

The following is a summary of oil and gas leasing stipulations and a brief description of each.

The list identifies which field office(s) each BLM stipulation is applicable to, based on the most recent planning documents for each office.

You may access the entire stipulation language in our online library at:

http://www.blm.gov/mt/st/en/prog/energy/oil_and_gas/leasing/stipulations.html

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
Bureau of Land Management		
CR 16-1	CULTURAL RESOURCES LEASE STIPULATION This lease may be found to contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, E.O. 13007, or other statutes and executive orders. The BLM will not approve any ground disturbing activities that may affect any such properties or resources until it completes its obligations under applicable requirements of the NHPA and other authorities.	All Offices
CSU 12-1	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Prior to surface disturbance on slopes over 30 percent, an engineering/reclamation plan must be approved by the authorized officer.	Billings, Miles City, South Dakota, Dillon
CSU 12-2	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Prior to surface disturbance, a surface use plan of operations (SUPO) for oil and gas activities must be approved for black-footed ferret reintroduction areas by the authorized officer in consultation with the U.S. Fish and Wildlife Service.	Billings, Miles City, South Dakota
CSU 12-3	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Prior to surface disturbance, prairie dog colonies and complexes 80 acres or more in size will be examined to determine the absence or presence of black-footed ferrets. The findings of this examination may result in some restrictions to the operator's plans or may even preclude use and occupancy that would be in violation of the Endangered Species Act of 1973.	Billings, Miles City, South Dakota
CSU 12-4	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: All surface-disturbing activities, semi-permanent and permanent facilities in Visual Resource Management (VRM) Class II areas may require special design, including location, painting and camouflage, to blend with the natural surroundings and meet the visual quality objectives of the area.	Billings, Miles City, South Dakota
CSU 12-5	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: No disturbance of riparian areas of wetlands, intermittent, ephemeral, or perennial streams and rivers would be allowed except for essential road and utility crossings.	North Dakota
CSU 12-6	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Operations within Special Recreation Management Areas (SRMAs) must be conducted in a manner that minimizes encounters and conflicts with recreation users. Proposed activities may not alter or depreciate important recreational values located outside of developed areas but within the SRMA boundary.	Dillon
CSU 12-7	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Oil and gas activities will comply with all motorized vehicle use and travel plan	Dillon

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	restrictions, including seasonal restrictions and areas closed to motorized travel.	
CSU 12-8	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: An inventory of the leased lands may be required prior to surface disturbance to determine if cultural resources or paleontological localities are present and to identify needed mitigation measures.	Dillon, Butte
CSU 12-9	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: In areas known to have a high potential for containing significant paleontological resources, the lessee may be required to conduct a paleontological inventory prior to any surface disturbance. If inventory is required, the lessee must engage the services of a qualified paleontologist, acceptable to the Surface Managing Agency, to conduct the inventory. An acceptable inventory report is to be submitted to the BLM for review and approval at the time a surface-disturbing plan of operations is submitted.	Dillon
CSU 12-10	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: All surface disturbing activities and construction of semi-permanent and permanent facilities in Visual Resource Management (VRM) Class II, III, and IV areas may require special design including location, painting, and camouflage to blend with the natural surroundings and meet the visual quality objectives for each respective class.	Dillon, Butte
CSU 12-11	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: A field inspection will be conducted for special status plant species by the lessee prior to any surface disturbance. A list of special status plant species and any known populations or suitable habitat will be provided after the issuance of the lease. Plant species on the list are subject to change over time as new information becomes available. Plant inventories must be conducted at the time of year when the target species are actively growing and flowering. An acceptable report must be provided to the BLM documenting the presence or absence of special status plants in the area proposed for surface disturbing activities. The findings of this report may result in restrictions to the operator's plans or may preclude use and occupancy.	Dillon, Butte
CSU 12-12	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. The BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. The BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. The BLM will not approve any ground-disturbing activity that may affect any such species or requirements of the Endangered Species Act as amended, 16 U.S.C. § et seq., including completion of any required procedure for conference or consultation.	Dillon, Butte
CSU 12-13	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Activities within one-half mile of streams containing 90% up to 99% genetically pure westslope cutthroat trout may be relocated, require special design, or require on and off site mitigation measures to prevent impacts to sensitive trout populations.	Dillon
CSU 12-18	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Prior to surface disturbance on areas of active mass wasting, unstable land areas, or slopes greater than 30 on non-Boulder Batholith soils or 20 percent on Boulder Batholith	Butte

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	soils, an engineering/reclamation plan must be approved by the authorized officer. Such plan must demonstrate how the following will be accomplished: <ul style="list-style-type: none"> •site productivity will be restored. •surface runoff will be adequately controlled. •off-site areas will be protected from accelerated soil erosion. •surface disturbing activities will not be conducted during wet periods. 	
CSU 12-19	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Operations within Special Recreation Management Areas (SRMAs) must be conducted within a manner that minimizes encounters and conflicts with recreation users. Proposed activities may not alter or depreciate important recreational values located within the SRMA boundary.	Butte
CSU 12-20	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraint: Prior to undertaking any surface-disturbance activities on lands covered by this lease, the lessee or operator, unless notified by the contrary by the BLM, shall: <ol style="list-style-type: none"> 1. Contact the BLM to determine if a site specific vertebrate paleontological inventory is required. If it is required, the operator must engage the services of a qualified paleontologist, acceptable to the BLM, to conduct the inventory. An acceptable inventory report is to be submitted to the BLM for review and approval at the time a surface-disturbing plan of operation is submitted. 2. Implement mitigation measures required by the BLM to preserve, avoid or recover vertebrate paleontological resources. Mitigation may include relocation of proposed facilities or other protective measures. All cost associated with the inventory and mitigation will be borne by the lessee or operator. 3. The lessee or operator shall immediately bring to the attention of the BLM any vertebrate paleontological resources discovered as a result of surface operations under this lease and shall leave such discoveries intact until directed to proceed by the BLM. 	South Dakota
LN 14-1	LEASE NOTICE Land Use Authorizations incorporate specific surface land uses allowed on Bureau of Land Management (BLM) administered lands by authorized officers and those surface uses acquired by the BLM on lands administered by other entities. These BLM authorizations include rights-of-way, leases, permits, conservation easements, and recreation and public purpose leases and patents.	Billings, Miles City, South Dakota
LN 14-2	LEASE NOTICE CULTURAL RESOURCES The Surface Management Agency is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures.	Billings, Miles City, South Dakota, North Dakota
LN 14-3	LEASE NOTICE The lessee or operator shall immediately bring to the attention of the Surface Management Agency (SMA) any paleontological resources or any other objects of scientific interest discovered as a result of approved operations under this lease, and shall leave such discoveries intact and undisturbed until directed to proceed by the SMA.	Dillon
LN 14-4	LEASE NOTICE Portions of the lands in this parcel are occupied by a cemetery. As per the Standard Stipulation (May 2001) attached to this lease, occupancy will be excluded from the cemetery and a 300 foot buffer zone around the cemetery.	Malta, Glasgow
LN 14-5	LEASE NOTICE CULTURAL RESOURCES An inventory of the lease lands may be required prior to surface disturbance to determine if cultural resources are present and to identify needed mitigation measures.	Dillon
LN 14-7	LEASE NOTICE	Havre

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	<p>This parcel contains the following occupancy exclusions:</p> <ol style="list-style-type: none"> 1. Exploration and development activity must be conducted with roads constructed to an appropriate standard no higher than necessary to accommodate the intended use. 2. Anti-raptor perch devices are required on all aboveground structures. 3. U.S. Fish and Wildlife Service (FWS) staff responsible for the management of the Creedman Coulee National Wildlife Refuge will be notified of any exploration and development proposals by the Bureau of Land Management. This notice is necessary to provide the FWS an opportunity to participate in the evaluation of any proposed activity on the lease, including on-site inspections before site preparation occurs. 	
LN 14-8	<p>LEASE NOTICE Cultural sites are located in the _____, Sec. __ T. , R. . This parcel is located adjacent to the Lake Mason National Wildlife Refuge. In accordance with 43 CFR 3101.1-2, additional mitigation may be required in regard to exploration and development.</p>	Billings
LN 14-9	<p>LEASE NOTICE CULTURAL RESOURCES The lease is located adjacent to known sacred sites and historic properties, and contains high potential for National Register eligible historic and cultural properties. Lessees are notified that archaeological resource inventory and mitigation costs may be high within this area. A cultural plan of operations will be developed in consultation with the Billings Field Office (FO) and must be approved before field development takes place. All surface use plans will be presented to the Billings FO archaeologist for approval.</p>	Billings
LN 14-10	<p>LEASE NOTICE BLOCK MOUNTAIN GEOLOGIC AREA The Block Mountain Geologic Area has been designated an area of critical environment concern (ACEC). As a result, special mitigation measures may be applied to any applications for permit to drill (APDs).</p>	Dillon
LN 14-11	<p>LEASE NOTICE GREATER SAGE-GROUSE HABITAT The lease may in part, or in total, contain important Greater Sage-Grouse habitats as identified by the BLM, either currently or prospectively. The operator may be required to implement specific measures to reduce impacts of oil and gas operations on the Greater Sage-Grouse populations and habitat quality. Such measures shall be developed during the application for permit to drill on-site and environmental review process and will be consistent with the lease rights granted.</p>	All Offices
LN 14-12	<p>LEASE NOTICE PALEONTOLOGICAL RESOURCE INVENTORY REQUIREMENT This lease has been identified as being located within geologic units rated as being moderate to very high potential for containing significant paleontological resources. The locations meet the criteria for Class 3, 4 and/or 5 as set forth in the Potential Fossil Yield Classification System, WO IM 2008-009, Attachment 2-2. The BLM is responsible for assuring that the leased lands are examined to determine if paleontological resources are present and to specify mitigation measures. Guidance for application of this requirement can be found in WO IM 2008-009 dated October 15, 2007, and WO IM 2009-011 dated October 10, 2008. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or project proponent shall contact the BLM to determine if a paleontological resource inventory is required. If an inventory is required, the lessee or project proponent will complete the inventory subject to the following:</p> <ul style="list-style-type: none"> • the project proponent must engage the services of a qualified paleontologist, acceptable to the BLM, to conduct the inventory. • the project proponent will, at a minimum, inventory a 10-acre area or larger to incorporate possible project relocation which may result from environmental or other resource considerations. • paleontological inventory may identify resources that may require mitigation 	All Offices

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	to the satisfaction of the BLM as directed by WO IM 2009-011.	
LN 14-13	<p>LEASE NOTICE GRASSLAND / WETLAND EASEMENT</p> <p>The lease parcel is encumbered with a U.S. Fish and Wildlife Service wetland and/or grassland easement to restrict draining, burning, filling, or leveling of wetlands and/or protection of grassland depending on the specific easement. The operator may be required to implement specific measures to reduce the impacts of oil and gas operations on wetlands or grasslands on easements. Additional measures may be developed during the application for permit to drill during the on-site inspection as well as the environmental review process, consistent with the lease rights granted and in accordance with 43 CFR 3101.1-2.</p>	North Dakota
LN 14-14	<p>LEASE NOTICE CULTURAL VISUAL SETTING</p> <p>The lease area is within a Setting Consideration Zone (SCZ) which may contain a visual sensitive value in regard to the surrounding cultural setting. The leased lands may require an assessment by the authorized officer to determine the visual impacts of proposed and existing development. The operator may be required to implement specific measures to reduce impacts of oil and gas operations on the cultural visual setting. Such measures would be developed during the application for permit to drill and environmental review processes, consistent with the lease rights.</p>	Miles City
LN 14-15	<p>LEASE NOTICE SPRAGUE'S PIPIT</p> <p>The lease area may contain habitat for the federal candidate Sprague's pipit. The operator may be required to implement specific measures to reduce impacts of oil and gas operations on Sprague's pipits, their habitat and overall population. Such measures would be developed during the application for permit to drill and environmental review processes, consistent with lease rights.</p> <p>If the U.S. Fish and Wildlife Service lists the Sprague's pipit as threatened or endangered under Endangered Species Act, the BLM would enter into formal consultation on proposed permits that may affect the Sprague's pipit and its habitat. Restrictions, modifications, or denial of permits could result from the consultation process.</p>	Billings, Miles City, South Dakota, North Dakota, Malta, Havre, Glasgow
MT 15-1	<p>DRAINAGE</p> <p>All of the lands contained in this lease are subject to drainage by a well located adjacent to the lease. The lessee shall, within 60 days of lease issuance, notify the field office of its plans to protect the lease from drainage or alternatively demonstrate to the authorized officer that a protective well would have little or no chance of producing in paying quantities.</p>	All Offices
NSO 11-1	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy, use or directional drilling is allowed within the boundaries of existing coal leases.</p>	Billings, Miles City, South Dakota
NSO 11-2	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy or use is allowed within riparian areas, 100-year flood plains of major rivers, and on water bodies and streams.</p>	Billings, Miles City, South Dakota, Dillon, Butte
NSO 11-3	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy or use is allowed in the designated Bighorn Sheep Range.</p>	Miles City
NSO 11-4	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy or use is allowed within one-quarter mile of grouse leks.</p>	Billings, Miles City, South Dakota, Dillon, Butte
NSO 11-5	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy or use is allowed within one-quarter mile of designated reservoirs with fisheries.</p>	Billings, Miles City, South Dakota
NSO 11-6	<p>NO SURFACE OCCUPANCY STIPULATION</p> <p>No surface occupancy or use is allowed within one-half mile of known bald eagle nest</p>	Billings, Miles City, South

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	sites which have been active within the past seven years and within bald eagle nesting habitat in riparian areas.	Dakota, Dillon
NSO 11-7	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one mile of identified peregrine falcon nesting sites.	Billings, Miles City, South Dakota, Dillon, Butte
NSO 11-8	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of known ferruginous hawk nest sites which have been active within the past two years.	Billings, Miles City, South Dakota
NSO 11-9	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-quarter mile of wetlands identified as piping plover habitat.	Billings, Miles City, South Dakota
NSO 11-10	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-quarter mile of wetlands identified as interior least tern habitat.	Billings, Miles City, South Dakota
NSO 11-11	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within sites or areas designated for conservation use, public use, or sociocultural use.	Billings, Miles City, South Dakota, Dillon
NSO 11-12	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within designated paleontological sites. ----- No surface occupancy or use is allowed within known paleontological sites.	Billings, Miles City, South Dakota Dillon
NSO 11-13	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within developed recreation areas and undeveloped recreation areas receiving concentrated public use.	Billings, Miles City, South Dakota, Dillon
NSO 11-14	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed in Visual Resource Management Class (VRM) I areas (i.e., wilderness, wild and scenic rivers, etc.).	Miles City
NSO 11-15	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the boundary of State Game Ranges administered by the Fish, Wildlife and Parks.	Dillon, Butte
NSO 11-16	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of North American Wetland Conservation Act/Intermountain Joint Venture (NAWCA/IMWJV) wetland projects.	Dillon
NSO 11-17	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of ferruginous hawk nest sites.	Dillon, North Dakota
NSO 11-18	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of stream containing known populations of 99 to 100% genetically pure westslope cutthroat trout.	Dillon, Butte
NSO 11-19	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of occupied or influencing habitat for fluvial and adfluvial arctic grayling, including the North Fork of the Big Hole River, the Big Hole, the Beaverhead and Ruby Rivers, and tributaries to Upper Red Rock Lake.	Dillon, Butte
NSO 11-20	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from the centerline of Class 1 fishery streams (Blue Ribbon trout streams).	Dillon, Butte
NSO 11-21	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of developed recreation	Dillon

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	sites.	
NSO 11-22	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within, and for a distance of 300 feet from the boundaries of cultural properties and archaeological/historic districts determined to be eligible or potentially eligible to the national register of historic places. This includes cultural properties designated for conservation use, scientific use, traditional use, public use and experimental use.	Dillon
NSO 11-23	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of the boundaries of cultural properties determined to be of particular importance to Native American groups, determined to be traditional cultural properties, and/or designated for traditional use. Such properties include (but are not limited to) burial locations, plant gathering locations and areas considered sacred or used for religious purposes.	Dillon, Butte
NSO 11-24	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-quarter mile of special status plants or populations.	Dillon, Butte
NSO 11-25	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on areas of active mass movement (landslides).	Dillon
NSO 11-26	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of designated National Historic Trails.	Dillon, Butte
NSO 11-27	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of the Continental Divide National Scenic Trail.	Dillon, Butte
NSO 11-28	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on recreation and public purposes leases and patents and on leases and permits authorized under regulations found at 43 CFR 2920.	Dillon, Butte
NSO 11-29	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the Beaverhead Rock, Muddy-Big Sheep Creek and Everson Creek ACECs.	Dillon
NSO 11-30	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the Centennial Sandhills ACEC and within one mile of special status plants that are contained within the Centennial Sandhills ACEC.	Dillon
NSO 11-31	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the Bighorn Sheep core areas in the Hidden Pasture Area and the Greenhorn Mountains reintroduction area.	Dillon
NSO 11-33	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 200 feet of wetlands, lakes, and ponds.	North Dakota
NSO 11-34	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of Prairie Falcon nests known to have been occupied at least once within the seven previous years.	North Dakota
NSO 11-35	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-fourth mile of active sage grouse strutting grounds.	North Dakota
NSO 11-36	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed in the floodplain of the Yellowstone River.	North Dakota
NSO 11-37	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 200 feet of wetlands, lakes or ponds.	North Dakota
NSO 11-38	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of golden eagle nests known to have been occupied at least once within the seven previous years.	North Dakota

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
NSO 11-39	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on lands within the floodplain of the Missouri River.	North Dakota
NSO 11-40	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed in a visible area within a 3.5 mile radius of the Fort Union Historic Site.	North Dakota
NSO 11-41	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 1,000 feet of wetlands, lakes or ponds.	Havre
NSO 11-42	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the bighorn sheep core areas.	Butte
NSO 11-43	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-fourth mile of developed recreation sites, regardless of administering agency.	Butte
NSO 11-44	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of bald eagle nest sites and within bald eagle nesting habitat in riparian areas.	Butte
NSO 11-45	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the boundary of the Recovery Zone for Grizzly Bears.	Butte
NSO 11-46	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the boundary of any prairie dog town.	Butte
NSO 11-47	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of streams containing known populations of bull trout.	Butte
NSO 11-48	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of streams containing known populations of 90-100% genetically pure Yellowstone cutthroat trout.	Butte
NSO 11-49	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of streams that are identified by the BLM as having high restoration potential for westslope cutthroat trout, Yellowstone cutthroat trout, arctic grayling and/or bull trout.	Butte
NSO 11-50	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed in the following municipal watersheds: Missouri River Siphon, Tenmile Creek Drainage, Big Hole River Intake, and Moulton Reservoir.	Butte
NSO 11-51	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile from centerline of stream containing known populations of 90-99% genetically pure westslope cutthroat trout.	Butte
NSO 11-52	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 300 feet of site boundaries and/or districts eligible for or listed on the National Register of Historic Places.	Butte
NSO 11-53	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile either side of the active river channel. This would apply to the following river segment lengths: 3.1 miles of the Upper Missouri River and 2.6 miles of Muskrat Creek.	Butte
NSO 11-54	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within one-half mile of ferruginous hawk nest sites which have been active within the past five years.	Butte
NSO 11-55	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on lands acquired with Land and Water Conservation Funds.	Butte
NSO 11-56	NO SURFACE OCCUPANCY STIPULATION	Miles City

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	No surface occupancy or use is allowed within the Makoshika State Park and surrounding area of management concern except on designated sites identified in the 1999 Decision Record for Oil and Gas Leasing in the Makoshika State Park Area of Management Concern.	
NSO 11-57	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the Terry Badlands limber pine areas.	Miles City
NSO 11-58	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed in Finger Buttes ACEC.	Miles City
NSO 11-59	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on lands administered by the U.S. Fish and Wildlife Service (FWS) within a designated waterfowl production area or National Wildlife Refuge. These lands are managed for the purpose of protecting migratory birds, waterfowl habitat and/or wetland values suitable for breeding waterfowl and other migratory birds.	North Dakota
Standard 16-3	<p>STANDARD LEASE STIPULATION</p> <p>ESTHETICS--To maintain esthetic values, all surface-disturbing activities, semipermanent and permanent facilities may require special design including location, painting and camouflage to blend with the natural surroundings and meet the intent of the visual quality objectives of the Federal Surface Managing Agency (SMA).</p> <p>EROSION CONTROL--Surface-disturbing activities may be prohibited during muddy and/or wet soil periods.</p> <p>CONTROLLED OR LIMITED SURFACE USE STIPULATION --This stipulation may be modified, consistent with land use documents, when specifically approved in writing by the Bureau of Land Management (BLM) with concurrence of the SMA. Distances and/or time periods may be made less restrictive depending on the actual onground conditions. The prospective lessee should contact the SMA for more specific locations and information regarding the restrictive nature of this stipulation.</p> <p>The lessee/operator is given notice that the lands within this lease may include special areas and that such areas may contain special values, may be needed for special purposes, or may require special attention to prevent damage to surface and/or other resources. Possible special areas are identified below. Any surface use or occupancy within such special areas will be strictly controlled, or if absolutely necessary, excluded. Use or occupancy will be restricted only when the BLM and/or the SMA demonstrates the restriction necessary for the protection of such special areas and existing or planned uses. Appropriate modifications to imposed restrictions will be made for the maintenance and operations of producing oil and gas wells.</p> <p>After the SMA has been advised of specific proposed surface use or occupancy on the leased lands, and on request of the lessee/operator, the Agency will furnish further data on any special areas which may include:</p> <ul style="list-style-type: none"> • 100 feet from the edge of the rights-of-way from highways, designated county roads and appropriate federally-owned or controlled roads and recreation trails. • 500 feet, or when necessary, within the 25-year flood plain from reservoirs, lakes, and ponds and intermittent, ephemeral or small perennial streams: 1,000 feet, or when necessary, within the 100-year flood plain from larger perennial streams, rivers, and domestic water supplies. • 500 feet from grouse strutting grounds. Special care to avoid nesting areas associated with strutting grounds will be necessary during the period from March 1, to June 30. One-fourth mile from identified essential habitat of state and federal sensitive species. Crucial wildlife winter ranges during the period from December 1 to May 15, and in elk calving areas during the period from May 1 to June 30. 	Lewistown, Havre, Glasgow, Malta, North Dakota

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	<ul style="list-style-type: none"> • 300 feet from occupied buildings, developed recreational areas, undeveloped recreational areas receiving concentrated public use and sites eligible for or designated as National Register sites. • Seasonal road closures, roads for special uses, specified roads during heavy traffic periods and on areas having restrictive off-road vehicle designations. • On slopes over 30 percent or 20 percent on extremely erodible or slumping soils. <p>APPLICATIONS FOR PERMIT TO DRILL (APDs)--The appropriate BLM field offices are responsible for the receipt, processing, and approval of APDs. The APDs are to be submitted by oil and gas operators pursuant to the requirements found in Onshore Oil and Gas Order No. 1 -- Approval of Operations on Onshore Federal and Indian Oil and Gas Leases (Circular No. 2538). Additional requirements for the conduct of oil and gas operations can be found in the Code of Federal Regulations Title 43, Part 3160. Copies of Onshore Oil and Gas Order No. 1, and pertinent regulations, can be obtained from the BLM field offices in which the operations are proposed. Early coordination with these offices on proposals is encouraged.</p> <p>CULTURAL AND PALEONTOLOGICAL RESOURCES--The SMA is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the SMA, shall:</p> <ul style="list-style-type: none"> • Contact the appropriate SMA to determine if a site-specific cultural resource inventory is required. If an inventory is required, then: • Engage the services of a cultural resource specialist acceptable to the SMA to conduct a cultural resource inventory of the area of proposed surface disturbance. The operator may elect to inventory an area larger than the area of proposed disturbance to cover possible site relocation which may result from environmental or other considerations. An acceptable inventory report is to be submitted to the SMA for review and approval no later than that time when an otherwise complete application for approval of drilling or subsequent surface-disturbing operation is submitted. • Implement mitigation measures required by the SMA. Mitigation may include the relocation of proposed lease-related activities or other protective measures such as testing salvage and recordation. Where impacts to cultural resources cannot be mitigated to the satisfaction of the SMA, surface occupancy on that area must be prohibited. <p>The operator shall immediately bring to the attention of the SMA any cultural or paleontological resources discovered as a result of approved operations under this lease, and not disturb such discoveries until directed to proceed by the SMA.</p> <p>ENDANGERED OR THREATENED SPECIES--The SMA is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determine effects upon any plant or animal species, listed or proposed for listing as endangered or threatened, or their habitats. The findings of this examination may result in some restrictions to the operator's plans or even disallow use and occupancy that would be in violation of the Endangered Species Act of 1973 by detrimentally affecting endangered or threatened species or their habitats. The lessee/operator may, unless notified by the authorized officer of the SMA that the examination is not necessary, conduct the examination on the leased lands at his discretion and cost. This examination must be done by or under the supervision of a qualified resources specialist approved by the SMA. An acceptable report must be provided to the SMA identifying the anticipated effects of a proposed action on endangered or threatened species or their habitats.</p>	
TES 16-2	ENDANGERED SPECIES ACT SECTION 7 CONSULTATION STIPULATION	All Offices

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	The lease area may now or hereafter contain plants, animals or their habitats determined to be threatened, endangered or other special status species. BLM may recommend modifications to exploration and development, and require modifications to or disapprove proposed activity that is likely to result in jeopardy to proposed or listed threatened or endangered species or designated or proposed critical habitat.	
TL 13-1	TIMING LIMITATION STIPULATION No surface use is allowed within crucial winter range for wildlife for the time period December 1 to March 31 to protect crucial white-tailed deer, mule deer, elk, antelope, moose, bighorn sheep and sage grouse winter range from disturbance during the winter use season, and to facilitate long-term maintenance of wildlife populations. This stipulation does not apply to operation and maintenance of production facilities.	Billings, Miles City, South Dakota
TL 13-2	TIMING LIMITATION STIPULATION No surface use is allowed within established spring calving range for elk for the time period April 1 to June 15 to protect elk spring calving range from disturbance during the spring use season, and to facilitate long-term maintenance of wildlife populations. This stipulation does not apply to operation and maintenance of production facilities.	Billings, Miles City, South Dakota
TL 13-3	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 to June 15 in grouse nesting habitat within two miles of a lek. This stipulation does not apply to operation and maintenance of production facilities.	Billings, Miles City, South Dakota
TL 13-4	TIMING LIMITATION STIPULATION No surface use is allowed within one-half mile of raptor nest sites which have been active within the past two years during the time period March 1 to August 1 to protect nest sites of raptors which have been identified as species of special concern. This stipulation does not apply to operation and maintenance of production facilities.	Billings, Miles City, South Dakota
TL 13-5	TIMING LIMITATION STIPULATION No surface use is allowed within one-half mile of occupied ferruginous hawk nests known to be occupied at least once within the seven previous years from March 15 to July 15 to protect ferruginous hawk nesting. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-6	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 through June 30 in nesting and early brood-rearing habitat (defined as within three miles of leks). This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-7	TIMING LIMITATION STIPULATION No surface use is allowed from December 1 through May 15 within big game winter/spring range for wildlife. This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-8	TIMING LIMITATION STIPULATION No surface use is allowed from April 1 through June 30 in elk calving/big game birthing areas to protect mule deer, elk, antelope and moose birthing areas from disturbance and facilitate long-term maintenance of wildlife populations. This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-9	TIMING LIMITATION STIPULATION No surface use is allowed from November 1 through June 30 in bighorn rutting, winter and lambing habitat to protect the habitat from disturbance and facilitate long-term maintenance of bighorn sheep populations. This stipulation does not apply to operation and maintenance of production facilities.	Dillon, Butte
TL 13-10	TIMING LIMITATION STIPULATION No surface use is allowed from February 1 through August 31 in a one mile radius around bald eagle nest sites/breeding habitat to protect nesting sites and/or breeding habitat in accordance with the Endangered Species Act and the Montana Bald Eagle Management Plan. This stipulation does not apply to operation and maintenance of	Dillon

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	production facilities.	
TL 13-11	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 through July 31 within one-half mile of raptor nest sites which have been active within the past five years. This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-12	TIMING LIMITATION STIPULATION No surface use is allowed from April 1 through August 31 within one-half mile of waterfowl production and molting areas to protect these areas from disturbance and facilitate long-term maintenance of waterfowl populations. This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-13	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 through August 31 within one mile of ferruginous hawk nest sites that have been active within the past five years. This stipulation does not apply to operation and maintenance of production facilities.	Dillon
TL 13-14	TIMING LIMITATION STIPULATION No surface use is allowed from December 1 through May 15 within winter and spring range for sage grouse. This stipulation does not apply to operation and maintenance of production facilities.	Dillon, Butte
TL 13-15	TIMING LIMITATION STIPULATION No seismic exploration is allowed within 500 feet of waterfowl nesting habitat from March 1 through July 1 to protect nesting waterfowl. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-16	TIMING LIMITATION STIPULATION No surface use is allowed within one-half mile of occupied prairie falcon nests from March 15 through July 15 to protect prairie falcon nesting. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-17	TIMING LIMITATION STIPULATION No surface use is allowed within two miles of active strutting grounds from March 1 to June 15 to protect sage grouse strutting activities. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-18	TIMING LIMITATION STIPULATION No surface use is allowed on bighorn sheep lambing range from April 1 to June 15 to protect bighorn sheep lambing activities. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-19	TIMING LIMITATION STIPULATION No surface use is allowed on bighorn sheep winter range from December 1 to April 1 to protect bighorn sheep winter range activities. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-20	TIMING LIMITATION STIPULATION No surface use is allowed from April 1 through August 15 to protect Creedman Coulee National Wildlife Refuge wildlife populations and habitats. This stipulation does not apply to operation and maintenance of production facilities.	Havre
TL 13-21	TIMING LIMITATION STIPULATION No surface use is allowed within one-half mile of occupied golden eagle nests from February 15 to July 15 to protect golden eagle nesting. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-22	TIMING LIMITATION STIPULATION No surface use is allowed from June 1 to July 1 to protect elk calving. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-23	TIMING LIMITATION STIPULATION No surface use is allowed on elk winter range from November 30 to May 1 to protect wintering elk. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
TL 13-24	TIMING LIMITATION STIPULATION No surface use is allowed from February 15 to July 15 within one-half mile of occupied golden eagle nests known to be occupied at least once within the seven previous years to protect golden eagle nesting. This stipulation does not apply to operation and maintenance of production facilities.	North Dakota
TL 13-25	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 through July 31 within one-half mile of raptor nest sites which have been active within the past five years. This stipulation does not apply to the operation and maintenance of production facilities unless the findings of analysis demonstrate the continued need for such mitigation and that less stringent, project-specific mitigation measures would be insufficient.	Butte
TL 13-26	TIMING LIMITATION STIPULATION No surface use is allowed from February 1 through August 31 in a one mile radius around bald eagle nest sites. This stipulation does not apply to the operation and maintenance of production facilities unless the findings of analysis demonstrate the continued need for such mitigation and that less stringent, project-specific mitigation measures would be insufficient.	Butte
TL 13-27	TIMING LIMITATION STIPULATION No surface use is allowed from November 1 through June 30 in bighorn rutting, winter and lambing habitat. This stipulation does not apply to the operation and maintenance of production facilities unless the findings of analysis demonstrate the continued need for such mitigation and that less stringent, project-specific mitigation measures would be insufficient.	Butte
TL 13-28	TIMING LIMITATION STIPULATION No surface use is allowed from December 1 through May 15 within winter range for wildlife. This stipulation does not apply to operation and maintenance of production facilities.	Butte
TL 13-29	TIMING LIMITATION STIPULATION No surface use is allowed from April 1 through June 30 in big game birthing areas. This stipulation does not apply to operation and maintenance of production facilities.	Butte
TL 13-30	TIMING LIMITATION STIPULATION No surface use is allowed from March 1 through June 30 in nesting and early brood rearing habitat (defined as within three miles of leks). This stipulation does not apply to operation and maintenance of production facilities.	Butte
TL 13-31	TIMING LIMITATION STIPULATION No surface use is allowed from April 1 to June 30 and from September 15 to October 15 in the grizzly bear distribution zone.	Butte
TL 13-32	TIMING LIMITATION STIPULATION No surface use is allowed within a one mile buffer around wolf dens or rendezvous sites from April 15 to June 30 in the Northwest Montana Recovery Area. This stipulation does not apply to operation and maintenance of production facilities.	Butte
Region 1 Forest Service		
DPG 13d (McKenzie RD)	FOREST SERVICE - Agency lease stipulations.	
DPG 13d (Medora RD)	FOREST SERVICE - Agency lease stipulations.	
DPG NSO 14-1	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed on slopes greater than 40 percent to protect soil resources from loss of productivity, prevent erosion on steep slopes, soil mass movement, and resultant sedimentation.	
DPG NSO 14-4	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 0.25 mile (line of sight) of prairie falcon and burrowing owl nests to prevent reduced reproductive success and adverse habitat loss.	
DPG NSO 14-5	NO SURFACE OCCUPANCY STIPULATION	

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	No surface occupancy or use is allowed within 0.5 mile (line of sight) of golden eagle, merlin, and ferruginous hawk nests; to prevent reduced reproductive success and adverse habitat loss.	
DPG NSO 14-6	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within bighorn sheep habitat MA 3.51 to achieve optimum habitat suitability for bighorn sheep.	
DPG NSO 14-7	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within 0.25 mile (line of sight) of a sharp-tailed grouse and sage grouse display ground to prevent abandonment of display grounds, reduced reproductive success, and adverse habitat loss.	
DPG NSO 14-9	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the established boundaries of Bear Den-Bur Oak, Cottonwood Creek Badlands, Little Missouri River, Mike’s Creek, Ponderosa Pines, Limber Pine, and Two Top/Big Top Research Natural Areas; to maintain natural conditions for research purposes and protect against activities, which directly or indirectly modify the natural occurring ecological processes within the RNA.	
DPG NSO 14-10	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the boundaries of Aspen Stand, The Bog, Grand River Sand Dunes, Black Butte, Black Cottonwood, Riparian Pools, and Roundtop Butte Special Interest Area; to protect the botanical resources.	
DPG NSO 14-11	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within the boundaries of Battle of the Badlands, Custer Trail/Davis Creek, and Square Buttes Special Interest Areas to protect the heritage resources.	
DPG NSO 14-13	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within developed recreation sites to maintain the recreation opportunities and settings within developed recreation sites.	
DPG NSO 14-14	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within boundaries of backcountry non-motorized management areas to retain recreation opportunities in a natural-appearing landscape.	
DPG NSO 14-15	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within ¼ mile each side of the Little Missouri River, to maintain the recreation opportunities and settings within the river corridor.	
DPG NSO 14-16	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within National Register eligible heritage sites to protect the immediate environment of the site.	
DPG TL 15-1	TIMING LIMITATION STIPULATION No surface use is allowed during the following time period(s) March 1 – June 15 within 1 mile (line of sight) of active sharp-tailed grouse display grounds. This stipulation applies to drilling, testing, new construction projects, and does not apply to operation and maintenance of production facilities.	
DPG TL 15-2	TIMING LIMITATION STIPULATION No surface use is allowed during the time period(s) March 1 through June 15 within 2 miles (line of sight) of a sage grouse display ground. This stipulation applies to drilling, testing, new construction projects, and does not apply to operation and maintenance of production facilities.	
DPG TL 15-4	TIMING LIMITATION STIPULATION No surface use is allowed during the time period(s) January 1 through March 31 to maintain the health, vigor, and physical condition of wintering pronghorn by minimizing disturbance on winter range during the critical period.. This stipulation applies to drilling and testing and new construction projects, and does not apply to operation and maintenance of production facilities .	
DPG TL 15-6	TIMING LIMITATION STIPULATION No surface use is allowed during the time period(s) May 1 through December 1 within 0.25 miles of the established boundaries of Burning Coal Vein, Buffalo Gap, Sather Lake, CCC, Campgrounds and Summit, Whitetail Picnic Areas, and the 6 Maa Daa Hey Trail overnight camps; Wannagan, Roosevelt, Elkhorn, Magpie, Beicegel, and Bennett to maintain the recreation opportunities and settings within the area surrounding campgrounds, picnic areas, and recreation trail overnights... This stipulation does not apply to	

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
	operation and maintenance of production facilities.	
DPG TL 15-7	TIMING LIMITATION STIPULATION No surface use is allowed during the time period(s) April 1 through June 15 within 1 mile (line-of-sight) of lambing areas to safeguard lamb survival and prevent bighorn sheep displacement from lambing areas.. This stipulation applies to drilling and testing and new construction projects, and does not apply to operation or maintenance of production facilities.	
DPG TL 15-8	TIMING LIMITATION STIPULATION No surface use is allowed during the time period(s) October 16 – June 14 to provide quality forage, cover, escape terrain and solitude for bighorn sheep. This stipulation applies to drilling and testing of wells and new construction projects, and does not apply to operation and maintenance of production facilities. Limit on-lease activities (operation and maintenance of facilities) to the period from 10 am to 4 pm except in emergency situations.	
DPG CSU 16-1	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to special operating constraints: To protect key paleontological resources from disturbance, or mitigate the effects of disturbance to conserve scientific and interpretive values, and the interests of the surface owner.	
DPG CSU 16-2	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: Try to locate activities and facilities away from the water’s edge and outside the riparian areas, woody draws, wetlands, and floodplains.	
DPG CSU 16-5	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: Operations may be moved or modified to preserve certain geologic type sections for future scientific research, education, and interpretation.	
DPG CSU 16-6	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints. Surface occupancy and use is subject to operational constraints to maintain the Scenic Integrity Objective (SIO) for areas identified as high.	
DPG CSU 16-7	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: Surface occupancy and use is subject to operational constraints to maintain the Scenic Integrity Objective (SIO) for areas identified as moderate.	
DPG CSU 16-8	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to special operating constraints: New developments, including new facilities, roads, and concentrations of humans, within 1 mile of bighorn sheep lambing areas may be moved or modified to be out of view of the lambing areas. This stipulation applies to drilling and testing and new construction projects, not to operation or maintenance of production.	
DPG TES 18a	FOREST SERVICE - Agency lease stipulations.	
DPG 22b	LEASE NOTICE - ROADLESS AREA CONSERVATION RULE Operations such as road construction or reconstruction may be prohibited by the Roadless Area Conservation Rule or subsequent modifications thereof.	
DPG 22c	LEASE NOTICE - ROADLESS AREA CONSERVATION RULE Operations such as road construction or reconstruction may be prohibited by the Roadless Area Conservation Rule or subsequent modifications thereof.	
DPG 23	LEASE NOTICE - LITTLE MISSOURI BADLANDS MILITARY COMPLEX/DAVIS CREEK AND SQUARE BUTTE AREAS Each proposed well, both inside and outside the critical area, will be evaluated individually, and allowed if they can be mitigated to the level of no adverse effect.	
Region 2 Forest Service		
WO-10/05/2006	FOREST SERVICE - Agency Lease Stipulation	
R2-FS-2820-14	NO SURFACE OCCUPANCY STIPULATION No surface occupancy or use is allowed within .25 mile (line of sight) of a sharp-tailed grouse display ground.	

Stipulation Number	Stipulation Name/Brief Description	Field Office(s)
R2-FS-2820-15	TIMING LIMITATION STIPULATION No surface use is allowed during the following time period(s) March 1 through June 15 within 1 mile (line of sight) of a sharp-tailed grouse display ground. This stipulation does not apply to operation and maintenance of production facilities.	
R2-FS-2820-16	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: Surface occupancy and use is subject to operational constraints to maintain the Scenic Integrity Objective (SIO) for areas identified as moderate.	
R2-FS-2820-16	CONTROLLED SURFACE USE STIPULATION Surface occupancy or use is subject to the following special operating constraints: To protect fossils and immediate environment of the site, including inherent scientific, natural historic, interpretive, educational, and recreational values for the area potentially impacted.
