

Conference Listing

Conference	Dates	Schedule	Location	Overview
Applied Geography Conference 32nd Conference	October 28-30, 2009	Annual	Baton Rouge, LA	The Applied Geography Conferences have provided a forum for the exchange and critique of ideas related to the application of geographic concepts, analytical techniques, data, and methods since 1978. The conference brings together practitioners, academicians, and other professionals who seek geographic solutions and explanations to societal problems.
ESRI Users Conference	July 13-17, 2009	Annual - Always held in San Diego	San Diego California	ESRI users across the globe are invited to attend the world's largest gathering of GIS professionals. Attend user presentations offered in a broad spectrum of tracks. Meet with ESRI staff about your projects. Get a boost in skills and knowledge with an all-encompassing agenda, from preconference seminars to special interest group meetings to the ESRI showcase.
GIScience 2010	November 15-18, 2010	Held every even year	Orlando, Florida	GIScience brings together scientists from academia, industry, and government to analyze progress and to explore new research directions. The conference program aims to attract leading GIScience researchers from all fields to reflect the interdisciplinary breadth of GIScience, including cognitive science, computer science, engineering, geography, information science, mathematics, philosophy, psychology, social science, and statistics.

Conference Listing

Society for Conservation GIS - SCGIS Annual Conference	July 18-21, 2009	Annual	Big Bear Lake, California	The conferences are theme-based, addressing contemporary issues facing conservation efforts at all levels. For conservation GIS practitioners, the SCGIS Annual International Conference is one of the best forums to share their work and collaborate with colleagues.
URISA Conferences	September 29-October 2, 2009	Annual	Anaheim, CA	URISA's Annual Conference and Exhibition features management and policy discussions of IT/GIS issues affecting urban and regional governments. Pre-conference workshops, important keynote and plenary addresses, technical and policy presentations, and networking events are also held at the conference
Intermountain GIS User's Conference	April 6 – 10, 2009	Annual - Moved annually between Idaho and Montana	Coeur d'Alene, Idaho	The conference theme, "Layers of Success – Interconnecting Ideas" is aimed at showcasing the strides and successes GIS and IT professionals are having in the Intermountain Region. We encourage all levels of GIS users, developers, analysts, managers, programmers, and students to present, attend tracks, engage in technical sessions, and attend training workshops about the integration of GIS into everyday business processes.

Conference Listing

2009 ESRI Federal User Conference (UC)	February	Annual- Always held in Washington D.C.	Washington,D.C.	The ESRI Federal UC is the largest geospatial conference dedicated to federal professionals. It brings together GIS analysts, program managers, and agency directors from across the federal government to share information on the "state of the nation" for managing and serving geospatial knowledge
Geospatial '09 Conference (BLM and Forest Service)	April 27-May 1, 2009	Every two years - Spring timeframe	Salt Lake City	Promote information and knowledge sharing among geospatial professionals, field personnel, resource managers, program leaders, and partners. Share technology, skills, ideas, and solutions among members of the geospatial and resource communities. Demonstrate and provide hands-on experiences with the latest in geospatial-related hardware, software, and applications.
Northwest GIS User Group Conference and Training	October 12-16, 2009	Annual - October timeframe	Sunriver, Oregon	Northwest GIS User Group, Inc. is a non-profit organization that provides a forum for training, exchange of knowledge, techniques, and data among the users of ESRI software and related GIS products and services. Its members consist of GIS professionals from across the northwestern United States, including Idaho, Montana, Oregon and Washington.

Conference Listing

GeoWeb	July 27-31, 2009	Annual	Vancouver, BC	GeoWeb conferences focus exclusively on geographic information systems, the Internet, and the economic potential associated with their convergence. GeoWeb 2009 will continue the tradition of focusing on the reciprocal impact of the Web and Geographic Information as well as the ever-increasing need for collaboration in light of global economic and environmental concerns.
ESRI Developers Summit	March 23-26, 2009	Annual	Palm Spring, California	Gain insight and direction from ESRI staff who specialize in the different areas of the ArcGIS platform. ESRI product specialists will be available to discuss ArcGIS Server, ArcGIS Engine, ArcGIS Mobile, .NET, Java, geodatabases, geoprocessing, and more. Meet with ESRI development teams or talk one-on-one to get focused help with your code or give your feedback on future GIS development. Discover tips, tricks, shortcuts, and best practices for your daily programming work.
North Dakota GIS Users Conference	November 2-4, 2009	Annual	Bismarck, North Dakota	This conference is for people using GIS or those who want to learn more about spatial technologies. Persons from the private sector, education, and from Local, state, tribal, and federal government organizations are all invited to attend this conference and exchange ideas and knowledge.
