The proposed action is to issue grazing permit for the Rath Allotment (#01346) to the Sackman, Inc who has provided a legal deed for the base property. The electric fence would be authorized along with a deferred grazing system to address concerns with the allotment not meeting Standards for Rangeland Health. This would include fencing the riparian and woody draw and implementing a deferred grazing system on the remaining two public land pastures. The term of the permit for the Rath Allotment will run from March 1, 2014 through February 28, 2024. The grazing cycle will be outlined in the terms and conditions for the Rath Allotment. Under the proposed action the terms and conditions will be issued as outlined below.
