

Notice of Competitive Lease Sale Oil and Gas

The Bureau of Land Management, Eastern States, is pleased to announce that we will offer for competitive sale certain Federal lands in Arkansas (ES-001 thru ES-077), (Louisiana (ES-078 thru ES-083), and Ohio (ES-084 thru ES-098) for oil and gas leasing.

This notice describes—

1. the time and place of the auction,
2. how to register for and participate in the bidding process,
3. the conditions of the auction,
4. how to file a pre-sale noncompetitive offer, and
5. how to file a noncompetitive offer after the auction.

When and where will the auction take place?

- When:** The competitive oral auction will begin at **10:00 a.m. on September 25, 2003**. The sale room will open one hour earlier to allow you to register and get your bidding number.
- Where:** We will hold the auction at the BLM, Eastern States, 7450 Boston Boulevard, Springfield, Virginia 22153. Parking is available at the sale site.
- Access:** The auction room is accessible to persons with disabilities. If you need an auxiliary aid or service to participate in the auction, such as a sign language interpreter or materials in an alternate format, please contact Gina Goodwin at (703) 440-1534 by Sept. 12, 2003.

How do I register as a bidder?

You have to register and get a bidding number to participate in the sale. A Bidder Registration Form is included in this package. We will have copies available at the auction site. We will begin registering bidders at 9:00 a.m. on the day of the sale.

How do I participate in the bidding process?

The auctioneer will offer the parcels on the list attached to this notice in number order. Only registered bidders may make oral bids. All bids are on a per-acre basis for the entire acreage in the parcel. The winning bid will be the highest oral bid equal to or exceeding the minimum acceptable bid. The decision of the auctioneer is final.

The minimum acceptable bid is \$2 per acre or fraction thereof. If the parcel has fractional acreage, round it up to the next whole acre. For example, a parcel of 100.5 acres requires a minimum bid of \$202 (\$2 x 101 acres). After the auctioneer has offered all parcels, you may request that any unsold parcel be re-offered.

What are the terms and conditions of a lease issued as a result of this sale?

6. **Term of the lease:** A lease is issued for a primary term of 10 years. It continues beyond that if it has production in paying quantities. We charge a royalty of 12.5 percent of the value of oil or gas removed or sold from a lease. You will find other lease terms on our standard lease form (Form 3100-11, June 1988 or later editions).

7. **Stipulations:** Some parcels are subject to surface use stipulations. They are requirements or restrictions on how you conduct operations. These stipulations are included in the parcel descriptions on the attached list. They become part of the lease and supercede any inconsistent provisions in the lease form.

What are the terms of the sale?

8. **Withdrawal:** We reserve the right to withdraw any or all parcels from the sale before the auction begins. If we withdraw any parcels, we will post a notice in the Public Room at the Eastern States Office. You may also get the numbers of withdrawn parcels by contacting Gina Goodwin at (703) 440-1534. If we cancel the sale, we will try to notify all interested parties in advance.

9. **Payment:** You cannot withdraw your bid; it is a legally binding commitment to sign the lease bid form; accept the lease; and pay on the day of the auction the bonus bid, the first year's rent, and an administrative fee. The bonus bid is a deposit of at least \$2.00 per acre or fraction thereof. The first year's rent is \$1.50 per acre or fraction thereof. The administrative fee is \$75 per parcel.

You must pay minimum bonus, first year's rental and administrative fee by 4:30 p.m., at the Eastern States accounting office. You may pay the entire amount of your bid on the day of the auction, but if you don't, **you must pay the balance by October 9, 2003**, which is the 10th working day following the auction. If you don't pay in full by this date, you forfeit the right to the lease and all money you have paid us. If you forfeit a parcel, we may offer it for sale at a later auction.

10. Form of payment: You can pay by personal check, certified check, money order, or credit card (VISA, MASTERCARD, AMERICAN EXPRESS, OR DISCOVER). Make a check payable to: **Department of the Interior–BLM**. We don't accept cash. If a check you have sent us in the past has bounced (been returned for insufficient funds), we will require that you give us a guaranteed payment, such as a certified check.

11. Bid form: Successful bidders must submit a signed competitive lease bid form (Form 3000-2, Oct. 1989) with their payment on the day of the auction. This form is a legally binding offer by a prospective lessee to accept a lease and all applicable terms and conditions. We recommend you get the form and complete part of it before the auction, leaving part to be filled out at the auction. Your completed bid form certifies that you are qualified to be a lessee under our regulations at 43 CFR Part 12 and Subpart 3102.5-2. It also certifies that you comply with 18 U.S.C. 1860, a law prohibiting unlawful combinations, intimidation of or collusion among bidders.

12. Issuance of a lease: We (the BLM) will issue your lease within 60 days of the sale date by signing the lease form provided you have paid your fees and rent. The effective date of a lease is the first day of the month following the month in which we sign the lease. We can make it effective the first day of the month in which we sign it, if we receive your written request before we sign the lease.

How do I file a noncompetitive pre-sale offer?

Under our regulations at 43 CFR 3110.1(a), you can file a noncompetitive pre-sale offer for lands that –

13. are available,
14. have not been under lease during the previous one-year period; or
15. have not been included in a competitive lease sale within the previous two-year period.

If no bid is received on them, your pre-sale offer gives you priority over any offer filed after the auction. In the list of parcels attached to this notice, we have used an asterisk to mark any parcel that has a pending pre-sale offer. By filing a pre-sale offer, you are consenting to all terms and conditions of the lease, including any stipulations for listed on the attachment to this notice.

To file a pre-sale offer, you must send us --:

16. a standard lease form (Form 3100-11, June 1988 or later edition), which is properly filled out, as required by the regulations under 43 CFR 3110. (**Note: You must copy both sides of the form on one page. If you copy the form on 2 pages, we will reject your offer. We will also reject offers on obsolete lease forms.**);
17. the first year's advance rent in the amount of \$1.50 per acre or fraction thereof; and
18. a nonrefundable administrative fee in the amount of \$75.

NOTE: You cannot file a pre-sale offer for any lands included in the parcel list attached to this notice.

How do I file a noncompetitive offer after the auction?

You may be able to get a noncompetitive lease for a parcel we offered if –

19. we did not withdraw it from the sale;
20. it did not receive a bid; and
21. it does not have a noncompetitive pre-sale offer pending.

Parcels that meet all these criteria are available on a first-come, first-served basis for two years from the date of the auction. If you want to file a noncompetitive offer for an unsold parcel immediately after the sale or on the next business day, give us the items listed above under pre-sale offers in a sealed envelope marked "Noncompetitive Offer." We will provide drop boxes at the Eastern States accounting office. We consider all noncompetitive offers that we receive on the day of the sale and the first business day after the sale as filed at the same time (simultaneously). Where an unsold parcel receives more than one simultaneous filing, we will hold a public drawing to determine who will get the lease.

Where can I get copies of BLM forms?

Click here for BLM forms: <http://www.nc.blm.gov/blmforms/>.

When is the next sale scheduled?

The next sale is tentatively scheduled for December 11, 2003.

Who should I contact if I have a question?

FUTURE INTEREST PARCELS

The captioned parcels are subject to the following terms and conditions:

Prior to the effective date of the future interest lease, the successful bidder will be required to join any existing Federal unit agreement. Prior to the effective date of the future interest lease, or as soon thereafter as practical, the successful bidder will be required to join any existing private unit agreement. If unable to join, a statement giving satisfactory reasons for the failure to enter into such agreement(s) must be filed with Bruce Dawson, Field Manager, (Jackson Field Office, 411 Briarwood Drive, Suite 404, Jackson, Mississippi, 39206). If such a statement is acceptable, the lessee shall be permitted to operate independently. Where the terms of the private unit agreement are in conflict with Federal regulations, the Federal regulations shall prevail.

Where a parcel is subject to a Federal communitization agreement (CA), the successful bidder will be required to join the Federal CA by joinder prior to the effective date of the lease.

The successful bidder, if not the present operator, is responsible for making a separate agreement with the present operator for compensation for improvements made on the leasehold. The United States will not be a party to, nor be involved in, negotiations for or review of such agreement.

By the effective date of the future interest lease or as soon thereafter as practical, the successful bidder shall furnish the BLM Jackson Field Manager a copy of all approved State of Arkansas permits or other well-related information on all existing wells located on the future interest leased lands. The information includes but is not limited to applications for permit to drill, well completion reports, sundry notices, and site facility diagrams.

On and after the effective date of the future interest lease, all wells located on the future interest leased lands shall be subject to Federal oil and gas regulations, Federal onshore oil and gas orders, and notices to lessees. Applicable Federal regulations include, but are not limited to, the Oil and Gas Operations Regulations at 43 CFR Part 3160 and the Minerals Management Service Regulations concerning Royalty Management 30 CFR Parts 200 through 243.

On and after the effective date of the future interest lease, all wells which share in allocation of production with the future interest lease shall be subject to the Federal oil and gas regulations, Federal onshore oil and gas orders, and notices to lessees as they pertain to production accountability. Applicable regulations are cited above.

Lease operations are expected to be in compliance with all Federal regulations, orders, and notices concerning production accountability on the effective date of the lease. A 90-day grace period will be allowed for compliance with Federal regulations, orders and notices which are not related to production accountability.

For wells producing on the effective date of the lease and on which royalty is due anywhere on the lease site or allocated to a lease site, the lessee/operator shall notify the BLM Jackson Field Manager not later than the fifth business day after the effective date of the lease by letter, sundry notice (Form 3160-5), or orally followed by a letter or sundry notice, of the date on which such production began, which is the date of the lease. For wells not producing on the effective date of the lease, such notification of production is required by no later than the fifth business day after the well begins production (43 CFR 3162.4-1(c)).

On the effective date of the lease, the lessee/operator shall inventory stocks of liquid hydrocarbons on hand and/or install new gas charts. Monthly reports of operations (Form MMS-3160) are required for all operating leases beginning on the effective date of the lease. Reports shall be filed with the Minerals Management Service, Production Accounting Division on or before the 15th business day of the second month following the operations month (43 CFR 3162.4-3).

The successful bidder is advised to contact the BLM Jackson Field Manager at the above address or by telephone (601-977-5400), prior to the effective date of the lease so that a courtesy inspection may be conducted to ensure accountability of Federal production and compliance with Federal regulations, orders, and notices.

BOND INFORMATION: A lease bond (43 CFR Subpart 3104) in the amount of not less than \$10,000 conditioned upon compliance with all terms and conditions of the lease must be furnished prior to entry and commencement of lease operations. If the lease has a producing well and/or ancillary facilities on the effective date of the lease, a bond or evidence of a sufficient existing Federal oil and gas lease bond is required on the effective date of the lease. If the lessee has a Federal Nationwide bond, or a Statewide bond for the State of Arkansas, no additional bond under the provisions of 43 CFR Subpart 3104 will be required.

Stipulation on all Streamside Habitat Protection Zones (SHPZS) on the Forest, varying in width from 50 feet to 150 feet depending on the adjacent management area theme, and to the extent of the Riparian Area Protection Zones (RAPZS) inside Louisiana pearlshell mussel sub-watersheds.
(Revised Land and Resource Management Plan, Forestwide Standards and Guidelines, Chapter 2, paragraph FW-225, page 2-25)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

CONTROLLED SURFACE USE STIPULATION No. 1B

Surface occupancy or use is subject to the following operation constraints.

Roads and clearing of right-of-way of vegetation may occur if a site-specific environmental analysis determines that the mitigated environment effects would not be significant.

T11N, R4W – Louisiana Meridian (Acquired)

- Section 6 – 1.5 acres
- Section 9 – 10.0 acres
- Section 10 – 0.2 acres
- Section 23 – 9.4 acres
- Section 26 – 13.0 acres

Total - 34.1 acres

For the purpose of:

Riparian Zones

Stipulation on all Streamside Habitat Protection Zones (SHPZS) on the Forest, varying in width from 50 feet to 150 feet depending on the adjacent management area theme, and to the extent of the Riparian Area Protection Zones (RAPZS) inside Louisiana pearlshell mussel sub-watersheds.
(Revised Land and Resource Management Plan, Forestwide Standards and Guidelines, Chapter 2, paragraph FW-225, page 2-25)

KISATCHIE N.F.

NO SURFACE OCCUPANCY STIPULATION

No surface occupancy or use is allowed on the lands described below.

T11N, R4W – Louisiana Meridian (Acquired)

Section 18 – 44.6 acres

Total – 44.6 acres

For the purpose of:

Jurisdictional Wetland and Kieffer Prairie RNA

No surface occupancy (NSO) stipulation on all administrative sites, Research Natural Areas (RNAs), State Registry Natural Areas, Special Interest Areas, the Johnson Tract experiment forest, the Air Force Bombing and Gunnery Range, the Breezy Hill No-Entry Area, scenic areas, within 600 feet of the Saline Bayou National Scenic River, cultural resource sites, the Stuart Seed Orchard, jurisdictional wetlands, and developed recreation areas. (Revised Land and Resource Management Plan, Forestwide Standards and Guidelines, Chapter 2, paragraph FW-224, page 2-24)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

LEASE NOTICE No. 3 – Kisatchie N.F. (LA)

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's list of sensitive plant and animal species. Further information concerning the classification of these species may be obtained from the authorized Forest officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

All available land in T11N, R4W, Louisiana Meridian.

**STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM
UNDER THE JURISDICTION OF DEPARTMENT OF AGRICULTURE**

The lessee/permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the license/prospecting permit/lease. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area licensed, permitted or leased by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operating plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

BLM NO SURFACE OR SUBSURFACE OCCUPANCY STIPULATION

This parcel was nominated for leasing on the premise that development of the State spacing would occur so that any well drilled or associated surface use would not be located on the Federal lands described below. Such a nomination is referred to by the Bureau of Land Management as a “NOL” nomination; i.e., a “no occupancy lease” nomination. With such a NOL nomination to consider, the Bureau of Land Management prepares its environmental assessment (EA) based on a Proposed Action of “no occupancy (surface or subsurface)”.

Therefore, for the lands within this lease, “No Occupancy (surface or sub-surface)” is allowed under the terms of this lease.

Waiver: None

Exception: None.

Modification: None.

This lease does not obviate the need to obtain other Federal, State or local authorization required by law for any wells drilled or for any related surface disturbance that is proposed on lands pooled with those lands within this lease.

Wayne National Forest (OH)

Maps of Wayne N.F. parcels will be available at the sale site. If you would like to receive these maps prior to the sale date, please contact Gina Goodwin at (703) 440-1534.

All parcels offered under the jurisdiction of the Wayne N.F. are subject to the following lease notice:

BLM LEASE NOTICE

1. The lease tract may contain an abandoned oil and gas well(s). Detailed well information and legal ownership of this well(s) either has not been researched or is not known at this time. All past leases associated with this well(s) and the lease tract are believed to have expired. No right, title, or interest in any such well(s) is conferred by this Federal lease. If the Federal lessee wishes to obtain any rights to the well(s) and produce the same under the terms of the Federal lease and Federal oil and gas operating regulations, he/she shall independently take appropriate measures to assure his/her legal interest in the well(s). Any such well(s) reworked and/or placed into production by the Federal lessee shall then be considered by the Bureau of Land Management as being the responsibility of the Federal lessee and subject to the terms of the Federal lease.
2. The Federal Government does not record Federal leases in the lease records of local counties. Any local recording of Federal leases is the responsibility of the Federal lessee.

Oil and Gas Lease Stipulations/Notifications
Wayne National Forest
Ohio

The notifications and stipulations that follow implement the Revised Environmental Assessment 2002-2 Consent to Lease National Forest System Lands for Oil and Gas Exploration and Development Decision (July 15, 2002), the Wayne National Forest Land and Resource Management Plan (1988), and the Wayne NF Forest Plan Amendment #8 (1992).

Special Notification #1

Operations under this lease will be consistent with the standards and guidelines found in the Wayne National Forest Land and Resources Management Plan (1988) (Forest Plan), as amended, and are hereby incorporated into this lease in its entirety. Forest Plan standards and guidelines include restrictions on location, timing and methodology of oil and gas lease operations, and requirements for special surveys that provide for protection of National Forest land and resources. A copy of the Wayne National Forest Land and Resource Management Plan is available for inspection from the following website <http://www.fs.fed.us/r9/wayne/> or by writing to:

Forest Supervisor
Wayne National Forest
13700 US HWY 33
Nelsonville, OH 45764

No Surface Occupancy Stipulation #2

No surface occupancy within 100 feet of cliff faces or rock shelters to protect habitat for northern monkhood, as well as, other locally sensitive species.

No Surface Occupancy Stipulation #3

No surface occupancy within riparian areas, including those associated with ponds, lakes, wetlands, ephemeral, intermittent, and perennial streams. The width of the riparian area is delineated by the greater of these two variables: (1) the extent of the 50-year floodplain from the edge of the aquatic ecosystem; or (2) the length of a mature site-potential tree from the edge of the aquatic ecosystem (100 feet). (Follow filterstrip guidance on Forest Plan pages 4-31 to 4-35 to determine width of filterstrip to use for protection of riparian area – this distance should start at the edge of the riparian area, not the stream channel).

No Surface Occupancy Stipulation #4

No surface occupancy in forest openings.

No Surface Occupancy Stipulation #5

No surface occupancy on slopes in excess of 55% to protect soil and water from erosion and mass failure hazards because of steep slopes.

Special Stipulation #6

No cutting of snags (dead trees) at all, and no cutting of shagbark and shellbark hickories, and trees that are hollow, have major splits or broken tops, except during the bat hibernation season (September 15 to April 15). Such trees which are safety hazards may be cut anytime, but if cut in the nonhibernation season the Forest Service must be notified in advance and a tally kept to ensure the total number on the Wayne does not exceed 125 trees before September 2006. All of this stipulation applies only to trees over six inches in diameter.”

Special Stipulation #7

At the site-specific step of the leasing process, a Forest Service biologist shall determine the need for any timing-related stipulation for vegetation removal during the cerulean warbler breeding season (generally April through July)

Special Stipulation #8

Oil and gas activities will be subject to occupancy restriction on ridgetops where Olympia marbles could possibly occur.

Special Stipulation #9

Oil and gas activities will be allowed on tracts with rock outcrops where timber rattlesnakes could possibly occur, on a case-by-case basis and with appropriate mitigation measures.

Special Stipulation #10

Protect all supercanopy trees or other identified congregation roost trees for bald eagles along major river corridors.

Special Stipulation #11

New road construction and maintenance shall be planned so that the least amount of ground disturbance is involved.

Special Stipulation #12

Oil and gas activities will be allowed on slopes between 35%-55% on a case-by-case basis, with appropriate mitigation.

Special Stipulation #13

The lease holder and Forest Service inspector shall work together to identify locations for development and production facilities in order to protect the structural integrity of potential old growth found on a portion of the tract.

WAYNE NATIONAL FOREST

**STANDARD STIPULATIONS
(FSM 2820)**

The lessee is notified and agrees:

All work and any operations authorized under this lease shall be done according to an approved operating plan on file with District Ranger.

Plans generally require a minimum of 45 days for Forest Service review. Bureau of Land Management must also review and also approve.

Operating plan will contain information Forest Officer determines reasonable for assessment of (1) public safety, (2) environmental damage, and (3) protection for surface resources. Content of such plans will vary according to location and type of activity and may contain:

1. Steps taken to provide public safety.
2. Location and extent of areas to be occupied during operations.
3. Operation methods including size and type of equipment.
4. Capacity, character, standards of construction and size of all structures and facilities to be built.
5. Locations and size of areas where vegetation will be destroyed or soil laid bare.
6. Steps taken to prevent and control soil erosion.
7. Steps taken to prevent water pollution.
8. Character, amount, and time of use of explosives or fire, including safety precautions during their use.
9. Program proposed for rehabilitation and revegetation of disturbed land.

Copies of all permits obtained from State or Federal agencies pertaining to work might be required. Archeological studies, if required, will accompany plan.

The Forest Supervisor or his/her designated agent has authority to temporarily suspend or modify operations in whole or in part due to emergency forest conditions such as high fire danger or other unsafe situations.

The lessee must keep District Ranger informed about progress of operations to the extent reasonably necessary for assuring public safety. This notification is especially important with geophysical inventory and testing activities because of their mobile nature. District Ranger will alert lessee to circumstances that may affect safe and efficient conduct of work activities. Terms of this lease are considered violated if not done according to these stipulations.
