

CORPS OF ENGINEERS STIPULATION

1. The Secretary of the Army or designee reserves the right to require cessation of operations if a national emergency arises or if the Army needs the leased property for a mission incompatible with lease operations. On approval from higher authority, the commander will give the lessee written notice or, if time permits, request BLM to give notice of the required suspension. The lessee agrees to this condition and waives compensation for its exercise.
2. If the commander or the commander's authorized representative discovers an imminent danger to safety or security which allows no time to consult BLM, that person may order such activities stopped immediately. The state BLM Director will be notified immediately, will review the order, and will determine the need for further remedial action.
3. If contamination is found in the operating area, the operator will immediately stop work and ask the commander or commander's representative for help.
4. Lessee liability for damage to improvements shall include improvements of the Department of Defense.
5. Before beginning to drill, the lessee must consult with third parties authorized to use real estate in the leased area and must consider programs for which third parties have contractual responsibility.
6. A license to conduct geophysical test on the leased area must be obtained separately from the installation commander or the District Commander.
7. Civil works only: conditions in BLM Form 3109-2, Stipulation for Lands Under Jurisdiction of Department of the Army Corps of Engineers, or successor form.
