RE: Parcel #14, 3120(934), Sections 17 and 20 T15NR10W

Dear Ms. Anderson-Artis,

As I mentioned to you, my family owns several thousand acres due west of the state owned Loggy Bayou Wildlife Management Area. Due to the environmental significance of this area, its wetland status, and the rare and threatened wildlife it supports, we have encumbered this property with a perpetual conservation easement. Any surface mineral activity would compromise this conservation effort. Please consider this in your leasing decisions.

We are appreciative of your concern and attention.

Sincerely,

Markham A. Dickson, Jr.
