I have reviewed the Expansion of Richard Birdsell (The Northern Rockies Outfitter) Operating Area to include East Butte of Sweet Grass Hills Environmental Assessment DOI-BLM MT-M030-2013-0020-EA including the explanation and resolution of any potentially significant environmental impacts. I have reviewed the ten intensity factors for significance listed in 40 CFR 1508.27 and have determined that the proposed action, along with the design features and grant stipulations described, does not constitute a major federal action and will not have significant effects on the quality of the human environment. Therefore, an Environmental Impact Statement is not required.
