Attn: Kemba Anderson

This is a followup to my recent telephone call. My husband and I urge reconsideration of oil and gas drilling in Pentwater Township, especially in areas near to Duna Vista Resorts. We are a resort community, dependent on tourists for our economic survival. We live in Duna Vista. Duna Vista consists of approximately 110 homesites, many residents live here year around. Also, many cottages and homes are rented during the beautiful Michigan summer months. Oil and gas drilling (with so little anticipated return) would not be worth the environmental costs. We also are in an area with wells. We have no city or village water sources. Any interference with water supply with possible contamination by drilling would be devastating.

Please reconsider the decision to auction oil and gas leases in Pentwater Township.

Thank you for your review of this matter.
