

# United States Department of the Interior

OFFICE OF THE SECRETARY  
Office of Wildland Fire Coordination  
Washington, DC 20240

**APR 04 2013**

## Memorandum

To: Director, Bureau of Indian Affairs  
Director, Bureau of Land Management  
Director, Fish and Wildlife Service  
Director, National Park Service

From: Jim Douglas, Acting Director – Office of Wildland Fire

Subject: Authorization for Use of Government Passenger Carrier(s) for Home-to-Work Transportation

On March 15, 2013 Secretary of the Interior Ken Salazar signed the Authorization for Use of Government Passenger Carrier(s) for Home-to-Work Transportation of those employees essential for the safe and efficient performance of Wildland Fire response. Attached is a copy of the approved authorization for your immediate implementation.

Attachment 1 of the Authorization designates 284 specific positions that are authorized for home to work transportation. Each bureau is responsible for ensuring that only those specific positions utilize the authorized home-to-work use of government motor vehicles. The Authorization is valid for two years at which point it may be updated and recertified. Bureau fire executives and fire directors should monitor and track usage in preparation for updating and recertification.

Each bureau will do the following in implementing this Authorization:

1. Provide a directive to each person authorized the use of Government vehicles for home-to-work transportation. The directive will require that each person be vigilant in ensuring that vehicles are used only for the official purposes intended and will caution that every effort must be taken to preclude the perception that such use is not official. Substantiated incidents of misuse will result in disciplinary action.
2. Require that each person authorized the use of a Government vehicle for home-to-work transportation maintain a log or record to verify that such use was for official purposes.
3. Each bureau may decide the organizational level at which the determinations, directives, logs, or other records should be maintained and kept. These documents should be readily and easily accessible for audit purposes.
4. Establish a procedure for providing management oversight of the use of Government vehicles for home-to-work transportation. The procedures shall include provisions for management review and audits of written authorization determinations, directives, and logs or records.

Future requests should be submitted to this office for review. Home-to-work requests will be considered at the time appropriate to recertify/amend the current Authorization. At the time to update and recertify the current Authorization, each bureau will be required to confirm the need for each determination to justify the continued use of Government vehicles for home-to-work transportation.

As part of its responsibilities for oversight of the Department's wildland fire management program this office will monitor implementation of this Authorization.

Attachment

cc: Bureau Fire Executives  
Bureau Fire Directors

**Authorization for Use of Government Passenger Carrier(s) for Home-to-Work For  
Fieldwork Pursuant 31 U.S.C 1344**

The Secretary of the Interior is satisfied with the provided assurances that the duties for the position/series listed below perform work for the Department of the Interior as defined in FMR Subpart 102-5:

**Locations:**

**Various Departmental and Bureau Locations Throughout US**

**Purpose:**

**To provide immediate and timely response to wildfire incidents as they occur to decrease the loss of life, property, and public and private lands.**

| <u>Title</u>                          | <u>Series</u> | <u>Number of Positions</u> |
|---------------------------------------|---------------|----------------------------|
| Fire Operations Supervisor/Specialist | 455           | 84                         |
| Fire Management Officer               | 401           | 185                        |
| Engine Module Leader                  | 462           | 15                         |

**Total Authorizations 284**

Use of a Government vehicle by those occupying the described positions for home-to-work transportation will substantially increase the efficiency and economy of the DOI under circumstances described, and such use is not for the purpose(s) of the personal comfort or convenience of the employee(s) involved. This determination and approval shall be updated as necessary and recertified every two years.

**Caution:** All users of Government vehicles must be vigilant in ensuring that Government vehicles are used only for official purposes. Employees are to be cautioned that every effort must be taken to avoid creating a perception that the use is not official.

Approved: Ken Salazar  
Secretary of the Interior

Date: MAR 15 2013

## Attachment 1

### **Department of the Interior Wildland Fire Management Program Home-to-Work Transportation Authorization - FY 2012 Request Record**

In accordance with the Department of the Interior Motor Vehicle Management Handbook (April 2008), the following information is included in the request for authorization to use a Government passenger carrier for home-to-work-transportation:

(1) Job title and series number: The designated wildland fire program management positions include: Fire Management Officers (GS-0401), Assistant Fire Management Officers (GS-0401), and Fire Operations Specialists (GS-401/0455/0462).

(2) Duties of the position(s) which require the authorization: The positions designated may require the use of motor vehicles for the safe and efficient performance of field duties, which can include initial response to wildland fires for establishing command and control, and/or providing other leadership and oversight in an emerging incident.

The specific field duties of the Fire Management Officer (FMO) and Assistant Fire Management Officer (AFMO) positions include, but are not limited to:

(a) coordinates and initiates on wildland fires all fire management activities based on firefighter and public safety, cost effectiveness, and values to be protected consistent with resource objectives, by using the full range of strategic and tactical options as described in an approved Fire Management Plan.

b) coordinates operations with cooperating agencies on multi-jurisdictional wildland fires addressing risk to human safety and potential for damages to resources and improvements.

(c) manages the environmental and workplace hazards of the wildland fire environment and provides leadership and direction to subordinates in the recognition and mitigation of these hazards.

(d) responsible for the on-the-job safety and health of all employees supervised.

The specific field duties of the Fire Operations Specialist (FOS) position include, but are not limited to:

(a) assigns missions to ground and aviation wildland fire suppression resources. Makes efficient and effective use of multiple types of interagency wildland fire suppression resources with varying capabilities. Ensures common communications for interagency resources.

(b) provides protection for life, property and resources. Selects strategies and tactics to ensure safe operations for assigned resources. Recognizes potential hazardous situations and provides operational briefings. Initiates contacts with federal, state, and/or local law enforcement personnel as necessary to close roads, evacuate structures, and deal with the public.

(c) participates in development of incident objectives and strategies and tactics, to provide for safe operations and cost effective incident management.

(3) The address of the permanent duty station: The information is provided in the table below.

(4) Type of passenger carrier: The information is provided in the table below.

(5) Justification – clearly citing the beneficial effects of work performance and expected results:

Use of Government passenger carriers for home-to-work transportation by those employee(s) occupying the described positions will substantially increase the efficiency and economy of the Department of the Interior under the circumstances described:

(a) extreme fire danger and/or high potential for above normal fire growth exists where an immediate response can directly reduce the damage to property and resources as well as limit the complexity of an emerging fire which results in lower threats to public and firefighter safety.

(b) response to wildland fire emergencies, or other circumstances, where there is an immediate, unforeseeable, temporary need to provide home-to-work transportation for the uninterrupted performance of the agency's mission, such as during periods of extreme fire danger.

(c) establishing command and control and/or providing fireline leadership in an emerging incident that results in minimizing exposure to firefighters and the public. The need for competent, qualified oversight on all fires is a key factor in reducing the risk profile.
