

Sportsman's Guide to the CLEARWATER RIVER

The Clearwater Management Council (CMC) represents the counties and associated agencies along the Clearwater River in north-central Idaho. Its mission is to facilitate river recreation for area residents and visitors on the Clearwater River and its tributaries. CMC partners agree to pool funding and cooperatively manage the Clearwater River. Administrative support is provided by the Bureau of Land Management Cottonwood Office.

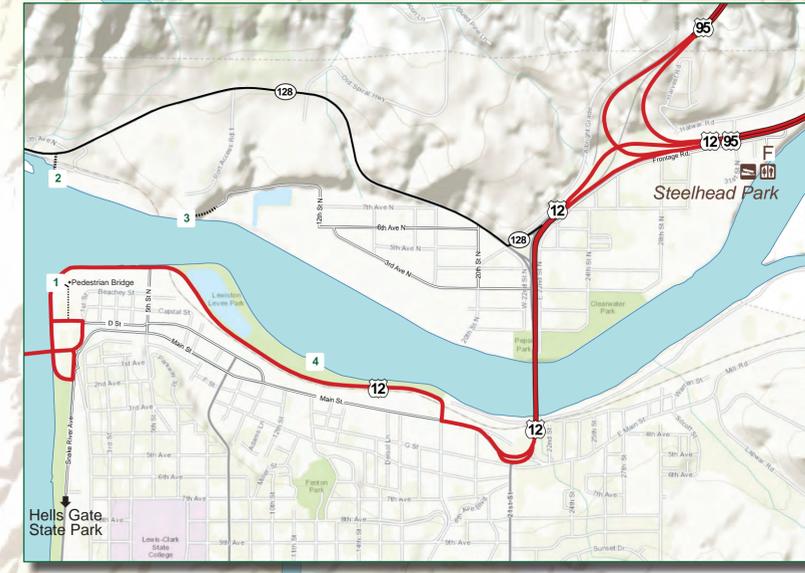

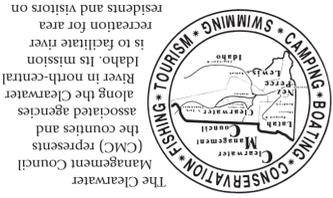

CMC Activities

- Removes over 1,100 pounds of litter from the access sites each month.
- Provides portable toilets, rest stops and solid waste removal along the Clearwater River.
- Installs boat ramps, parking areas, and facilities and acquires easements and rights-of-way to enhance public access.
- Promotes boating safety and the use of licensed Idaho river outfitters and fishing guides.
- Cooperatively monitors and manages the impacts of salmon and steelhead fishing.
- Develops opportunities to educate the public about the river, its fisheries, and history.

CMC County Governments
Clearwater, Idaho, Latah, Lewis, and Nez Perce Counties
