I am writing to comment on the Copper Flat Mine that will be run by TheMac Resources.

I am from the Safford AZ. Area and have witnessed firsthand how a new mine can positively impact a community. It creates jobs, creates new businesses and generates revenue for the state and the local community. I have a few employees that reside in the Silver City area and this opportunity would open new doors for them to work. With the Tyrone mine coming to a close and an end in sight for the Chino mine the new mine would allow for jobs that skilled workers would otherwise need to move out of state to create a living.

I encourage you to complete the EIS process without delay.
