RE: proposed sale of mineral rights for fracking near Nelsonville, OH

Dear BLM: As a person who lives downstream from this site and drinks the water, I ask you to withdraw these parcels. I am very concerned that the stipulations do not protect the Hocking River and aquifer.

Looking at the long view, I would like to see my grandson able to drink the water when he comes to my house.

Please no fracking!

Thank you for listening to my concerns,

Jane Palmer
