FORM 2

Current Conditions: Presence or Absence of Wilderness Characteristics

Area Unique Identifier: LS Creek, MT-020-017

Acreage: 9,400 Ac.

(If the inventory area consists of subunits, list the acreage of each and evaluate each separately).

In completing steps (1)-(5), use additional space as necessary.

(1) Is the area of sufficient size? (If the area meets one of the exceptions to the size criterion, highlight "Yes" and describe the exception in the space provided below),

Yes

No

Note: If "No" is highlighted the area does not have wilderness characteristics; check "NA" for the remaining questions below.

Description (describe the boundaries of the area--wilderness inventory roads, property lines, etc.): Public land is boundary, where the public meets private, around the entire unit.

(2) Does the area appear to be natural?

Yes

No

N/A

Note: If "No" is highlighted the area does not have wilderness characteristics; highlight "NA" for the remaining questions below.

Description (include land ownership, location, topography, vegetation, and summary of major human uses/activities):
FAMS road (LS Creek West Fork Rd) transects the unit from north to south. Powerlines and a cross-fence also divide the unit taking away the naturalness. Highway 200 S lies on the north end of unit which is visible from a majority of locations in the unit.

Summary of Analysis *

Area Unique Identifier: LS Creek; MT-020-017

Summary

Results of analysis:

This unit is not recommended as a LWC as the developments are apparent and substantially noticeable.

(Note: explain the inventory findings for the entirety of the inventory unit. When an LWC has been identified that is smaller than the size of the total inventory unit, explain why certain portions of the inventory unit are not included in the LWC (e.g. the inventory found that certain parts lacked naturalness).

- 1. Does the area meet any of the size requirements? Yes No
- 2. Does the area appear to be natural? Yes No N/A
- 3. Does the area offer outstanding opportunities for solitude or a primitive and unconfined type of recreation? Yes No N/A
- 4. Does the area have supplemental values? Yes No N/A

Highlight one:

The area, or a portion of the area, has wilderness characteristics and is identified as Land with Wilderness Characteristics (LWC).

The area does not have wilderness characteristics. Due to the human caused features (powerlines, roads, fences) the unit lacks the naturalness for wilderness characteristics. Additionally, the primitive and solitude characteristics are also hindered due to the above disturbances.
