1. Category: Recreation The prairie trail between the Powder River bridge (old highway ten) and the Yellowstone River is nearly unpassable. In the Summer months this trail is used as a fishing access, rock hunting, and historical use. Can't the BLM make some improvement to this so called road?

1. Category: Livestock Grazing We try to manage our grass land, by not overgrazing and resting it. So wildlife and weeds won't take it over.

2. Category: Water It is a very important role for livestock to do well. Fresh water especially if it is distributed around the pastures.
