

## PUBLIC NOTICE

### **Delaware Basin Natural Gas Cryogenic Processing Plant and Pipeline Project**

The Bureau of Land Management (BLM) Carlsbad Field Office is initializing public notice for Navitas Midstream New Mexico, LLC, for the Delaware Basin Natural Gas Cryogenic Processing Plant and Pipeline Project.

The applicant, Navitas Midstream New Mexico, LLC, is proposing to construct a 100 acre natural gas processing plant, associated gathering pipelines (approximately 35.53 miles of main trunkline, approximately 4.21 miles of residue pipeline, approximately 3.97 miles of natural gas liquid pipeline, and approximately 3.05 miles of lateral pipeline), six gas gathering compressor stations, and three downstream interconnect points, located in Lea and Eddy Counties.

An Environmental Assessment will be required under the National Environmental Policy Act (NEPA) and Council for Environmental Quality (CEQ) regulations in order to assess the potential effects of the proposed natural gas processing plant and the associated gathering pipelines, and compressor stations, upon environmental resources in the project area.

Through the internal and external scoping process for the Environmental Assessment (EA), the Bureau of Land Management (BLM) identified and addressed impacts to environmental resources including, but not limited to cultural resources, wildlife, cave and karst resources, soils, rangeland (grazing), noxious and undesirable weeds, visual resource management, and climate and air quality.

Specific details about the project, including description of the proposed project elements, a legal description of the preliminary corridor, and a map are available on the Carlsbad Field Office webpage at: [http://www.blm.gov/nm/st/en/fo/Carlsbad Field Office.html](http://www.blm.gov/nm/st/en/fo/Carlsbad%20Field%20Office.html)

The BLM Carlsbad Field Office must receive comments concerning this proposed project within 30 days from the date of this notice.

**Written comments should be addressed to:**
