

### BLM Miles City RMP Scoping Comment Form

Individual respondents may request confidentiality. Individuals who wish to withhold their name or street address from public review or from disclosure under the Freedom of Information Act must state this prominently at the beginning of their written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety. BLM will not accept anonymous comments.

1. Category: Fluid minerals oil and natural gas are crucial to the health of our nation's economy and geopolitical stability. The BLM must ensure that public lands are available to oil and gas leasing and development.

2. Category: Fluid minerals oil and gas operators and leasees care about the public land as much as any other user. If given the opportunity, they will effectively and efficiently recover the fluid minerals present while still protecting other natural resources.

1. Category: Recreation Lack of Access To Our Public Lands is serious Problem. In many cases access is denied block by the Lessee (Grazing) so They can outfitter the land exclusively. No outfitting for anyone if the land is not open to the public. Public Wildlife on Public Land should not be use exclusively by the lessee.

2. Category: Wildlife The overgrazing on some BLM city Rod It is total especial bad when there is open public Access, right before Hunting Season. No grass is left for Wildlife, there needs to be more immediately penalties for bad land Stewardship. If the lessee can use a Road so should the public be able to use the same Road

3. Category: Lands + Realty No Public lands should be sold or traded, only in rare + extreme cases. Once it is sold the Public will never gain it back. With Big Money buy up our State for their Private Playground; the Public lands will be the only place left for the Average Montana Residents Outdoor Recreation.
4. Category: Livestock Grazing There should be ~~less~~<sup>less</sup> grazing of Livestock; and managed more for Public interests (Recreational). Grazing is OK if done properly and doesn't abuse the land, or the lease block public access. I have never heard of BLM ever Revoking a grazing lease; for any reason; Revoking a lease should happen more often, you are to manage the Public land for The Public not the leasee.

1. Category: Fluid Minerals How will the RMP address CBM Development? How will livestock grazing and wildlife be handled while developing CBM?

2. Category: Lands + Realty Will the RMP consider disposing of isolated tracts and parcels that are difficult to manage? These small parcels should be considered for disposal.
