I have read in the entirety the DES of the proposed Copper Flat Mine and am most impressed with the level of detail and overall professionalism of the subject document.

I am therefore writing to express my support of the timely approval of the Copper Flat mine for operation in Sierra County. Potential businesses need to know that they can operate in a fair playing field in the state of New Mexico without unreasonable delays. This project will provide much needed direct employment in Sierra County and it will also bring work to many supporting sectors that will be a positive impact throughout the state. Please proceed through the permit process without delay so that Copper Flat may begin hiring workers for construction efforts as soon as possible and other industries can clearly see that New Mexico is open for business.

Thank you for your timely consideration.
