Dear BLM,

Copper Flats Copper Mine is in a unique position to help grow our New Mexico economy, add jobs and provide a valuable national commodity. I work for Wagner Equipment Co. and we are a supplier to mining, oil and gas and construction industries throughout New Mexico. A facility like Copper Flats in Sierra County will create much needed jobs, not just for Copper Flats Copper Mine, but for the multitude of suppliers that will support their efforts. This project will not just add jobs but will add high paying jobs that will in turn help drive New Mexico's growth.

I support the intelligent use our natural resources and know that Copper Flats will be a leading member of our mining community in New Mexico. Smart and safe mining techniques at Copper Flats will be employed and I believe it will be an excellent addition to New Mexico's business community.

I encourage the BLM to support and approve Copper Flats for Copper mining in New Mexico.

Thank you,

Brad Cofield

Wagner Equipment Co.

VP Earthmoving Sales/Rental
