### **FINDING OF NO SIGNIFICANT IMPACT**

Based on my review of the City of Farmington – COF 658-BOR power line Environmental Assessment (EA) within the San Juan No. 1 Bald Eagle ACEC, I have determined that a complete and comprehensive environmental analysis has been conducted. The impact identification and analysis of the proposed project and/or alternatives has been completed and the Proposed Action is in conformance with the approved land use plan and will not have any significant impact on the human, natural and physical environment.

Completion of the environmental assessment, along with implementation of required stipulations and/or mitigation measures indicates further analysis in an Environmental Impact Statement is not needed.
