- The estimated damage from invasives worldwide totals \$1.4 trillion—5 percent of the global economy.
- Invasive species and weeds can be transported by wind, water, boats, vehicles, wildlife, and YOU!

HOW CAN YOU HELP?

- Learn to identify aquatic invasive species in your area and be aware of noxious weeds.
- Clean boats, vehicles, animals, and equipment before leaving home and your fishing location.
- Check your waders and other fishing equipment for aquatic hitchhikers.
- Avoid using felt-soled waders.
- Fish in designated waters and travel on established roads and trails.
