February 6, 2006

### **Notice of Competitive Lease Sale Oil and Gas**

The Bureau of Land Management, Eastern States, is pleased to announce that we will offer for competitive sale certain Federal lands in Alabama (ES-001 thru ES-013), Arkansas (ES-014 thru ES-099), Louisiana (ES-100 thru ES-105), Michigan (ES-106), Mississippi (ES-107 thru ES-137) and West Virginia (ES-138 thru ES-147) for oil and gas leasing.

This notice describes—

1. the time and place of the auction,
2. how to register for and participate in the bidding process,
3. the conditions of the auction,
4. how to file a pre-sale noncompetitive offer, and,
5. how to file a noncompetitive offer after the auction.

#### **When and where will the auction take place?**

- When:** The competitive oral auction will begin at **10:00 a.m. on March 23, 2006.** The sale room will open one hour earlier to allow you to register and get your bidding number.
- Where:** We will hold the auction at The Bureau of Land Management, Eastern States, 7450 Boston Boulevard, Springfield, Virginia 22153.
- Access:** The auction room is accessible to persons with disabilities. If you need an auxiliary aid or service to participate in the auction, such as a sign language interpreter or materials in an alternate format, please contact Bill Forbes at (703) 440-1536 by February 23, 2006.

#### **How do I register as a bidder?**

You have to register and get a bidding number to participate in the sale. A Bidder Registration Form is included in this package. We will have copies available at the auction site. We will begin registering bidders at 9:00 a.m. on the day of the sale.

### **How do I participate in the bidding process?**

The auctioneer will offer the parcels on the list attached to this notice in number order. Only registered bidders may make oral bids. All bids are on a per-acre basis for the entire acreage in the parcel. The winning bid will be the highest oral bid equal to or exceeding the minimum acceptable bid. The decision of the auctioneer is final.

The minimum acceptable bid is \$2 per acre or fraction thereof. If the parcel has fractional acreage, round it up to the next whole acre. For example, a parcel of 100.5 acres requires a minimum bid of \$202 (\$2 x 101 acres). After the auctioneer has offered all parcels, you may request that any unsold parcel be re-offered.

### **What are the terms and conditions of a lease issued as a result of this sale?**

6. **Term of the lease:** A lease is issued for a primary term of 10 years. It continues beyond that if it has production in paying quantities. We charge a royalty of 12.5 percent of the value of oil or gas removed or sold from a lease. You will find other lease terms on our standard lease form (Form 3100-11, June 1988 or later editions).

7. **Stipulations:** Some parcels are subject to surface use stipulations. They are requirements or restrictions on how you conduct operations. These stipulations are included in the parcel descriptions on the attached list. They become part of the lease and supersede any inconsistent provisions in the lease form.

### **What are the terms of the sale?**

8. **Withdrawal:** We reserve the right to withdraw any or all parcels from the sale before the auction begins. If we withdraw any parcels, we will post a notice in the Public Room at the Eastern States Office. You may also get the numbers of withdrawn parcels by contacting Gina Goodwin at (703) 440-1534. If we cancel the sale, we will try to notify all interested parties in advance.

9. **Payment:** You cannot withdraw your bid; it is a legally binding commitment to sign the lease bid form; accept the lease; and pay on the day of the auction the bonus bid, the first year's rent, and an administrative fee. The bonus bid is a deposit of at least \$2.00 per acre or fraction thereof. The first year's rent is \$1.50 per acre or fraction thereof. The administrative fee is \$130 per parcel.

You must pay minimum bonus, first year's rental and administrative fee by 4:30 p.m., at the Eastern States accounting office. You may pay the entire amount of your bid on the day of the auction, but if you don't, **you must pay the balance by April 6, 2006**, which is the 10<sup>th</sup> working day following the auction. If you don't pay in full by this date, you forfeit the right to the lease and all money you have paid us. If you forfeit a parcel, we may offer it for sale at a later auction.

10. **Form of payment:** You can pay by personal check, certified check, money order, or credit card (VISA, MASTERCARD, AMERICAN EXPRESS, or DISCOVER). Make a check payable to: **Department of the Interior–BLM**. We don't accept cash. If a check you have sent us in the past has been returned for insufficient funds, we will require that you give us a guaranteed payment, such as a certified check.

11. **Bid form:** Successful bidders must submit a signed competitive lease bid form (Form 3000-2, Oct. 1989) with their payment on the day of the auction. This form is a legally binding offer by a prospective lessee to accept a lease and all applicable terms and conditions. We recommend you get the form and complete part of it before the auction, leaving part to be filled out at the auction. Your completed bid form certifies that you are qualified to be a lessee under our regulations at 43 CFR Part 12 and Subpart 3102.5-2. It also certifies that you comply with 18 U.S.C. 1860, a law prohibiting unlawful combinations, intimidation of or collusion among bidders.

12. **Issuance of a lease:** We (the BLM) will issue your lease within 60 days of the sale date by signing the lease form provided you have paid your fees and rent. The effective date of a lease is the first day of the month following the month in which we sign the lease. We can make it effective the first day of the month in which we sign it, if we receive your written request before we sign the lease.

#### **How do I file a noncompetitive pre-sale offer?**

Under our regulations at 43 CFR 3110.1(a), you can file a noncompetitive pre-sale offer for lands that –

13. are available,
14. have not been under lease during the previous one-year period; or
15. have not been included in a competitive lease sale within the previous two-year period.

If no bid is received on them, your pre-sale offer gives you priority over any offer filed after the auction. In the list of parcels attached to this notice, we have used an asterisk to mark any parcel that has a pending pre-sale offer. By filing a pre-sale offer, you are consenting to all terms and conditions of the lease, including any stipulations for listed on the attachment to this notice.

To file a pre-sale offer, you must send us --:

16. A standard lease form (Form 3100-11, June 1988 or later edition), which is properly filled out, as required by the regulations under 43 CFR 3110. (**Note: You must copy both sides of the form on one page. If you copy the form on 2 pages, we will reject your offer. We will also reject offers on obsolete lease forms.**);

17. the first year's advance rent in the amount of Rental \$1.50 per acre or fraction thereof; and

18. a nonrefundable administrative fee in the amount of \$335.00.

**NOTE:** You cannot file a pre-sale offer for any lands included in the parcel list attached to this notice.

**How do I file a noncompetitive offer after the auction?**

You may be able to get a noncompetitive lease for a parcel we offered if –

19. we did not withdraw it from the sale;
20. it did not receive a bid; and
21. it does not have a noncompetitive pre-sale offer pending.

Parcels that meet all these criteria are available on a first-come, first-served basis for two years from the date of the auction. If you want to file a noncompetitive offer for an unsold parcel immediately after the sale or on the next business day, give us the items listed above under pre-sale offers in a sealed envelope marked “Noncompetitive Offer.” We consider all noncompetitive offers that we receive on the day of the sale and the first business day after the sale as filed at the same time (simultaneously). Where an unsold parcel receives more than one simultaneous filing, we will hold a public drawing to determine who will get the lease.

**Where can I get copies of BLM forms?**

Form 3100-11, Offer to Lease and Lease for Oil and Gas and Form 3000-2 Competitive Oil and Gas or Geothermal Resources Lease Bid are included with this package. Electronic versions of these forms (PDF format) are available upon request. You may contact Ms. Cindy Kahn at (703) 440-1727 to request that they be e-mailed to you.

**When is the next sale scheduled?**

The next sale is tentatively scheduled for June 22, 2006.

**Who should I contact if I have a question?**

For more information, contact Bill Forbes at (703) 440-1536.

99.63 Acres

\$150.00 Rental

Subject to F.S. Lease Notice No. 3

**TALLADEGA NATIONAL FOREST (AL)**  
**Township 24 North Range 6 East, St. Stephens Meridian**

**LEASE NOTICE No. 3**

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Portions of the land in this lease are or may be occupied by colonies of the endangered red-cockaded woodpecker. Exploration and development proposals may be limited or modifications thereof required if activity is planned within the boundaries of a red-cockaded woodpecker colony as it then exists. Upon receipt of a site specific proposal, the Forest Service will provide current inventory records of colony locations and may require localized surveys be performed to assure no un-inventoried colonies are present.

All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

**Township 24 North Range 7 East, St. Stephens Meridian**

**LEASE NOTICE No. 3**

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

**STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM UNDER THE JURISDICTION OF THE DEPARTMENT OF AGRICULTURE**

The lessee/permittee/lessee must comply with all the rules and regulations of the Secretary of the Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the license/prospecting permit/lease. The Secretary of Agriculture's rules and regulations must be compiled with for all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area licensed, permitted or leased by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operating plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

------------------	--

For the purpose of:

To meet visual quality objective and to protect semiprimitive recreation values; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS.

Recreation Areas and electronic site (Management Area 3 of LRMP).

Any changes to this stipulation will be made in accordance with the OUACHITA NATIONAL FOREST (AR) Land and Resource Management Plan, as amended, and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820).

**OUACHITA NATIONAL FOREST (AR)**

**NO SURFACE OCCUPANCY STIPULATION No. 2**

No use or occupancy of the surface will be permitted within the following areas:

**TOWNSHIP 4 NORTH, RANGE 27 WEST**  
FIFTH PRINCIPAL MERIDIAN

Section 4: Tract 5143 in Lot 1 of NE1/4  
Section 25 SWSWSE and SESESW  
Section 36 NWNWNE and NENENW

Administrative Site  
Union Hill Electronic Site  
Union Hill Electronic Site

For the purpose of:

Protecting the resources and curtailing any operations that are not compatible with the purpose of the management area. The lessee is authorized to employ directional drilling to exploit the mineral resources within the aforementioned area(s) providing such drilling will not disturb the surface.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan, as amended, and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820).

## **OUACHITA NATIONAL FOREST (AR)**

### **CONTROLLED SURFACE USE STIPULATION No. 1A**

Surface occupancy or use is subject to the following special operating constraints:

Rich Mountain Recreation Area (Management Area 19b): Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical, and conducted in a manner that will supplement, enhance, or otherwise not interfere with recreation opportunities and uses. Surface occupancy may be severely restricted or not allowed if use will conflict with existing public and administrative uses. This is a high use recreation area with steep mountainous terrain and numerous scenic vistas. It is a major State attraction because of the scenic and recreation resource values.

On the lands described below:

### **TOWNSHIP 1 SOUTH, RANGE 31 WEST** FIFTH PRINCIPAL MERIDIAN

#### **Public Domain and Acquired**

All lands south of Highway 270 to the Talimena Scenic Drive and all lands approximately 1 mile south of the Talimena Scenic Drive that are within the Congressionally designated Rich Mountain Recreation Area (Management Area 19b). These include lands in the following Sections: 7, 8, 9, 10, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 35, 36. (maps on file with the OUACHITA NATIONAL FOREST (AR)).

For the purpose of:

To meet visual quality objective and to protect semiprimitive recreation values; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS. Rich Mountain Recreation Area (Management Area 19b): Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical, and conducted in a manner that will supplement, enhance, or otherwise not interfere with recreation opportunities and uses. Surface occupancy may be severely restricted or not allowed if use will conflict with existing public and administrative uses. This is a high use recreation area with steep mountainous terrain and numerous scenic vistas. It is a major State attraction because of the scenic and recreation resource values.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan (ALRMP 1990), as amended, and/or the regulatory provisions for such changes. For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820.

**OUACHITA NATIONAL FOREST (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1B**

Surface occupancy or use is subject to the following special operating constraints:

The operation must be conducted in a manner compatible with the purpose this management area. Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical.

On the lands described below:

**TOWNSHIP 1 SOUTH, RANGE 31 WEST**  
FIFTH PRINCIPAL MERIDIAN

Sections 1, 2, 11, 12, 13, 14 (maps on file with the Ouachita National Forest).

The above lands lie within a Semi Primitive motorized area (Management Area 17 of the LRMP).

For the purpose of:

To meet visual quality objective and to protect semiprimitive recreation values; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan (ALRMP 1990), as amended, and/or the regulatory provisions for such changes. For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820.

**OUACHITA NATIONAL FOREST (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1C**

Surface occupancy or use is subject to the following special operating constraints:

Highway 270 Management Area 18 Corridor: The operation must be conducted in a manner compatible with the purpose this management area. Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical. No surface occupancy will be allowed where such will conflict with existing public and administrative uses. This is a high use recreation area.

On the lands described below:

**TOWNSHIP 1 SOUTH, RANGE 31 WEST**  
FIFTH PRINCIPAL MERIDIAN

Sections 5, 6, 7, 8, 9, 10, 13, 14, 15, 16, 23, 24 (maps on file with the Ouachita National Forest).

The above lands lie within a Visually Sensitive Foreground Areas (Management Area 18 of the LRMP).

For the purpose of:

To meet visual quality objective and to protect semiprimitive recreation values; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan (ALRMP 1990), as amended, and/or the regulatory provisions for such changes. For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820.

**OUACHITA NATIONAL FOREST (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1D**

Surface occupancy or use is subject to the following special operating constraints:

Ouachita National Recreation Trail: The operation must be conducted in a manner compatible with the purpose this management area. Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical. No surface occupancy will be allowed where such will conflict with existing public and administrative uses. This is a high use recreation area. The trail corridor is 200 feet on either side of the trail.

On the lands described below:

**TOWNSHIP 1 SOUTH, RANGE 31 WEST**  
FIFTH PRINCIPAL MERIDIAN

Sections 3, 4, 7, 8, 9, 10, 11, 12, 16, 17, 18 (maps on file with the Ouachita National Forest ).

The above lands lie within a Visually Sensitive Foreground Areas (Management Area 18 of the LRMP).

For the purpose of:

To meet visual quality objective and to protect semiprimitive recreation values; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan (ALRMP 1990), as amended, and/or the regulatory provisions for such changes. For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS manual 1950 and 2820.

**OUACHITA NATIONAL FOREST (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1**

Surface occupancy or use is subject to the following special operating constraints:

Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical, and to protect the water quality of the Ouachita River and its tributaries.

On the lands described below:

**T2S, R26W**

**Public Domain**

Section 19: all

**Acquired**

Section 1: pt. NESE  
Section 5: pt. N2S2NE  
Section 13: all  
Section 19: all  
Section 20: all  
Section 21: all  
Section 22: central  
Section 23: W2NE  
Section 24: SW

For the purpose of:

To meet visual quality objective and to protect water quality values for the Ouachita River and River corridor, Land and Resource Management Plan (LRMP) dated 3/5/90, as amended and Final EIS.

The above lands lie within Management Area 20 of the LRMP.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan, as amended, or the regulatory provisions for such changes.

**OUACHITA NATIONAL FOREST (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1a**

Surface occupancy or use is subject to the following special operating constraints:

Activities must be conducted in such a manner as to reasonably reduce visibility of the operation and meet visual quality objectives to the extent practical.

On the lands described below:

**T2S, R26W**

**Public Domain**

Section 14: S2N2

**Acquired**

Section 12: pt. S2

Section 13: NW

Section 14: pt. N2

Section 15: pt. N2,NWSW

Section 16: pt. S2

Section 17: SE

Section 20: all

Section 21: NWNW

Section 29: N2

For the purpose of:

To meet visual quality objective and to protect a major trail; Land and Resource Management Plan dated 3/5/90, as amended and Final EIS.

Portions of the above lands incorporate a trail under Management Area 18.

Any changes to this stipulation will be made in accordance with the Ouachita National Forest Land and Resource Management Plan, as amended, or the regulatory provisions for such changes.

**OZARK-ST. FRANCIS NATIONAL FORESTS (AR)**

**CONTROLLED SURFACE USE STIPULATION No. 1**

Surface occupancy or use is subject to the following special operating constraints.

Unless otherwise authorized, surface occupancy will be prohibited on the Butterfield Hiking Trail. This is to maintain a corridor of three chains (198 feet) on either side of the centerline of the trail, unless topographically impractical.

On the acquired lands described below:

T12N, R31W, Fifth PM

Section 2:     NWNE, E2NW, E2SW, SWSE  
Section 3:     NWNE, E2NW, NESW  
Section 9:     E2NE, NESE  
Section 10:    NESW, NWSE  
Section 11:    NWSW

For the purpose of:

Meeting the Forest Management Direction of Chapter 3, of the Ozark-St. Francis National Forests Land & Resources Management Plan effective October 2005.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

**OZARK-ST. FRANCIS NATIONAL FORESTS (AR)**  
**CONTROLLED SURFACE USE STIPULATION No. 1A**

Surface occupancy or use is subject to the following special operating constraints.

Unless otherwise authorized, surface occupancy will be prohibited on the Butterfield Hiking Trail. This is to maintain a corridor of three chains (198 feet) on either side of the centerline of the trail, unless topographically impractical.

On the public domain lands described below:

T12N, R31W, Fifth PM

Section 4: SESE  
Section 10: SENE, NWSW

For the purpose of:

Meeting the Forest Management Direction of Chapter 3, of the Ozark-St. Francis National Forests Land & Resources Management Plan effective October 2005.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

**OZARK-ST. FRANCIS NATIONAL FORESTS (AR)**

**NO SURFACE OCCUPANCY STIPULATION No. 2**

No surface occupancy or use is allowed on the acquired lands described below:

T12N, R31W, Fifth PM

Section 19: NWSE

For the purpose of:

To protect the Lee Creek Recreation Area, and meet the Forest Management Direction of Chapter 3 of the Ozark-St. Francis National Forest land & Resource Management Plan effective October 2005 which prohibits surface occupancy in developed recreation areas.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes.

## **OUACHITA NF / OZARK NF**

### **LEASE NOTICE No. 3**

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

### **LEASE NOTICE No. 4**

All or part of the leased lands may be classified as wetlands in accordance with Executive Order 11990, "Protection of Wetlands" or a floodplain in accordance with Executive Order No. 11988, "Floodplain Management." Additional management requirements for the protection of riparian areas are contained in 36 CFR 219.27(e) and the National Forest Management Act of 1976.

All activities within these areas may require special measures to mitigate adverse impacts to the resource values. They must comply with the above referenced executive orders, regulations, laws and be in accordance with the Forest Land and Resource Management Plan guidelines.

Further information concerning the classification and management of these lands may be obtained from the authorized Forest Officer.

**STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM UNDER THE JURISDICTION OF THE DEPARTMENT OF AGRICULTURE**

The lessee/permittee/lessee must comply with all the rules and regulations of the Secretary of the Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the license/prospecting permit/lease. The Secretary of Agriculture's rules and regulations must be compiled with for all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area licensed, permitted or leased by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operating plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

Forest Supervisor, Ouachita National Forest

**NATIONAL FORESTS IN MISSISSIPPI**  
**CONTROLLED SURFACE USE STIPULATION No. 1**

Surface occupancy or use is subject to the following special operating constraints:

Oil and gas activities must be conducted in such a manner as to reasonably reduce visibility of the operation to the extent possible.

On the lands described below:

**T13S, R4E, CHICKASAW MERIDIAN**

Witch Dance Horse Trail located in T13S, R04E, Chickasaw Meridian:

Section 18: W1/2 of SW1/4

Section 19: SW1/4 of NW1/4 and W1/2 of SW1/4

Section 30: W1/2 of NW1/4

For the purpose of:

To meet visual quality objectives. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950.)

## NATIONAL FORESTS IN MISSISSIPPI

### NO SURFACE OCCUPANCY STIPULATION No. 2

Surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

No structures shall be erected or wells drilled within 500 feet of the boundary of land under the administrative jurisdiction of the National Park Service unless a site specific analysis would show that occupancy would not detract from visual quality and other values to be protected.

On the lands described below:

#### T12S, R4E, Chickasaw Meridian

- Sec. 3: Part of E1/2W1/2
- Sec. 9: Part of SE corner of E1/2
- Sec. 10: Part of W1/2
- Sec. 16: Part of NE1/4

#### T13S, R3E, Chickasaw Meridian

- Sec. 12: Part of E1/2E1/2
- Sec. 13: Part of E1/2NE1/4
- Sec. 25: Part of SE1/4
- Sec. 36: Part of N1/2N1/2 and S2NE

#### T13S, R4E, Chickasaw Meridian

- Sec. 18: Part of W1/2
- Sec. 19: Part of W1/2
- Sec. 30: Part of W1/2

For the purpose of:

To protect the amenity values of the Natchez Trace Parkway and meet the visual quality objectives of the Land and Resources Management Plan for the National Forests in Mississippi.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3103 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**NO SURFACE OCCUPANCE STIPULATION No. 2**

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

**T25N, R5E, Choctaw Meridian**

Five acres within the SE1/4 of SE1/4, Section 32, T25N, R05E, Choctaw Meridian

An area of 205 acres within the NE4 and E2NW under MOU with NRCS for research.

For the purpose of:

Protection of the Yalobusha Work Center. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be mad in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**TIMING LIMITATION STIPULATION No. 1**

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

Site construction and drilling may be restricted during the wet season from 11/30 thru 3/31 depending on site specific conditions at the time the Application for Permit to Drill is filed.

On the lands described below:

**T25N, R5E, Choctaw Meridian**

Entire Lease

For the purpose of (reasons):

Prevent excessive soil erosion and rutting resulting from construction activities during the wet season. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**NO SURFACE OCCUPANCY STIPULATION No. 2D**

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

**T25N, R5E, Choctaw Meridian**

Sec. 33: SESE, 27 acres

For the purpose of:

Protection of the Jordan lake permitted to Cypress Creek Conservation District for dam and reservoir. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**NO SURFACE OCCUPANCY STIPULATION No. 2A**

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

**T25N, R5E, Choctaw Meridian**

              Approximately 83 acres within the N2SE & SESE

For the purpose of:

Yalabusha County Bd. of Supervisors on Walker and Chestnut Lakes for  
reservoir and storm water storage during flooding. Land and Resource Management  
Plan, National Forests in  
Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**NO SURFACE OCCUPANCY STIPULATION No. 2B**

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

**T25N, R5E, Choctaw Meridian**

Sec. 29: approximately 2 acres within the NWSE

For the purpose of:

Protection of permanent acid rain station site. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

**NATIONAL FORESTS IN MISSISSIPPI**

**NO SURFACE OCCUPANCY STIPULATION No. 2C**

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

**T25N, R5E, Choctaw Meridian**

Sec. 31: approximately 13 acres within the SESW

For the purpose of:

Yalabusha County Bd. of Supervisors on Tillatoba Lake for reservoir and storm water storage during flooding. Land and Resource Management Plan, National Forests in Mississippi, as amended, 9/85.

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

## NATIONAL FORESTS IN MISSISSIPPI

### **LEASE NOTICE No. 3**

All or part of the leased lands may contain animal or plant species classified under the Endangered Species Act of 1973, as amended. Other species may have been identified as sensitive in accordance with Forest Service Manual 2670 and be listed on the current Regional Forester's List of Sensitive Plant and Animal Species. Further information concerning the classification of these species may be obtained from the authorized Forest Officer.

Exploration and development proposals may be limited or modifications required if activity is planned within the boundaries of a threatened, endangered or sensitive plant or animal species location as it then exists. All activities within these areas must be conducted in accordance with existing laws, regulations and the Forest Land and Resource Management Plan guidelines.

### **LEASE NOTICE NO. 4**

All or part of the leased lands may be classified as wetlands in accordance with Executive Order 11990, "Protection of Wetlands" or a floodplain in accordance with Executive Order No. 11988, "Floodplain Management." Further information concerning the classification of these lands may be obtained from the authorized Forest office.

All activities within these areas must be conducted in a manner to minimize adverse impacts to the resource values and in accordance with the Forest Land and Resource Management Plan guidelines.

**STIPULATION FOR LANDS OF THE NATIONAL FOREST SYSTEM  
UNDER JURISDICTION OF  
DEPARTMENT OF AGRICULTURE**

The licensee/permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of the Interior in the license/prospecting permit/lease. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as Forest development roads, within and outside the area licensed, permitted or leased by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operating plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

Forest Supervisor, NFs in Mississippi  
100 W. Capitol Street, Suite 1141  
Jackson, MS 39269  
Telephone No.: 601-965-4391

2,474.00 Acres

\$3,711.00 Rental

Subject to **Special Notification #1, Stipulation #5**-No Surface Occupancy-Study Area, **Stipulation #9**-No Surface Occupancy-Municipal Watershed, **Interim Stipulation #20**-No Surface Occupancy-National Rivers Inventory River, **Special Notification #21**-Fivemile Hollow & Gum Cabin Hollow, **Special Notification #23**-Timing Restriction-MP 6.1-approximately 1525 acres. Subject to USDA-Forest Service, Region 9, Standard Stipulation R-9-2800 (3/83)

**Oil and Gas Lease Stipulations/Notifications**  
Monongahela National Forest  
West Virginia

The notifications and stipulations that follow implement the Oil and Gas Leasing and Development Decision (September 30, 1991) and the resulting Monongahela NF Forest Plan Amendment (#4).

Not every Forest Plan standard and guideline that applies to gas leasing and development is listed as a lease stipulation or notification. Only those that delay operations on a leasehold for more than 60 days, or affect an area larger than 20 acres (contiguous) are listed, except for notification #1 which serves as a general notice to lessee's regarding any operations within the Forest.

**Special Notification #1**

Operations under this lease will be consistent with the standards and guidelines found in the Monongahela National Forest Land and Resources Management Plan (Forest Plan), as revised or amended, and are hereby incorporated into this lease in its entirety. Forest Plan standards and guidelines include restrictions on location, timing and methodology of oil and gas lease operations, and requirements for special surveys that provide for protection of National Forest land and resources. A copy of the Monongahela National Forest Land and Resource Management Plan is available for inspection from:

U.S.D.A. Forest Service  
200 Sycamore Street  
Elkins, West Virginia 26241

**Stipulation #2**

The area shown on the attached map is designated Management Prescription 6.2 to be managed as a semi-primitive area without motorized uses. No surface occupancy or use will be permitted in Management Prescription 6.2 areas to protect the primary semi-primitive, non-motorized recreation objective for these areas.

**Stipulation #3**

The area shown on the attached map is designated Management Prescription 8 which include botanical areas, research natural area candidates, and geologic areas. No surface occupancy or use will be permitted within these areas to protect the primary ecosystem preservation objective for these areas.

#### **Stipulation #4**

The area shown on the map is within a site dedicated to Forest Service or its permittees' administrative facilities, and no gas well sites will be permitted.

#### **Stipulation #5**

The area shown on the attached map is dedicated to scientific study or research, and no surface occupancy will be permitted.

#### **Stipulation #6**

Lands (approximately \_\_\_\_\_ acres) within the lease area are known to contain significant cultural resource sites, and the site will be avoided (no surface disturbance permitted), or other steps must be taken to mitigate the activities' effects.

#### **Stipulations #7**

The area shown on the attached map is underlain by medihemist (wet, organic) soil which are not common in this region and are of scientific interest and value. No surface occupancy or use will be permitted in areas underlain by medihemist soil.

#### **Stipulation #8**

The area shown on the attached map contains wetlands, and no well sites will be permitted within a wetland or its filterstrip. Pipelines and roads will not generally be permitted within a wetland. If a wetland can not be avoided, pipeline and road construction may be allowed as long as the subsurface drainage patterns can be preserved and maintained. Any pipeline or road that would cross a wetland should cross in a way that minimizes total disturbance to the wetland. Any wetland habitat destroyed will be replaced or another wetland enhanced by an equal or greater amount of wetland.

#### **Stipulation #9**

The area shown on the attached map is included in a municipal watershed. No gas well sites or pipelines will be permitted within the topographic boundaries of municipal watersheds.

### **Stipulation #10**

The area shown on the attached map is within a designated Scenic Area. No surface occupancy or use will be permitted within Scenic Areas. No well sites will be permitted within 300 feet of a Scenic Area boundary. To mitigate potential safety hazards and user conflicts, no construction or gas drilling activities will be permitted within 500 feet of a scenic area during its season of use, approximately \_\_\_\_\_ to \_\_\_\_\_. Routine and emergency maintenance of gas developments will be permitted at any time.

### **Stipulation #11**

The area shown on the attached map is dedicated to developed recreation. The following applies:

- No well sites will be permitted within or closer than 300 feet of the boundary of developed recreation sites.
- No new road construction will be permitted. Use of existing roads through developed recreation sites for routine and emergency maintenance of gas developments will be permitted at all times, but use of the road by construction, gas drilling and development traffic and vehicles will not be permitted during the primary recreation season, approximately \_\_\_\_\_ to \_\_\_\_\_.
- No gas pipelines will be permitted within developed recreation areas.
- In order to mitigate potential safety hazards and user conflicts, no construction or gas drilling activities will be permitted within 500 feet of developed recreation areas during the season of use, approximately \_\_\_\_\_ to \_\_\_\_\_. Routine and emergency maintenance of gas developments will be permitted at any time.

### **Stipulation #12**

The area shown on the attached map receives concentrated recreation use, and construction, well drilling and development will not be permitted within designated concentrated use areas during the recreation use season, approximately \_\_\_\_\_ to \_\_\_\_\_. Routine and emergency maintenance of gas developments will be permitted at any time.

### **Stipulation #13**

The area shown on the attached map is located within the Grouse Management area which is dedicated to the management of ruffed grouse for game. No well drilling or construction will be permitted during grouse hunting season, approximately mid-October through February.

#### **Stipulation #14**

Lands within the lease area may contain shale barren rock cress (Federally listed endangered species) or shale barren habitat. Until a recovery plan is completed and approved, the following will be applied:

- Prior to conducting any activity on National Forest System land within Greenbrier County, WV, surveys may have to be conducted to locate and identify shale barrens and shale barren rock cress populations.
- No surface occupancy or use will be permitted within shale barrens or at known locations of shale barren rock cress.

#### **Stipulation #15**

Lands (approximately \_\_\_\_\_ acres) within the lease area contain known population (s) of Cheat Mountain salamander (Federally listed threatened species), and no surface occupancy or use will be permitted within 300 feet of a Cheat Mountain salamander colony. Not all potential Cheat Mountain salamander habitat on the forest has been surveyed. Prior to conducting any soil disturbing or forest canopy reducing activity in potential Cheat Mountain salamander habitat, additional surveys may be required.

#### **Stipulation #16**

Lands (approximately \_\_\_\_\_ acres) within the lease area are in bald eagle (Federally listed endangered species) nesting territory. Gas developments will be subject to the restrictions contained in the breeding area or nest management plan. At a minimum, no surface occupancy or use will be permitted within \_\_\_\_\_ (distance of no more than ½ mile) of a bald eagle nest.

#### **Stipulation #17**

Lands (approximately \_\_\_\_\_ acres) within the lease area are in a peregrine falcon (a U.S. Forest Service, Region 9, sensitive species) nesting territory and no surface occupancy or use will be permitted with 10 chains (660 feet) of a nest or hack site. Well drilling from 660 feet to 2640 feet of an occupied nest or hack site will not be permitted from February 1 through August 31.

### **Stipulation #18**

Lands (approximately \_\_\_\_\_ acres) within the lease area include special management zoological areas (Management Prescription 8) because they contain caves used by Federally listed endangered bats. No surface occupancy or use will be permitted within 200 feet of cave entrances or passages occupied by Virginia big eared bats. Construction and drilling activities will not be permitted within ¼ mile of these caves when they are occupied by Virginia big eared bats, approximately from \_\_\_\_\_ to \_\_\_\_\_ for winter hibernaculums, and from \_\_\_\_\_ to \_\_\_\_\_ for summer maternity sites.

### **Stipulation #19**

Lands (approximately \_\_\_\_\_ acres) within the lease area include areas in which limestone or rock units containing limestone are exposed. In these areas, prior to Forest Service approval of an operating plan, lessees will be required to conduct geophysical surveys or drill pilot holes prior to gas well drilling to establish the presence of caves below the drill site and within 350 feet of any proposed blasting involving greater than 20 pounds. Based upon findings, determine:

- 1) The appropriate well casing design to protect ground water or caves from contamination.
- 2) The acceptable distance and amount of charge that may be safely used if caves were found.

The wells will be moved if the findings indicate the potential for groundwater contamination or damage to caves.

### **Interim Stipulation #20**

The area shown on the attached map is within ¼ mile of a Nationwide Rivers Inventory (NRI) river, and no surface occupancy or disturbance will be permitted until such time that river studies are completed, and management direction is determined.

### **Special Notification #21**

The streams listed contain important cold water fisheries. The following will apply to filterstrips of perennial trout streams (stocked and native) during the period of October 1 to June 1:

- 1) Any earth disturbing activity exceeding 2 consecutive days from Oct. 1 to Jun 1 will only be initiated after consultation with a fisheries biologist.
- 2) Any earth disturbing activity permitted during this period will employ additional erosion control measures such as 1 ½ inches of mulch applied concurrently with the activity.

### **Stipulation #22**

Lands (approximately \_\_\_\_\_ acres) within the lease area include suitable West Virginia northern flying squirrel (Federally listed endangered species) habitat designated Opportunity Area (OA) 832. Consultation with the U.S. Fish and Wildlife Service (USFWS) is required prior to approval of operations within suitable WV northern flying squirrel habitat, with protection measures developed through consultation.

### **Special Notification #23**

Lands (approximately \_\_\_\_\_ acres) within the lease area are being managed for wildlife species requiring remote habitat conditions (Management Prescription 6.1). Between April 15 and August 15 only one gas well will be permitted for drilling, testing and completion at one time within a 10,000 acre area whose center is defined by the well being drilled. Well drilling operations on this area could therefore be delayed up to a maximum of 4 months. In addition, other conditions of occupancy and use that apply to this area result in more restrictive controls than routine areas.

### **Stipulation #24**

Lands (approximately \_\_\_\_\_ acres) within the lease area include habitat managed for the Indiana bat (Federally listed endangered species) (Management Prescription 6.3). Consultation with the U.S. Fish and Wildlife Service (USFWS) is required prior to approval of operations. Gas development operations may be allowed when compatible with management objectives for Indiana bat.

### **Stipulation #25**

Lands (approximately \_\_\_\_\_ acres) within the lease area include special management for zoological areas (Management Prescription 8) because they contain habitat used by the Indiana bat (Federally listed endangered species). No surface occupancy or use will be permitted.

## **Standard Stipulations**

### **Monongahela N.F. (WV)**

The lessee is notified and agrees:

All work and any operations authorized under this permit shall be done according to an approved operating plan on file with the Forest Supervisor at USDA Forest Service, 200 Sycamore St., Elkins, WV 26241. Plans generally require a minimum of 45 days for Forest Service review. Bureau of Land Management must also review and also approve.

Operating plan will contain information the Forest Officer determines reasonable for assessment of (1) public safety, (2) environmental damage, and (3) protection for surface resources. Content of such plans will vary according to location and type of activity and may contain:

1. Steps taken to provide public safety.
2. Location and extent of areas to be occupied during operations.
3. Operation methods including size and type of equipment.
4. Capacity, character, standards of construction and size of all structures and facilities to be built.
5. Location and size of areas where vegetation will be destroyed or soil lay bare.
6. Steps taken to prevent and control soil erosion.
7. Steps taken to prevent water pollution.
8. Character, amount, and time of use of explosives or fire, including safety precautions during their use.
9. Program proposed for rehabilitation and revegetation of disturbed land.

Copies of all permits obtained from State or Federal agencies pertaining to work might be required. Archeological studies, if required, will accompany plan.

The Forest Supervisor or his/her designated agent has authority to temporarily suspend or modify operations in whole or in part due to emergency forest conditions such as high fire danger or other unsafe situations.

The lessee must keep the District Ranger informed about progress of operations to the extent reasonably necessary for assuring public safety. This is especially important with geophysical inventory and testing activities because of their mobile nature. The District Ranger will alert the lessee to circumstances, which may affect safe and efficient conduct of work activities.

Terms of this lease are considered violated if not done according to these stipulations.
