### **FINDING OF NO SIGNIFICANT IMPACT**

Based on my review of the Burlington Resources Oil and Gas Company, San Juan 30-6 Unit No. 104N Environmental Assessment within the Frances Mesa ACEC, I have determined that a complete and comprehensive environmental analysis has been conducted. The impact identification and analysis of the proposed project and/or alternative(s) has been completed and the Proposed Action is in conformance with the approved land use plan and will not have any significant impact on the human, natural, and physical environment.

Completion of the environmental assessment, along with implementation of required stipulations and/or mitigating measures indicates further analysis in an Environmental Impact Statement is not needed.
