

### Map 2.1

#### Fire Management Units (FMU) Alternatives A & E

- Fire Management Unit
- RMP Boundary
- Interstate
- Highway or State Route
- Towns

Created by the Malta Field Office in December 2012

1:1,750,000

Albers Equal Area, NAD83, Meters

Maps show the Fire Management Units (FMUs) by category for the planning area. Under Category B, unplanned ignitions are likely to cause negative effects. Under Category C fire is desired to manage ecosystems, but current vegetative condition creates constraints on use.

Boundaries are not intended to confer authority, responsibility, or jurisdiction over lands and waters that are not administered by the BLM. Boundaries reflect the fact that these lands and waters are essential components of comprehensively managing unplanned fires.

This map is intended for display purposes. No warranty is made by the Bureau of Land Management as to the accuracy, reliability, or completeness of these data for individual or aggregate use with other data, or for purposes not intended by the BLM. This map may not meet National Map Accuracy Standards. This product was developed through digital means and information may be updated without notification.

**Fluid Minerals Leasing Stipulations  
for Future Leasing  
Alternatives A & B**

Maps show the Oil and Gas Lease Stipulations for Alternatives A and B. Stipulations would apply only to those minerals administered by the BLM.

- Closed To Leasing
- No Surface Occupancy
- Minor Constraints
- Standard Lease Terms Only
- Existing Leases
- Not Analyzed
- County
- RMP boundary
- Interstate
- Highway or State Route
- Town

This map is intended for display purposes. No warranty is made by the Bureau of Land Management as to the accuracy, reliability, or completeness of these data for individual or aggregate use with other data, or for purposes not intended by the BLM. This map may not meet National Map Accuracy Standards. This product was developed through digital means and information may be updated without notification.
