Dear Mr. Haywood,

I support New Mexico Copper Corporation's plan to re-open the Copper Flat Mine in Sierra County.

This project will provide much needed high-wage employment to an area of New Mexico with high unemployment and low incomes and it will also bring work to many supporting sectors for a positive impact throughout the State.

Furthermore, the United States needs responsible domestic production of copper and other natural resources. The Copper Flat mine will produce copper and other valuable metals right here in New Mexico and with the proper federal and state regulations in place to ensure protection of workers and the environment.

Furthermore, I have read the Draft EIS prepared by BLM. You are to be congratulated on your good job analyzing the project from an environmental perspective, clearly identifying the issues, and properly laying the groundwork for necessary environmental protection measures. I appreciate the fact you have been thorough in your work and provided time for the public review process.

Please complete the EIS process efficiently and without delay so that New Mexico can begin to benefit from the economic development and jobs that the project will provide. .

Sincerely,
Mark Adams
