

FORM 1

Documentation of BLM Wilderness Inventory Findings on Record

1. Is there existing BLM wilderness inventory information on all or part of this area?
 No (Go to Form 2) _____ Yes X (If yes, and if more than one area is within the area, list the names of those areas.):

a) Inventory Source: Montana BLM's Initial Inventory (November 1978 – August 1979)

b) Inventory Area Name(s)/Number(s): North Valley/MT-064-363

c) Map Name(s)/Number(s): BLM Montana Wilderness Inventory Maps:
 Final Initial Inventory Map (August 1979)
 Proposed Wilderness Study Decision Map Lewistown & Miles City Districts (March 1980)
 Final Inventory Decision Map Lewistown & Miles City Districts (November 1980)

d) BLM District(s)/Field Office(s): Lewistown/Valley Resource Area

2. BLM Inventory Findings on Record:

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):

Inventory source: Montana BLM's Initial Inventory (November 1978 – August 1979)					
Area Unique Identifier	Sufficient Size? (acres)	Naturalness?	Outstanding Solitude?	Outstanding Primitive & Unconfined Recreation?	Supplemental Values?
MT-064-363	YES (236,640)	--	--	--	--
Comments	Though containing nearly a ¼ of a million acres, this unit is an aggregate divided by roads, Private and State property of significant size, and heavily developed. Little if any of this acreage possesses any remnants of wilderness characteristic. The unit clearly and obviously doesn't meet the requirement for study area status.				
Inventory source: Montana BLM's Intensive Inventory (August 1979 - November 1980)					
Comments					

FORM 2

Current Conditions: Presence or Absence of Wilderness Characteristics

a. Area Unique Identifier Uhlan Coulee -78 Acreage 7,105
(If the inventory area consists of subunits, list the acreage of each and evaluate each separately).

(1) Is the area of sufficient size? (If the area meets one of the exceptions to the size criterion, check "Yes" and describe the exception in the space provided below), Yes X No _____
(Note: If "No" is checked the area does not have wilderness characteristics; check "NA" for the remaining questions below.)

This area contains over 5,000 acres of contiguous BLM-administered lands.

Description (describe the boundaries of the area – wilderness inventory roads, property lines, etc.):

This is a long, narrow unit approximately 6.5 miles north to south and 3 miles at the widest. The boundary is mainly defined by private and State lands as well as the Fort Peck Reservation to the east.

(2) Does the area appear to be natural? Yes _____ No X N/A _____
(Note: If "No" is checked the area does not have wilderness characteristics; check "NA" for the remaining questions below.)

Description (include land ownership, location, topography, vegetation, and summary of major human uses/activities):

Approximately 7% of this unit is currently leased for oil and gas development but no wells have been drilled to date.

This unit contains portions of 6 grazing allotments, 6 miles of interior fences, and several small to medium sized reservoirs. There are approximately 6 miles of vehicular routes throughout the unit.

Big Reservoir, which is occasionally stocked by FWP for recreational fishing, is located in the northwest portion and has an associated maintained access road to it.

Croplands to the east and west are highly visible from within the entire unit. The vehicle route that transects the unit from northwest to southeast is highly used and maintained by private landowners.

Topography is rolling hills and breaks into porcupine creek.

(3) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for solitude?

Yes _____ No _____ N/A X

Description (describe the area's outstanding opportunities for solitude):

(4) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for primitive and unconfined recreation? Yes _____ No _____ N/A X

(Note: If "No" is checked for both 3 and 4 the areas does not have wilderness characteristics; check "NA" for question 5.)

Description (describe the area's outstanding opportunities for primitive and unconfined recreation):

(5) Does the area have supplemental values (ecological, geological, or other features of scientific, educational, scenic or historical value)? Yes _____ No _____ N/A X

Description:

Summary of Analysis*

Area Unique Identifier: Uhlan Coulee - 78

Summary

Results of analysis: (Note: explain the inventory findings for the entirety of the inventory unit. When wilderness characteristics have been identified in an area that is smaller than the size of the total inventory unit, explain why certain portions of the inventory unit are not included in the lands with wilderness characteristics (e.g. the inventory found that certain parts lacked naturalness).)

1. Does the area meet any of the size requirements? Yes No
2. Does the area appear to be natural? Yes No N/A
3. Does the area offer outstanding opportunities for solitude or a primitive and unconfined type of recreation? Yes No N/A
4. Does the area have supplemental values? Yes No N/A

Check one:

The area, or a portion of the area, has wilderness characteristics.

The area does not have wilderness characteristics.
