EMAIL TRANSMISSION – 11/02/2012

Instruction Memorandum No. MT-2013-016

Expires: 9/30/2014

To: Montana Dakotas Leadership

From: State Director

Subject: Rocky Mountain Elk Foundation (RMEF) and Mule Deer Foundation (MDF)
Request for Proposals.

DD: 11/28/2012

Program Area: Wildlife Management

Purpose: The purpose of this Instruction Memorandum (IM) is to solicit project proposals to be considered for funding from the RMEF and MDF.

Policy/Action: Provide project proposals to the Montana/Dakotas State office for submission to the RMEF and MDF. Project proposals must be completed on the RMEF (Attachment 2) and MDF (Attachment 4) official proposal forms. Projects should be submitted through Field Managers to Jake Chaffin, Montana/Dakotas Fish and Wildlife Program Lead.

Timeframe: Please provide RMEF and MDF project proposals that are due to Jake Chaffin, Wildlife Biologist (MT923), by close of business November 28, 2012.

Budget Impact: No impact.

Background: The RMEF has announced their annual request for proposals to be considered at their Project Advisory Committee (PAC) meeting in Missoula, Montana, on January 23, 2013. This request for proposals applies primarily to wildlife habitat restoration and enhancement projects, elk research, and wildlife management projects. PAC funding may also be available to assist with land protection projects, such as acquisitions, conservation easements or access projects.

The RMEF is a nonprofit organization dedicated to conserving elk, other wildlife, their habitat, and the hunting heritage. Through dynamic partnerships with state, federal, and provincial wildlife agencies, the RMEF and its members have helped protect and/or enhance more than 6.1 million acres of elk, and other wildlife, habitat in North America.

The MDF has announced their annual request for proposals to be considered for funding in mid-December 2012. The MDF annually funds mule deer habitat management, research, and public outreach projects.

The MDF is a nonprofit organization dedicated to ensuring the conservation of mule deer, black-tailed deer, and their habitat. As mule deer are the only North American big-game species on the decline, additional funding to help support mule deer habitat improvement and protection projects is very important at this time. MDF annually funds mule deer habitat restoration, wildlife and predator management, research, and public outreach and education projects. The MDF is a non-profit organization dedicated to ensuring the conservation of mule deer, black-tailed deer, and their habitat. Each MDF Volunteer Chapter gets to keep a portion of the funds they raise to spend on local projects, so working closely with local MDF volunteers can enhance BLM's ability to implement effective wildlife habitat projects.

Manual/Handbook Sections Affected: None

Coordination: Development of this IM was coordinated with MT923, Branch of Planning and Biological Resources.

Contacts: All office responses or questions regarding this IM, please contact Jake Chaffin, Wildlife Biologist, at 406-896-5034 or Linda Cardenas, RMEF/MDF Liaison, at 406-523-4580.
