

# Notice of Competitive Oil and Gas Lease Sale

---

Bureau of Land Management-Eastern States Office

**June 16, 2011**

United States Department of the Interior  
Bureau of Land Management  
Eastern States  
7450 Boston Boulevard  
Springfield, Virginia 22153  
<http://www.es.blm.gov>

**March 18, 2011**

## **NOTICE OF COMPETITIVE LEASE SALE OIL AND GAS**

In accordance with Federal Regulations 43 CFR Part 3120, the Eastern States Office is offering competitively **227** parcels containing **138,781.89** acres of Federal lands in *Alabama (40.00 acres)*, *Arkansas (1,788.65 acres)*, *Louisiana (22,503.20 acres)*, and *Mississippi (114,450.04 acres)* for oil and gas leasing.

This notice provides:

- the time and place of the sale;
- how to register and participate in the bidding process;
- the sale process;
- the conditions of the sale;
- how to file a noncompetitive offer after the sale;
- how to file a presale noncompetitive offer; and
- how to file a protest to our offering the lands in this Notice.

Beginning on page 11, is a list of the lands we are offering. The lands are listed by state and described by parcel number and legal land description. Below each parcel we have included any stipulations, lease notices, special conditions, or restrictions that will be made a part of the lease at the time we issue it. We have also identified those parcels where the United States owns less than 100 percent interest in the oil and gas mineral rights; and those that have pending pre-sale noncompetitive offers to lease which will not be available for noncompetitive offers to lease if they receive no bid at the sale. For your convenience, we are also including copies of the stipulations, lease notices, etc. affecting the parcels in this sale notice.

### **When and where will the sale take place?**

- When:** The competitive oral auction will begin at **10:00 a.m. on June 16, 2011**. The sale room will open at 9:00 a.m. to allow you to register and obtain your bid number.
- Where:** The sale will be held at the Bureau of Land Management, Eastern States Office, 7450 Boston Boulevard, Springfield, VA 22153. Parking is available.
- Access:** The sale room is accessible to persons with disabilities. If assistance is needed for the hearing or visually impaired, contact the Minerals Adjudication Team on (703) 440-1600, or at the mailing address on the letterhead of this notice by **May 16, 2011**.

Information regarding leasing of Federal minerals overlain with private surface, referred to as “Split Estate”, is available at the following Washington Office website. A Split Estate brochure is available at this site. The brochure outlines the rights, responsibilities, and opportunities of private surface owners and oil and gas operators in the planning, lease sale, permitting/development, and operations/production phases of the oil and gas program: [http://www.blm.gov/bmp/Split\\_Estate.htm](http://www.blm.gov/bmp/Split_Estate.htm).

### **What is the sale process?**

Starting at 10:00 a.m. on the day of the sale:

1. the auctioneer will offer the parcels in the order they are shown in the notice;
  2. all bids are on a per-acre basis, rounded up to whole acres, for the entire acreage in the parcel;
- the winning bid is the highest oral bid equal to or exceeding the minimum acceptable bid; and
  - the decision of the auctioneer is final.

### **How do I participate in the bidding process?**

To participate in the Bureau of Land Management (BLM) bidding process, you must register and obtain a bidder number. If you are bidding for more than one party, you must register and obtain a separate bidder number for each company or individual you represent. The BLM will begin registering bidders at 9:00 a.m. on the day of the sale.

When you register to bid, you will be required to show a valid government-issued photo identification (ID) to verify your identity. If you do not provide a valid photo ID, you will not be allowed to register as a bidder and participate in the auction.

You will also be asked to sign a statement to confirm that any bid you cast will represent a good-faith intention to acquire an oil and gas lease and that you understand that any winning bid will constitute a legally binding commitment to accept the lease and pay monies owed. Further, you will acknowledge that you understand that it is a crime under 18 U.S.C. 1001 and 43 U.S.C. 1212 to knowingly and willfully make any false, fictitious, or fraudulent statements or representations regarding your qualifications; bidder registration and intent to bid; acceptance of a lease; or payment of monies owed; and that any such offense may result in a fine or imprisonment for not more than 5 years or both. You will also acknowledge that you understand that it is a crime under 30 U.S.C. 195 (a) and (b) to organize or participate in any scheme to defeat provisions of the mineral leasing regulations. Any person who knowingly violates this provision will be punished by a fine of not more than \$500,000, imprisonment for not more than 5 years, or both.

If you, or the party you represent, owe the United States any monies that were due the day of a previous oil and gas lease auction conducted by any BLM office (the minimum monies owed the

day of sale), you will not be allowed to register to bid at this lease sale. The Mineral Leasing Act requires that leases be issued to a “responsible qualified bidder” (30 U.S.C. 226(b)(1)(A)). Any bidder, or party represented by a bidding agent, that does not pay the minimum monies owed the day of the sale is not a “responsible qualified bidder” and will be barred from participating in any oil and gas lease auction nationwide until that debt to the United States is settled. In addition, if you or the party you represent defaults at any three sales conducted by any BLM office, you or the party you represent will be barred permanently from participating in any other BLM oil and gas lease sale auction.

**Federal acreage limitations:** Qualified individuals, associations, or corporations may only participate in a competitive lease sale and purchase Federal oil and gas leases from this office if such purchase will not result in exceeding the State limit of **246,080** acres of public domain lands and **246,080** acres of acquired lands (30 U.S.C. 184(d)). For the purpose of chargeable acreage limitations, you are charged with your proportionate share of the lease acreage holdings of partnerships or corporations in which you own an interest greater than 10 percent.

Lease acreage committed to a unit agreement or development contract that you hold, own or control is excluded from chargeability for acreage limitation purposes.

The acreage limitations and certification requirements apply for competitive oil and gas lease sales, noncompetitive lease offers, transfer of interest by assignment of record title or operating rights, and options to acquire interest in leases regardless of whether an individual, association, or corporation has received, under 43 CFR 3101.2-4, additional time to divest excess acreage acquired through merger or acquisition.

### **What conditions apply to the lease sale?**

- **Parcel withdrawal or sale cancellation:** We reserve the right to withdraw any or all parcels before the sale begins. If we withdraw a parcel, we will post a notice in Eastern States’ Public Room and on our website at [http://www.blm.gov/es/st/en/prog/minerals/current\\_sales\\_and.html](http://www.blm.gov/es/st/en/prog/minerals/current_sales_and.html) . You may also get the number(s) of withdrawn parcels by contacting the Minerals Adjudication Team on (703) 440-1600. If there’s a need to cancel the sale, we will try to notify all interested parties in advance.

### **Inclement Weather**

In the event of hazardous weather, please tune in to local television or radio stations. Weather related or regional information may also be accessed via the Internet at [www.opm.gov](http://www.opm.gov). If there is a broadcast for Federal employees, BLM’s hours of operation will be affected.

The procedure for Oil and Gas Lease Sales scheduled on a business day with a 2-hour delay or if the office is closed for business, the BLM will proceed as follows:

1. In the event of a 2-hour delay, the doors to the BLM, Eastern States Office will remain locked until 10:00 a.m. The Oil and Gas Lease Sale will begin at 11:30

a.m. with registration starting at 10:00 a.m., please call for the recorded information on delays at (703) 440-1777.

2. In the event that the BLM office is closed for business on the day of an Oil and Gas Lease Sale, the Sale will be cancelled and rescheduled at a later date. Please call for recorded information on closures at (703) 440-1777.

Every effort will be made to post the information on delays or closed for business on the main entrance exterior doors of the building.

Your safety and the safety of our BLM employees is our major concern.

- **Payment due on the day of the sale:** Payment is due on the day of the sale. You cannot withdraw a bid. For each parcel you win, you must pay the minimum bonus bid of \$2 per acre or fraction of an acre, the first year's advance rental of \$1.50 per acre or fraction of an acre, and a non-refundable administrative fee of \$145. You must pay these monies by 4:30 p.m. June 16, 2011 at the sale site or by 4:30 p.m., **June 30, 2011**.

The minimum monies owed on the day of the sale for a winning bid are monies owed to the United States (43 CFR 3120.5-2(b) and 43 CFR 3120.5-3(a)). If payment of the minimum monies owed the day of the sale is not received by the date and time above, the BLM will issue a bill for the monies owed. If payment is not received by the bill due date, a demand letter will be sent to you that will include additional fees. If payment is not received as requested by the demand letter, the U.S. will immediately pursue collection by all appropriate methods, and when appropriate, collect late fees, interest, administrative charges, and on past-due amounts assess civil penalties. "All appropriate methods" include, but are not limited to, referral to collection agencies and credit reporting bureaus; salary or administrative offset; offset of Federal and state payments, including goods or services; Federal and state tax refund offset; and retirement payment offset. Debts may be sent to the Internal Revenue Service and charged as income to you on Form 1099C, Cancellation of Debt (Federal Claims Collection Act of 1966, as amended; The Debt Collection Improvement Act of 1996; 31 CFR part 285).

- **Forms of payment:** You can pay by personal check, certified check, money order, or credit card (*Visa, MasterCard, American Express, and Discover cards only*). Cash is unacceptable. If you plan to make your payment using a credit card, you should contact your bank prior to the sale and let them know you will be making a substantial charge against your account. If you pay by check, please make checks payable to: **Department of the Interior - BLM**. If a check you have sent to us in the past has been returned for "*insufficient funds*" we will require that you give us a guaranteed payment, such as a certified check.

**Effective February 1, 2005, BLM will not accept credit card or debit card payments to the Bureau for any amount equal to or greater than \$100,000 for any purpose.**

**We also will not accept aggregate smaller amounts to bypass this requirement. We encourage you to make any payments of \$100,000 or more by Automated Clearing House (ACH).**

**How do I calculate my bonus bid for parcels where the U. S. only owns a fractional mineral interest?**

If the United States owns less than 100 percent of the oil and gas rights in a parcel, the parcel will reflect the percentage of interest the United States owns. You must calculate your bonus bid and advance rental payment on the **gross acreage in the parcel**. For example, if the U.S. owns 50 percent of the oil and gas in a 100.48 acre parcel, the minimum bid is \$202 (101 acres x \$2) and the advance rental due is \$151.50 (101 acres x \$1.50).

**What are the terms and conditions of a lease issued as a result of this sale?**

- **Term of the lease:** A lease is issued for a primary term of 10 years. It continues beyond that if it has production in paying quantities. Advance rental at \$1.50 per acre or fraction of an acre for the first 5 years (\$2.00 per acre after that) is due on or before the anniversary date each year until production begins. We charge a royalty of 12.5 percent of the value of oil or gas removed or sold from a lease. You will find other lease terms on our standard lease form (Form 3100-11, October 2008).
- **Stipulations:** Some parcels are subject to surface use stipulations. They are requirements or restrictions on how you conduct operations. These stipulations are included in the parcel descriptions on the attached list. They become part of the lease and supersede any inconsistent provisions in the lease form.
- **Bid Form:** Successful bidders must submit a signed competitive lease bid form (Form 3000-2, August 2007) with their payment on the day of the auction. This form is a legally binding offer by a prospective lessee to accept a lease and all applicable terms and conditions. We recommend you get the form and complete part of it before the auction, leaving part to be filled out at the auction. Your completed bid form certifies that you are qualified to be a lessee under our regulations at 43 CFR Part 12 and Subpart 3102.5-2. It also certifies that you comply with 18 U.S.C. 1860, a law prohibiting unlawful combinations, intimidation of or collusion among bidders. Fillable bid forms are available online at: [http://www.blm.gov/es/st/en/prog/minerals/frequently\\_used\\_oil.html](http://www.blm.gov/es/st/en/prog/minerals/frequently_used_oil.html)
- **Issuance of a lease:** We (the BLM) will issue your lease within 60 days of the sale date by signing the lease form provided you have paid your fees and rental. The effective date of a lease is the first day of the month following the month in which we sign the lease. We can make it effective the first day of the month in which we sign it, if we receive your written request before we sign the lease.

**How do I file a noncompetitive over-the-counter offer after the auction?**

You may be able to get a noncompetitive lease for a parcel we offered if –

- we did not withdraw it from the sale;
- it did not receive a bid; and
- it does not have a noncompetitive pre-sale offer pending.

Parcels that meet all these criteria are available on a first-come, first-served basis for two years from the date of the auction. If you want to file a noncompetitive offer for unsold parcel immediately after the sale or on the next business day, give us the items listed below under presale offers in a sealed envelope marked “Noncompetitive Offer.” We consider all noncompetitive offers that we receive on the day of the sale and the first business day after the sale as filed at the same time (simultaneously). Where an unsold parcel receives more than one simultaneous filing, we will hold a public drawing in our Public Room to determine first priority.

### **How do I file a noncompetitive “pre-sale” offer?**

Per Federal Regulations 43 CFR 3110.1(a), you can file a noncompetitive pre-sale offer for lands that –

- are available,
- have not been under lease during the previous one-year period; or
- have not been included in a competitive lease sale within the previous two-year period.

If no bid is received on them, your pre-sale offer gives you priority over any offer filed after the auction. In the list of parcels attached to this notice, we have used an asterisk to mark any parcel that has a pending pre-sale offer. By filing a pre-sale offer, you are consenting to all terms and conditions of the lease, including any stipulations for listed on the attachment to this notice.

To file a —pre-sale offer, you must send us --:

- A standard lease form (Form 3100-11, October 2008), which is properly filled out, as required by the regulations under 43 CFR 3110;
- the first year’s advance rent in the amount of Rental \$1.50 per acre or fraction thereof; and
- a non-refundable administrative fee in the amount of \$375.00.

**NOTE: *You cannot file a “pre-sale” offer for any of the lands included in this Notice.***

### **Can I protest BLM’s decision to offer the lands in this Notice for lease?**

**Yes.** Under Federal Regulations 43 CFR 3120.1-3, you may protest the inclusion of a parcel listed in this sale notice. All protests must meet the following requirements:

- Protests must be filed within **30 calendar days of the posting date of the sale.** We must receive a protest no later than close of business on **April 18, 2011.** The protest must also include any statement of reasons to support the protest. We will dismiss a late-filed protest or a protest filed without a statement of reasons.
- A protest must state the interest of the protesting party in the matter.

- You may file a protest either by mail in hardcopy form or by fax. You may not file a protest by electronic mail. A protest filed by fax must be sent to (703) 440-1551. A protest sent to a fax number other than the fax number identified or a protest filed by electronic mail will be dismissed;
- If the party signing the protest is doing so on behalf of an association, partnership or corporation, the signing party must reveal the relationship between them. For example, unless an environmental group authorizes an individual member of its group to act for it, the individual cannot make a protest in the group's name.

**If BLM receives a timely protest of a parcel advertised on this Sale Notice, how does it affect bidding on the parcel?**

We will announce receipt of any protests at the beginning of the sale. We will also announce a decision to either withdraw the parcel or proceed with offering it at the sale.

**If I am the high bidder at the sale for a protested parcel, when will BLM issue my lease?**

We will make every effort to decide the protest within 60 days after the sale. We will issue no lease for a protested parcel until the State Director makes a decision on the protest. If the State Director denies the protest, we will issue your lease concurrently with that decision.

**If I am the successful bidder of a protested parcel, may I withdraw my bid and receive a refund of my first year's rental and bonus bid?**

**No.** In accordance with Federal Regulations (43 CFR 3120.5-3) you may not withdraw your bid.

**If BLM upholds the protest, how does that affect my competitive bid?**

If we uphold a protest and withdraw the parcel from leasing, we will refund your first year's rental, bonus bid and administrative fee. If the decision upholding the protest results in additional stipulations, we will offer you an opportunity to accept or reject the lease with the additional stipulations prior to lease issuance. If you do not accept the additional stipulations, we will reject your bid and we will refund your first year's rental, bonus bid and administrative fee.

**If BLM's decision to uphold the protest results in additional stipulations, may I appeal that decision?**

**Yes.** An appeal from the State Director's decision must meet the requirements of Title 43 CFR §4.411 and Part 1840.

**Can I appeal BLM's decision to deny my protest?**

**Yes.** An appeal from the State Director's decision must meet the requirements of Title 43 CFR §4.411 and Part 1840.

**Can I withdraw my bid if the protestor files an appeal?**

**No.** If the protestor appeals our decision to deny the protest, you may not withdraw your bid. We will issue your lease concurrently with the decision to deny the protest. If resolution of the appeal results in lease cancellation, we will authorize refunds of the bonus bid, rental and administrative fee, if—

- There is no evidence that the lessee(s) derived any benefit from possession of the lease during the time they held it, and;
- There is no indication of bad faith or other reasons not to refund the rental, bonus bid and administrative fee.

**Where can I get copies of the BLM forms mentioned in the Notice?**

Form 3100-11 (October 2008), Offer to Lease and Lease for Oil and Gas, and Form 3000-2 (August 2007), Competitive Oil and Gas or Geothermal Resources Lease Bid may be downloaded from the following Forms Central web address: <http://www.blm.gov/blmforms/>.

**When is BLM-ES' next competitive sale date?**

The next sale is *tentatively* scheduled for *September 15, 2011*. We will notify the public in advance should this date change.

**Who should I contact if I have questions regarding this lease sale?**

For more information, please contact Kemba K. Anderson-Artis, Supervisory Land Law Examiner on (703) 440-1659 or the Information Access Center on (703) 440-1600.

**Enhanced Bidder Registration Form**  
Bidder Registration Form  
Competitive Oil and Gas Lease Sale

By completing this form, I certify that the undersigned, or the principal party whom the undersigned is acting on behalf of, is in compliance with the applicable regulations and leasing authorities governing a bid and subsequent lease. I certify that any bid submitted by the undersigned or on behalf of the principal party is a good faith statement of intention by the undersigned or the principal party to acquire an oil and gas lease on the offered lands. Further, I acknowledge that if a bid is declared the high bid, it will constitute a legally binding commitment to execute the Bureau of Land Management's Form 3000-2, Competitive Oil and Gas or Geothermal Resources Lease Bid, and to accept the lease.

In addition, if a bid is declared the high bid, the undersigned or the principal party will pay to the Bureau of Land Management (BLM) by the close of official business hours on the day of the auction, or such other time as may be specified by the authorized officer, an amount at least equal to the minimum monies owed the day of sale for that bid, as set out in applicable regulations. The undersigned and the principal party acknowledge that these monies are due to the Bureau of Land Management as a result of winning the auction. Further, the undersigned and the principal party understand that if payment is not received by the due date, the BLM will issue a bill for monies owed, and if payment is not received, the United States will pursue collection by all appropriate methods, and as appropriate, will assess late fees, civil penalties, interest, administrative charges, and penalties on past due amounts (Federal Claims Collection Act of 1966, as amended; The Debt Collection Improvement Act of 1996; 31 CFR part 285).

I certify that neither I nor the principal party whom I represent owes the United States any monies that were due the day of sale from any oil and gas lease auction conducted by any Bureau of Land Management office.

It is a crime under 18 U.S.C. 1001 and 43 U.S.C. 1212 for any person to knowingly and willfully make any false, fictitious, or fraudulent statements or representations as to any matter within the jurisdiction of the government. Any such offense may result in a fine or imprisonment for not more than 5 years, or both.

It is a crime under 30 U.S.C. 195 (a) and (b) to organize or participate in any scheme to defeat provisions of the mineral leasing regulations or for any person to obtain money or property by means of false statements regarding a person's ability to obtain a lease. Any person who knowingly violates this provision shall be punished by a fine of not more than \$500,000, imprisonment for not more than 5 years, or both.

**A separate registration is required for each company or individual you are representing.**

Please fill in the company/individual name and address as it would appear on any issued lease. We will send a copy of the lease and billing notices to the name and address as shown below. (NOTE: Please use the same lessee name and address information on BLM Form 3000-2.)

Stipulation 1

## *Lease Stipulations*

**The following stipulations apply to all EOIs available on the June 2011 sale (AL – 1012, AR – 704, 724, 948, 1020, 1023, LA – 838, 967, 1078, 1085, MS – 1077)**

### **Cultural Resources and Tribal Consultation**

**Stipulation:** This lease may be found to contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, E.O. 13007, or other statutes and executive orders. The BLM will not approve any ground disturbing activities that may affect any such properties or resources until it completes its obligations under applicable requirements of the NHPA and other authorities. These obligations may include a requirement that you provide a cultural resources survey conducted by a professional archaeologist approved by the State Historic Preservation Office (SHPO). If currently unknown burial sites are discovered during development activities associated with this lease, these activities must cease immediately, applicable law on unknown burials will be followed and, if necessary, consultation with the appropriate tribe/group of federally recognized Native Americans will take place. The BLM may require modification to exploration or development proposals to protect such properties, or disapprove any activity that is likely to result in adverse effects that cannot be successfully avoided, minimized or mitigated.

### **Endangered Species**

**Stipulation:** The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. ‘ 1531 et seq., including completion of any required procedure for conference or consultation.

**Exception:** None

**Modification:** None

**Waiver:** None

### **Sensitive Plant Species**

**Stipulation (CSU):** All suitable special status plant species habitat will be identified during environmental review of any proposed surface use activity. If field examination indicates that habitat of one or more of these species is present, the BLM will require a survey by a qualified botanist for special status plants during periods appropriate to each species. Operations will not be allowed in areas where sensitive plants would be affected.

**Objective:** To protect threatened, endangered, candidate, proposed, and BLM sensitive plant species.

**Exception:** An exception may be granted if the operator agrees to implement measures developed in consultation with USFWS and in coordination with State agencies.

**Modification:** The stipulation may be modified if it is determined that a portion of the lease area does not contain sensitive plant species habitat.

**Waiver:** The stipulation may be waived if, based on field surveys, it is determined that the lease area does not contain sensitive plant species habitat.

### **Freshwater Aquatic Habitat**

**(Note for EOI #1012 and 838, Sec. 18 NW – this entire parcel will be NSO due to the fact that all of it is within a wetland area and contains ephemeral and intermittent streams throughout).**

**Stipulation (NSO):** No surface occupancy or disturbance, including discharges, are permitted within 250 feet of a river, stream, wetland spring, headwater, wet meadow, wet pine savanna, pond, tributary, lake, coastal slough, sand bar, vernal pools, calcareous seepage marsh, or small, marshy calcareous stream. If the slope exceeds 10 percent, the buffer may be extended to 600 feet to provide adequate protection for aquatic habitats and associated species.

**Objective:** To protect the water quality of watersheds and natural stream substrate and morphology and to avoid potential impacts to aquatic species and their habitat.

**Exception:** An exception may be granted if the operator agrees to 1) span creeks, rivers, wetlands, and floodplains by attaching pipelines to bridges; 2) directionally drill wells and pipelines from upland sites under creeks, rivers, other waters, and wetlands or 3) implement other measures developed in consultation with USFWS and in coordination with State agencies.

**Modification:** The buffer may be reduced if the adjacent waterway has been surveyed for 100 yards upstream and 300 yards downstream of the site, and the results document the lack of suitable/occupied/critical habitat for listed species which may be affected by the project, as determined by the BLM and USFWS.

**Waiver:** None

**The following stipulation regarding the American Burying Beetle applies to EOI #704 and #724:**

**American Burying Beetle – Split Estate**

**Stipulation (CSU):** American Burying Beetle for Split-estate and U.S. Army Corps of Engineer surface in Crawford, Franklin, Little River, Johnson, Logan, Montgomery, Polk, Sebastian, Sevier, and Scott, and Yell counties, Arkansas. (Note: ABB protocols must reflect the most current version)

1. If the project entails more than three acres of disturbance, the applicant will be required to conduct a trap and release program for American burying beetle utilizing accepted protocols outlined in the reasonable and prudent measures in the programmatic biological opinion written by the U.S. Fish and Wildlife Service, Conway Ecological Services Office and dated December 19, 2006. This trap and release program must be conducted by a U.S. Fish and Wildlife Service permitted section 10 biologist during the beetle's active season, between May 20 and September 20.
2. Release sites require U.S. Fish and Wildlife Service and landowner approval prior to conducting the trap and release program.
3. Only those pesticides or herbicides approved for use in ABB areas will be authorized for use by the lessee. No electric insect killers will be used by the lessee.

**Modification:** The disturbance threshold maybe increased to 5 acres if the site is more than five miles from Ft. Chaffee, Cherokee and H.E. Flanagan Natural Areas, and the National Forests in Arkansas.

**Exception:** There may be an exception made for this stipulation for individual projects located in habitats not considered suitable for ABB, including sites with any of the following characteristics:

- a. Soil that is greater than 70 percent sand.
- b. Soil that is greater than 70 percent clay.
- c. Land where greater than 80 percent of the soil surface is comprised of rock.
- d. Land where greater than 80 percent of the subsurface soil structure within the topfour inches is comprised of rock.
- e. Land that has already been developed and no longer exhibits topsoil or leaf litter.
- f. Land that is tilled on at least an annual basis.
- g. Land that meets the U.S. Army Corps of Engineers definition of wetland. (However, projects developed in this type of habitat will need to be reviewed by the Corps to ensure compliance with section 404 of the Clean Water Act.
- h. Pine plantations planned for mechanical treatment where stocking density is 750 ormore trees per acre (little sunlight to forest floor).
- i. Shortleaf pine or shortleaf pine – hardwood forest stands with 110 square feet per acre or greater overstory basal area and more than 700 stems per acre occupying midstory or understory positions.

**Waiver:** None

**The following Lease Notices/Best Management Practices apply to all EOIs available on the June 2011 sale**

**Lease Notices/Best Management Practices**

**Disposal of Produced Water**

**Objective:** To protect aquatic habitats for and to avoid potential impacts to special status fish, mussels, turtles, snails, plants, and migratory birds.

The preferred method for disposal of produced water will be through reinjection to a permeable formation with total dissolved solids (TDS) content higher than 10,000 milligrams per liter (mg/L) where the aquifer is not hydrologically connected to caves, wetlands, or surface water. In Alabama, the injection of produced water is regulated by the Alabama State Oil and Gas Board. In Mississippi, the injection of produced water is regulated by the Mississippi Department of Environmental Quality (MDEQ) and the Mississippi Oil and Gas Board.

If reinjection is not practicable, closed-containment treatment systems should be used to contain and treat produced water for those contaminants and sediments exceeding State standards or EPA criteria. Salt content of any surface ponds for produced water, pigging pits, or other fluids must be less than 7,500 microsiemens per centimeter ( $\mu\text{S}/\text{cm}$ ). If surface pond salt content is greater than 7,500  $\mu\text{S}/\text{cm}$ , if other bird toxicity is present, or if the surface exhibits sheen, then the ponds must be netted or covered with floating balls, or other methods must be used to exclude migratory birds.

Produced waters may be released into an impounded reservoir if there is documentation that the discharge site and affected waters do not support special status species, are not designated critical habitat, and State and Federal water quality standards/criteria are met.

Produced waters may be released into a stream/river if the discharge site and affected waters have been recently surveyed and lack special status species, or if the applicant conducts approved surveys documenting the absence of special status species, State and Federal water quality standards/criteria are met, and a National Pollution Discharge Elimination System (NPDES) permit is obtained. The applicant should be aware that some species can be surveyed only during certain times of the year.

Produced waters may be released into a stream/river if the applicant can document that the produced waters would not adversely affect special status species. Water quality tests would be conducted on stream segment(s) or other locations proposed as discharge points, volumes to be released, and any settling ponds or other treatments proposed to improve wastewater quality. The water quality test data, any monitoring proposed, and other available information about general coalbed methane effluent characteristics (from published or unpublished literature) shall be reviewed by USFWS. Information about timing of the releases in relation to low water and other planned BMPs would also be required. Testing would include analysis of the discharge site and affected waters for chemical oxygen demand (COD), conductivity, total suspended solids (TSS),

As, Hg, Se, and polycyclic aromatic hydrocarbons (PAH). Dissolved oxygen and ammonia standards/criteria must be met in bottom waters if they support listed benthic or epibenthic species. If a special status species has been documented to be more sensitive than State/Federal standards/criteria, site-specific standards for that species may be imposed. Calculations would be based on State standards (or Federal CCC criteria for protection of freshwater aquatic life when the State has not determined a standard for these parameters).

### **Migratory Birds and Federally Listed Wildlife**

**Objective:** To protect perch and roosting sites and terrestrial habitats for and to avoid potential impacts to migratory birds and federally listed wildlife.

Any reserve pit that is not closed within 10 days after a well is completed and that contains water must be netted or covered with floating balls, or another method must be used to exclude migratory birds.

Maximum design speed on all operator-constructed and maintained (non-public) roads shall not exceed 25 miles per hour to minimize the chance of a collision with migratory birds or other listed wildlife species.

All powerlines must be built to protect raptors and other migratory birds, including bald eagles, from accidental electrocution, using methods detailed by the Avian Power Line Interaction Committee (APLIC 2006)

### **Perching and Nesting Birds and Bats**

**Objective:** To prevent birds and bats from entering or nesting in or on open vent stack equipment.

Open vent stack equipment, such as heater-treaters, separators, and dehydrator units, will be designed and constructed to prevent birds and bats from entering or nesting in or on such units and, to the extent practical, to discourage birds from perching on the stacks. Installing cone-shaped mesh covers on all open vents is one suggested method. Flat mesh covers are not expected to discourage perching and will not be acceptable.

### **Invasive and Non-Native Species**

**Objective:** To discourage the spread of invasive, non-native plants.

Use of native or non-invasive plants in seeding mixtures will be encouraged to stabilize disturbed areas and during restoration activities. Construction sites will be surveyed for invasive species prior to ground disturbance. If invasive species are found, the proper control measures will be used to either eradicate the species from the area or minimize its spread to other areas. If cogongrass is found on site, equipment will be washed before exiting the site to prevent the spread

of this highly invasive species to other locations. Post-construction monitoring for cogongrass and other invasive plant species should be conducted to ensure early detection control. In the case of split-estate lands, final seed mixtures will be formulated in consultation with the private landowner.

### **Pesticide Application**

**Objective:** To protect the water quality of watersheds and natural stream substrate and morphology supporting special status species and their host species.

Any ground application of herbicides or other pesticides, sterilants, or adjuvants within 150 feet of listed species or habitat will require site-specific control measures developed in coordination or formal consultation with USFWS. No aerial application of herbicides or pesticides will be permitted.

**The following Lease Notices/Best Management Practices apply to EOI #704 and #724 :**

**American Burying Beetle – Pesticide Use**

**Lease Notice – American Burying Beetle Pesticide Use:** Only the following approved pesticides and herbicides, or those subsequently reviewed and approved by the Service, may be used within the range of American burying beetle. All products must be used in accordance with manufacture’s label instructions.

**Insecticides**

Product Name: Aqnique MMF  
Chemical Name: ethoxylated alcohol  
Target Pest: mosquito larvae and pupae

Product Name: Vectolex-CG  
Chemical Name: *Bacillus sphaericus*  
Target Pest: mosquito larvae

Product Name: Altosid Pellets, Altosid XR, Altosid LL  
Chemical Name: Methoprene  
Target Pest: mosquito larvae

Product Name: Pest Tab  
Chemical Name: Lambda-cyhalothrin  
Target Pest: scorpions (bunker use)

Product Name: Bactimos Briquets  
Chemical Name: *Bacillus thuringiensis* spp. *Israelensis*  
Target Pest: mosquito larvae

Product Name: Justice  
Chemical Name: Spinosad  
Target Pest: fire ants

Product Name: Amdro  
Chemical Name: Hydromethylnon  
Target Pest: fire ants

**Herbicides**

Product Name: Arsenal, Chopper  
Chemical Name: Imazapyr  
Target Pest: most annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Karmex DF, Diuron 4L  
Chemical Name: Diuron  
Target Pest: broad spectrum weed control on grasses and broadleaf weeds

Product Name: Round-up Pro, Round-up Ultra Max, Round-up Ultra Dry, Rodeo  
Chemical Name: Glyphosate  
Target Pest: non-selective post emergence herbicide that controls many terrestrial and aquatic weed species depending on the formulation

Product Name: Escort  
Chemical Name: Metsulfuron-methyl  
Target Pest: post-emergent control of most broadleaf weeds, some annual grass weeds

Product Name: Oust  
Chemical Name: Sulfometuron-methyl  
Target Pest: annual and perennial grasses as well as broadleaf weeds

Product Name: Outrider  
Chemical Name: Sulfosulfuron  
Target Pest: annual and perennial grasses as well as broadleaf weeds

Product Name: Surflan  
Chemical Name: Oryzalin  
Target Pest: annual grasses and broadleaf weeds

Product Name: Banvel, Vanquish  
Chemical Name: Dicamba  
Target Pest: annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Poast  
Chemical Name: Sethoxydim  
Target Pest: annual and perennial grasses

Product Name: Sahara DG  
Chemical Name: imazapyr/diuron  
Target Pest: annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Hyvar XL  
Chemical Name: bromacil  
Target Pest: annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Krovar IDF  
Chemical Name: bromacil/diuron  
Target Pest: annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Sahara DG  
Chemical Name: imazapyr/diuron  
Target Pest: annual and perennial grasses, broadleaf weeds, and woody species

Product Name: Aquashade  
Chemical Name: Acid Blue/Acid Yellow Dye  
Target Pest: aquatic vegetation

Product Name: Reward  
Chemical Name: Diquat Bibromide  
Target Pest: aquatic vegetation

Product Name: Garlon 3A  
Chemical Name: Triclopyr  
Target Pest: Broadleaf weed species

# OZARK NATIONAL FOREST

## *CONTROLLED SURFACE USE STIPULATION #1*

Surface occupancy or use is subject to the following special operating constraints.

Activities must be conducted in such a manner as to protect the inherent ecological processes and functions of the associated aquatic, riparian, and upland components within riparian corridors.

On the acquired lands described below:

T10N, R17W, Fifth PM

Section 1: S2SENE, SESWNE, N2SWNE, SENW, NWNESW, NENESE  
Section 3: E2E2NW, NENESW, N2NWSE  
Section 5: N2NENW  
Section 7: SENWNW  
Section 8: SENE, N2SW, NWSESW, E2E2SE, W2SWSE  
Section 9: W2SENE, W2NESE, E2E2NWSE, E2SWSE, NWSESE  
Section 10: N2NESW, NENWSW  
Section 11: S2NESW, NWSW  
Section 13: SWNENE, NWNE, N2NENW, E2NESE  
Section 14: SWSW  
Section 15: S2NWNE, NESWNE  
Section 16: NWNE, S2NENW, SENW, W2SW  
Section 17: NE, S2S2SWNW, W2NESENW, NWSESENW, S2S2SENW  
Section 18: N2NESE, SWNESE, S2NESE, S2NENWSE  
Section 20: SENENE, SWNE, N2SENE  
Section 21: NWNW, NESWNW, SENW, E2E2SW, W2W2SE  
Section 24: S2NENW  
Section 26: S2SWSW  
Section 27: NENWSE  
Section 28: NWNE, NESWNE, SENE  
Section 35: SESE  
Section 36: SWSWSW

For the purpose of:

Meeting the Forest Management Direction of Chapter 2, pages 30-31 of the Ozark-St. Francis National Forests Land & Resource Management Plan effective January 2006.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## OZARK NATIONAL FOREST

### *CONTROLLED SURFACE USE STIPULATION #1A*

Surface occupancy or use is subject to the following special operating constraints.

Activities must be conducted in such a manner as to protect Oak Savannah/  
Oak Woodland Management Areas.

On the acquired lands described below:

T10N, R17W, Fifth PM

- Section 1: S2N2, NESW, S2NWSW, SWSW, N2SE
- Section 2: W2NENE, NWNE, N2SWNE, NWNW, S2SW, SESE, SENE
- Section 3: E2NE, E2W2, NWNW, S2SWNW, W2SE
- Section 4: SENW, N2SE, NESW, N2SESW, N2SWSE
- Section 5: N2NE, SWNE, NENW, S2NW, N2N2SW, NWNWSE
- Section 6: E2NESE, SWNESE
- Section 11: N2N2, N2S2NE, N2SENW
- Section 12: NE, SENW

For the purpose of:

Meeting the Forest Management Direction of Chapter 2, pages 30-31 of the Ozark-St. Francis  
National Forests Land & Resource Management Plan effective January 2006.

Any changes to this stipulation will be made in accordance with the land use plan and/or the  
regulatory provisions for such changes.

# OZARK NATIONAL FOREST

## *CONTROLLED SURFACE USE STIPULATION #1B*

Surface occupancy or use is subject to the following special operating constraints.

Activities must be conducted in such a manner as to protect the Pine Woodland Management Areas.

On the acquired lands described below:

T10N, R17W, Fifth PM

Section 4: SESW, SWSE  
Section 5: SESWNE, S2N2SW, NWSE  
Section 6: E2W2SW, SESE, S2NESE  
Section 7: NWNW  
Section 8: N2NW, S2N2, S2  
Section 9: W2NE, E2NENW, SWNENW, W2NW, SENW, S2  
Section 10: SW, W2SE  
Section 11: S2S2NE, S2SEW, S2SE  
Section 12: SENW, SE  
Section 13: N2NE, SENE, E2W2, SE  
Section 14: NE, SENW, E2SW, SWSW, W2SE, NWNW

Section 34: NE, SW  
Section 35: S2SE  
Section 36: N2NW, S2N2, N2S2, SESW, S2SE, SWSW

For the purpose of:

Meeting the Forest Management Direction of Chapter 2, pages 30-31 of the Ozark-St. Francis National Forests Land & Resource Management Plan effective January 2006.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## **OZARK NATIONAL FOREST**

### ***NO SURFACE OCCUPANCY STIPULATION #2***

No surface occupancy or use is allowed on the acquired lands described below:

T10N, R17E, Fifth PM

Section 21: W2SE, E2E2SW

Section 28: N2NWNE, NENW, E2NWNW

For the purpose of:

To protect the Brock Creek Recreation Area and meet the Forest Management Direction of the Ozark-St. Francis National Forests Land & Resource Management Plan.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## **OZARK NATIONAL FOREST**

### ***NO SURFACE OCCUPANCY STIPULATION #2A***

No surface occupancy or use is allowed on the acquired lands described below:

T10N, R20W, Fifth PM

Section 5: NW

Section 6: NWNE, NENW, SENW, NESW, SWSE

For the purpose of:

To protect the Wainscott Bottoms/Waldo Mountain Special Interest Areas and meet the Forest Management Direction of the Ozark-St. Francis National Forests Land & Resource Management Plan.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## **OZARK NATIONAL FOREST**

### ***NO SURFACE OCCUPANCY STIPULATION #2B***

Surface occupancy or use is subject to the following special operating constraints:

Unless otherwise authorized, surface occupancy will be prohibited along the corridor of the Big Piney Wild and Scenic River.

On the acquired lands described below:

T10N, R20W, Fifth PM

Section 5: N2NWNE, NW, N2NWSW, W2SWSW

Section 6: E2NE, NWNE, E2NW, NESW, Pt NESE, S2SE

Section 7: NE, NENW

For the purpose of:

Meeting the Forest Management Direction of Chapter 2, pages 30-31 of the Revised Ozark-St. Francis National Forests Land & Resources Management Plan effective January 2006.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## **OZARK NATIONAL FOREST**

### ***LEASE NOTICE #3***

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the correct Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

### ***LEASE NOTICE #4***

All or part of the leased lands may be classified as wetlands in accordance with Executive Order 11990, "Protection of Wetlands" or a floodplain in accordance with Executive Order No. 11988, "Floodplain Management." Additional management requirements for the protection of riparian areas are contained in 36 CFR 219.27(e) and the National Forest Management Act of 1976.

All activities within these areas may require special measures to mitigate adverse impacts to the resource values. They must comply with the above referenced executive orders, regulations, laws and be in accordance with the Forest Land and Resource Management Plan guidelines.

Further information concerning the classification and management of these lands may be obtained from the authorized Forest officer.

## **BLM – Future Mineral Interest Stipulation**

Parcel **ES-011-06/11 ARES 056807 ACQ** is subject to the following terms and conditions: Prior to the effective date of the future interest lease, the successful bidder will be required to join any existing Federal unit agreement. Prior to the effective date of the future interest lease, or as soon thereafter as practical, the successful bidder will be required to join any existing private unit agreement. If unable to join, a statement giving satisfactory reasons for the failure to enter into such agreement(s) must be filed with the Southeastern States Field Office; 411 Briarwood Drive, Suite 404; Jackson, MS 39206. If such statement is acceptable, the lessee shall be permitted to operate independently. Where the terms of the private unit agreement are in conflict with Federal regulations, the Federal regulations shall prevail.

Where a parcel is subject to a Federal communitization agreement (CA), the successful bidder will be required to join the Federal CA by joinder prior to the effective date of the lease.

The successful bidder, if not the present operator, is responsible for making a separate agreement with the present operator for compensation for improvements made on the leasehold. The United States will not be a party to, nor be involved in, negotiations for or review of such agreement. By the effective date of the future interest lease or as soon thereafter as practical, the successful bidder shall furnish the Southeastern States Field Office a copy of all approved State of Arkansas permits and other well-related information on all existing wells located on the future interest leased lands. The information includes but is not limited to applications for permit to drill, well completion reports, sundry notices, and site facility diagrams.

On and after the effective date of the future interest lease, all wells located on the future interest leased lands shall be subject to Federal oil and gas regulations, Federal onshore oil and gas orders, and notices to lessees. Applicable Federal regulations include, but are not limited to, the Oil and Gas Operations Regulations 43 CFR Part 3160 and the Office of Natural Resources Revenue (ONRR) for Onshore (previously the Minerals Management Service) Regulations concerning Royalty Management 30 CFR Parts 200 through 243.

On and after the effective date of the future interest lease, all wells located on the future interest leased lands shall be subject to Federal oil and gas regulations, Federal Onshore Orders, and notices to lessees. Applicable regulations include, but are not limited to, the Oil and Gas Operations Regulations 43 CFR Part 3160 and the ONRR Regulations concerning Royalty Management 30 CFR Parts 200 through 243.

On and after the effective date of the future interest lease, all wells which share in allocation of production with the future interest lease shall be subject to Federal oil and gas regulations, Federal Onshore Orders, and notices to lessees as they pertain to production accountability. Applicable regulations are cited above.

Lease operations are expected to be in compliance with all Federal regulations, orders, and notices concerning production accountability on the effective date of the lease. A 90-day grace

period will be allowed for compliance with Federal regulations, orders, and notices, which are not related to production accountability.

For wells producing on the effective date of the lease and on which royalty is due anywhere on the lease site or allocated to a lease site, the lessee/operator shall notify the Southeastern States Field Office not later than the fifth business day after the effective date of the lease by letter, sundry notice (Form 3160-5), or orally followed by a letter or sundry notice, of the date on which such production began, which is the effective date of the lease. For wells not producing on the effective date of the lease, such notification of production is required by no later than the fifth business day after the well begins productions (43 CFR 3162.4-1©).

On the effective date of the lease, the lessee/operator shall inventory stocks of liquid hydrocarbons on hand and/or install new gas charts. Monthly reports of operations (Form MMS-3160) are required for all operating leases beginning on the effective date of the lease. Reports shall be filled with the ONRR, Production Accounting Division on or before the 15<sup>th</sup> day of the second month following the operations month (43 CFR 3162.4-3).

The successful bidder is advised to contact the Southeastern States Field Office at the above address or by telephone (601) 977-5400, prior to the effective date of the lease so that a courtesy inspection may be conducted to ensure accountability of federal production and compliance with Federal regulations, orders, and notices.

**Bond Information:** A lease bond (43 CFR Subpart 3104) in the amount of not less than \$10,000 conditioned upon compliance with all terms and conditions of the lease must be furnished prior to entry and commencement of lease operations. If the lease has a producing well and/or ancillary facilities on the effective date of the lease, a bond or evidence of a sufficient existing Federal oil and gas lease bond is required on the effective date of the lease. If the lessee has a Federal Nationwide bond, or a Statewide bond for the State of Arkansas, no additional bond under the provisions of 43 CFR Subpart 3104 will be required.

## **KISATCHIE NATIONAL FOREST**

### ***LEASE NOTICE 3***

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's list of sensitive plant and animal species. Further information concerning the classification of these species may be obtained from the authorized Forest officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

### ***TO BE USED IF WETLANDS ARE OUTSIDE STREAMBED OR RIPARIAN ZONE***

### ***LEASE NOTICE 4***

All or part of the leased lands may be classified as wetlands in accordance with Executive Order 11990, "Protection of Wetlands" or a floodplain in accordance with Executive Order No. 11988, "Floodplain Management." Additional management requirements for the protection of riparian areas are contained in 36 CFR 219.72 (e) and the National Forest Management Act of 1976.

All activities within these areas may require special measures to mitigate adverse impacts to the resource values. They must comply with the above referenced executive orders, regulations, laws and be in accordance with the Forest Land and Resource Management Plan guidelines.

Further information concerning the classification and management of these lands may be obtained from the authorized Forest Officer.

## CONTROLLED SURFACE USE STIPULATION 2A

### *T1S, R8W, Louisiana Meridian*

Surface occupancy or use is subject to the following operating constraints.

Roads and clearing of right-of-way vegetation may occur if a site-specific environmental analysis determines that the mitigated environment effects would not be significant.

Section	Approximate Legal Description	Estimated Acres
1	N2N2	160.3
2	N2N2	160.3
3	N2NE; pt of SWNE; pt of N2SW	310.5
4	Pt of N2; pt of SE	340.3
5	N2NE; N2S2NE; E2NW	200.1

For the Purpose of: Intensive Use Area of Fort Polk. The lessee is given notice that all or portions of the lease area are located within the Intensive Use Area for Fort Polk. Army use of these areas is necessary for the accomplishment of the Military mission and any surface use or occupancy that might be allowed within such areas under the terms of this lease will be limited. It will be authorized by the Forest Service only if the lessee demonstrates the surface use or occupancy is essential to his operations. After the Forest Service has been advised of the proposed surface use on the leased lands, and on request of the lessee the Forest Service will furnish further data on such areas which include, but are not limited to the above lands.

Any changes to this stipulation will be made in accordance with the land use plan and/or regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***LEASE NOTICE 3***

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

### ***LEASE NOTICE 4***

All or part of the leased lands may be classified as wetlands in accordance with Executive Order 11990, "Protection of Wetlands" or a floodplain in accordance with Executive Order No. 11988, "Floodplain Management." Further information concerning the classification of these lands may be obtained from the authorized Forest office.

All activities within these areas must be conducted in a manner to minimize adverse impacts to the resource values and in accordance with the Forest Land and Resource Management Plan guidelines.

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***NOTICE TO LESSEE 5***

The proposed land to be leased has areas, less than a 40-acre legal subdivision, with slopes greater than 15% in which ground disturbing activities (such as roads and well pads) will not be authorized. Further information concerning the classification of these lands may be obtained from the authorized Forest office.

All activities within these areas must be conducted in a manner to minimize adverse impacts to the resource values and in accordance with the Forest Land and Resource Management Plan guidelines.

### ***NOTICE TO LESSEE 6***

The lease area is the subject of ongoing environmental and feasibility studies concerning a proposed reservoir construction project which will impound approximately 3,000 acres of surface water. When the exact locations of the water impoundment area and ancillary facilities are known, lease operations subject to this notice will be modified through the Application for Permit to Drill process to include such protective surface use restrictions as are deemed necessary and in the public interest.

# NATIONAL FORESTS IN MISSISSIPPI

## LEASE NOTICE 6

### *T4N, R8E, Choctaw Meridian*

All or part of the leased lands may contain a special management area that has been identified as a prairie by the Mississippi Natural Heritage Program. Further information may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if any activity is planned within the boundaries of an identified prairie location as it then exists. All activities must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

## NATIONAL FORESTS IN MISSISSIPPI

### *TIMING LIMITATION STIPULATION 1*

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

Ground disturbing activities, including road, pipeline, and well pad construction, may be restricted during the wet season from 11/30 thru 3/31 depending on site specific conditions at the time the Application for Permit to Drill is filed, unless the Operator can furnish construction measures to mitigate damages to surface resources.

On the lands described below:

Entire lease

For the purpose of (reasons):

Prevent excessive soil erosion and rutting resulting from construction activities during the wet season. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***NO SURFACE OCCUPANCE STIPULATION 2***

#### ***T5N, R1W, Washington Meridian***

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

The following lands are part of the watershed of Pipes Lake Recreation area and may require special attention to prevent damage to Pipes Lake:

The NE of Section 31 between FS Road 121-A1 and Road 121-A; North of the lake and west of Road 121-A in Section 32; West and East of the lake to the top of the ridge and North of the lake in Section 33, T5N, R1W, Washington Meridian.

For the purpose of :

Protection of the Pipes Lake Recreation Area. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be mad in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***NO SURFACE OCCUPANCE STIPULATION 2A***

#### ***T5N, R1W, Washington Meridian***

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

Within 100' of the Sandy Creek WMA Headquarters building located in the most westerly part of irregular Section 20, T5N, R1W, Washington Meridian.

For the purpose of:

Protection of the Sandy Creek WMA Headquarters. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 311 or FS Manual 1950 and 2820.)

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***NO SURFACE OCCUPANCE STIPULATION 2B***

#### ***T5N, R1W, Washington Meridian***

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

Lands located West of Road 120, South of Road 120-B in Section 15; North of Road 174; North of Road 174 in Section 24, T5N, R1W, Washington Meridian.

For the purpose of:

For the protection of the Sandy Creek Aquatic Ecosystem. Land & Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

## **NATIONAL FORESTS IN MISSISSIPPI**

### ***NO SURFACE OCCUPANCE STIPULATION 2***

#### ***T5N, R2E, Washington Meridian***

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

The following lands are part of the watershed of Clear Springs Recreation Area and may require special attention to prevent damage to Clear Springs:

Parts of the NESW, NWSW, SWSW and SESW of Section 2, T5N, R2E, Washington Meridian.

For the purpose of :

Protection of the Clear Springs Recreation Area. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be mad in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM  
UNDER JURISDICTION OF  
DEPARTMENT OF AGRICULTURE**

The licensee/permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the license/prospecting permit/lease. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area licensed, permitted or leased by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operating plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

Forest Supervisor, NFs in Mississippi  
100 W. Capitol Street, Suite 1141  
Jackson, MS 39269  
Telephone No.: 601-965-1600

who is the authorized representative of the Secretary of Agriculture.
