from all or portions of a project area, an exception may be granted to suspend the last 60 days of this seasonal limitation. Severity of winter will be determined on the basis of snow depth, snow crusting, daily mean temperatures, and whether animals were concentrated on the winter range during the winter months. Exceptions may also be granted for actions specifically intended to enhance the long term utility or availability of suitable habitat.

EXHIBIT WR-TL-08 (Continued)

MODIFICATION: The Area Manager may modify the size and time frames of this stipulation if Colorado Division of Wildlife monitoring information indicates that current animal use patterns are inconsistent with dates established for animal occupation. Modifications may also be authorized if the proposed action could be conditioned so as not to interfere with habitat function or compromise animal condition. In addition, if the proponent, Bureau of Land Management, and Colorado Division of Wildlife agree to habitat compensation that satisfactorily offsets detrimental impacts to activity or habitat condition.

WAIVER: This stipulation may be waived if the Colorado Division of Wildlife determines that all or specific portions of the area no longer satisfy this functional capacity.

EXHIBIT WR-TL-09

Lease Number:

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

This stipulation will not take effect until direct and indirect impacts to suitable summer range habitats exceed 10 percent of that available within the individual Game Management Units (GMU). When this threshold has been reached, no further development activity will be allowed from May 15 through August 15.

(Development is allowed until 10 percent of individual GMU summer habitat has been affected, then additional development is allowed from August 16 through May 14.)

On the lands described below:

For the purpose of (reasons):

PROTECTING DEER & ELK SUMMER RANGE.

This area is located within deer and elk summer ranges, which due to limited extent, are considered critical habitat within appropriate Colorado Division of Wildlife GMUs.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see Bureau of Land Management Manuals 1624 and 3101 or Forest Service Manuals 1950 and 2820.)

EXCEPTION: The Area Manager may grant an exception if an environmental analysis indicates that the proposed action could be conditioned to have no additional influence on the utility or suitability of summer range habitats. An exception may also be granted if the proponent, Bureau of Land Management, and Colorado Division of Wildlife negotiate compensation that would satisfactorily offset anticipated impacts to summer range function or habitat. Exceptions may also be granted for actions specifically intended to enhance the long term utility or availability of suitable habitat.

EXHIBIT WR-TL-09 (Continued)

MODIFICATION: The Area Manager may modify the size and time frames of this stipulation if Colorado Division of Wildlife monitoring information indicates that current animal use patterns are inconsistent with dates established for animal occupation. Modifications may also be authorized if the proposed action could be conditioned to have no additional influence on the utility or suitability of summer range habitats.

WAIVER: This stipulation may be waived if the Colorado Division of Wildlife determines that all or specific portions of the area no longer satisfy this functional capacity or that these summer ranges no longer merit critical habitat status. Waivers will also be applied to delineated summer range occurring below 2,250 meters (7,350 feet) in elevation.

EXHIBIT CO-32

Lease Number: COC 65483

COLORADO STIPULATION FOR DRAINAGE

All or part of the lands contained in this lease are, or may be, subject to drainage by well(s) located adjacent to this lease. The lessee shall be required within sixty (60) calendar days of lease issuance to submit to the Authorized Officer technical analyses (e.g. drainage calculations) of the adjacent well(s) and, as necessary, a corresponding plan for protecting the lease from drainage.

The plan must include the amount of drainage from the production of the draining well(s), the amount of mineral resources that will be drained from this Federal lease during the life of the draining well(s), and whether a protective well(s) would be economic. If a protective well(s) would be economic, the plan must also identify the protective actions (e.g. establish a protective well, execute appropriate agreements) to be taken. Any actions may include obtaining a variance to State spacing for the area.

In the absence of demonstrating the lack of drainage, acceptable actions for protecting the lease from drainage, or acceptable justification why a protective well would not be economic, the lessee shall be obligated to pay compensatory royalty to the Minerals Management Service at a rate to be determined by the Authorized Officer. Compensatory royalty will be assessed beginning on the first day of the month following the earliest reasonable time it is determined that protective actions should have been taken. Refer to 43 Code of Federal Regulations, Part 3100 and Part 3160, for more information on drainage requirements.

EXHIBIT SJ-08

Lease Number: COC65508

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

December 1 through May 1

On the lands described below:

ALL LANDS

For the purpose of (reasons):

Provide sufficient habitat to support a population of 300 desert bighorn sheep within the Delores River corridor. Crucial habitats such as lambing grounds, watering sites, and seasonal concentration areas will be protected through management stipulation and, if required, seasonal closures.

EXHIBIT SJ-09

Lease Number: COC65654

TIMING LIMITATION STIPULATION

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

February 1 through June 30 - Allow no casual vehicle use from a point approximately one mile downstream from Snaggletooth Rapid, to a point approximately one mile upstream from Disappointment Creek. When use is allowed, request all vehicular drivers to register at BLM register boxes, in order to help BLM assess levels of motorized use.

On the lands described below:

T. 0430N, R. 0180W, NMPM
Section 10: ALL;

For the purpose of (reasons):

Although an unmaintained drivable trail parallels the river beyond the Pyramid Park area, uncontrolled vehicle use may disrupt habitat for fish, desert bighorn sheep, and peregrine falcons along this stretch of the river. Such use would also detract from the solitude and naturalness valued by boating recreationists.

LEASE NOTICE

Roadless Area Conservation Rule

Lands contained in this lease may be subject to the rule entitled "Special Areas; Roadless Area Conservation Rule; Final Rule" published in the Federal Register on January 12, 2001.

FURTHER INFORMATION:

In accordance with the memorandum "Regulatory Review Plan" issued from the Assistant to the President and Chief of Staff on January 20, 2001 and published in the Federal Register on January 24, 2001, the effective date of the above-referenced rule is temporarily delayed from March 13, 2001 and May 12, 2001.
