

STATE OF NEW MEXICO | SIERRA COUNTY
PETITION OF SUPPORT FOR COPPER FLAT PROJECT

We, the undersigned residents of Sierra County, New Mexico, support the mining of copper, molybdenum, gold, and silver within the confines of Sierra County; specifically supporting the Copper Flat Mine.

It is our desire to protect the economic base of Sierra County's natural resources in a responsible fashion. The economic base of Sierra County will be enhanced through the development of the Copper Flat Mine. We support the Project and urge the federal and state agencies to grant New Mexico Copper Corporation the necessary permits to initiate construction and begin operations to provide much needed jobs and tax revenue to the county.

STATE OF NEW MEXICO

SIERRA COUNTY

RESOLUTION NO. 100-075

Supporting the mining of copper, molybdenum, gold, and silver within the confines of Sierra County, specifically supporting Copper Flat Mine

WHEREAS, Sierra County is endowed with natural resources including copper which is an important industrial element used in infrastructure, electrical power generation and transmission.

WHEREAS, it is the desire of the Sierra County Board of Commissioners to protect the economic base of Sierra County's natural resources in a responsible fashion; and,

WHEREAS, the economic base of Sierra County will be enhanced through the copper mine development to offset the poor economic times and create jobs for the people of this County; and,

WHEREAS, the quality of life in Sierra County will be enhanced through the development of copper to allow the county to continue to provide efficient and critical services for its citizens; and,

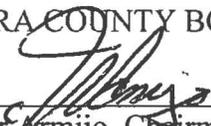

WHEREAS, the renewable energy needs of our County are dependent upon a continued supply of copper; and,

WHEREAS, it is the desire of the Sierra County Board of Commissioners to support businesses that employ local citizens and utilizes proven technologies that provide community safeguards and balance environmental stewardship with copper and other natural resources production.

NOW THEREFORE, BE IT RESOLVED that the Sierra County Board of Commissioners supports and encourages the granting of state and federal permits needed to facilitate the operation of Copper Flat Mine in the County.

PASSED, ADOPTED AND APPROVED THIS 5th day of April, 2012.

SIERRA COUNTY BOARD OF COMMISSIONERS

Walter Armijo, Chairman

Alvin Campbell, Vice Chairman

Bobby Allen, County Commissioner

Connie Greer, County Clerk

Re: Support for Copper Flat Mine Project

Dear Mr. Haywood,

As a resident and taxpayer of New Mexico I am writing in support of New Mexico Copper Corporation's plan to re-open the Copper Flat Mine in Sierra County, NM.

This project will provide much needed employment in Sierra County and also bring work to many supporting sectors for a positive impact throughout the state. Furthermore, the United States needs responsible domestic production of natural resources. The Copper Flat mine will produce copper and other valuable metals right here in New Mexico and I feel we have proper federal and state regulations in place to ensure protection of workers and the environment.

Finally, it is my understanding that the draft Bureau of Land Management (BLM) Environmental Impact Statement (EIS) documents that the proposed mine development would operate within strict environmental regulations to protect human health and the environment while bringing very good job opportunities and tax revenue to New Mexico.

For the above reasons, I ask that you work through the EIS process efficiently and without delay so that we can welcome responsible industry in Sierra County. Thank you for considering my support of the Copper Flat Mine and the fact that the BLM has been thorough in their work, providing time for the public review process.

Sincerely,

Re: Support for Copper Flat Mine Project

Dear Mr. Haywood,

As a resident and taxpayer of New Mexico I am writing in support of New Mexico Copper Corporation's plan to re-open the Copper Flat Mine in Sierra County, NM.

This project will provide much needed employment in Sierra County and also bring work to many supporting sectors for a positive impact throughout the state. Furthermore, the United States needs responsible domestic production of natural resources. The Copper Flat mine will produce copper and other valuable metals right here in New Mexico and I feel we have proper federal and state regulations in place to ensure protection of workers and the environment.

Finally, it is my understanding that the draft Bureau of Land Management (BLM) Environmental Impact Statement (EIS) documents that the proposed mine development would operate within strict environmental regulations to protect human health and the environment while bringing very good job opportunities and tax revenue to New Mexico.

For the above reasons, I ask that you work through the EIS process efficiently and without delay so that we can welcome responsible industry in Sierra County. Thank you for considering my support of the Copper Flat Mine and the fact that the BLM has been thorough in their work, providing time for the public review process.

Sincerely,

Robert S. Godshall 2/26/16

I hope that I am not too late to show my support for the Copper Flat Mine

Allen McCulloch United States, Farmington

Dec 21, 2015

Low energy cost will enhance the mines profitability and replace jobs lost in the energy sector

New Mexico Business Coalition United States, Albuquerque

Dec 18, 2015

The Copper Flat Project is expected to create over 1,000 direct, indirect and induced jobs in Sierra County and other communities around the state.

Economic expansion, increased tax revenue and jobs for New Mexicans provided through environmentally responsible extraction of abundant, rich natural resources in New Mexico? Yes! This is the type of entrepreneurial, risk taking investment needed to help move NM away from having one of the worst unemployment rates in the nation.

If New Mexico is truly 'open for business,' lets get this project started.

Carla J. Sonntag, President, New Mexico Business Coalition.

Larry Sonntag United States, Albuquerque

Dec 18, 2015

New Mexicans need jobs; the world needs copper. New Mexico Copper Corporation will provide both!

Michael Stevens United States

A much needed boost for Sierra County.  

Anita F. Petersen United States, Santa Fe Nov 11, 2015

Our county needs this to be a success!  

Paul J. Petersen United States, Santa Fe Nov 11, 2015

This needs to happen for Sierra County!  

Thomas A. Parkhill United States, Albuquerque Nov 11, 2015

News Mexico needs the Copper Flat Mine to produce copper and new jobs.  

Jeff Cullum United States, Williamsburg Nov 10, 2015

This project will determine the future of this community.It is really needed.  

Steve Jarvis United States, Hobbs

Nov 10, 2015

My family have been longtime residents of Sierra County and the Hillsboro/Kingston area. We feel the mine would provide positive economic value to the area and that THEMAC would develop the resources of the mine in a responsible manner following established State and federal requirements and best practices

susan clark United States, Knox City

Nov 10, 2015

Let's get it up and run give these people here and Sierra County jobs

Bizien Switzerland, Zug

Nov 10, 2015

Professional team dedicated to success.

Darryl Sullivan United States, Bountiful

Nov 10, 2015

Great for Economy.Further job for, those looking.

John Bokich United States, Grants

Nov 10, 2015

Sierra County is one of the most economically challenged rural counties in New Mexico, and the United States. I believe that the Copper Flat Mine, following requirements of the US Bureau of Land Management through the NEPA process, as well as overlapping and comprehensive requirements of the US Environmental Protection Agency, US Fish and Wildlife Service, US Army Corp of Engineers and a number of additional and overlapping requirements by Federal Agencies, as well as the requirements of the New Mexico Energy, Minerals and Natural Resources Department, Mining and Minerals Division, New Mexico Game and Fish Department as well as requirements of the New Mexico Environment Department will comprehensively address and protect environmental resources that have potential for affects from the Copper Flat Project.

The unique potential positive social, cultural and economic affects to the struggling and impoverished Sierra County, the State of New Mexico and the US of America are significant and important at all levels, but especially at the local Sierra County level. There are no other opportunities for such positive effects within the foreseeable future for Sierra County.

Federal, State and Local government should exercise all possible expedience and pragmatic determination to move the project permitting forward and let the much needed and unique economic opportunities to the people of Sierra County be realized.

Anonymous

Nov 09, 2015

Sierra County is the poorest county in NM. We are in desperate need economic development. As I understand the THEMAC plan for environmental impact and aftercare of the land meets all state and federal standards. Please open the mine.

Tim Duke United States, Tulsa

Nov 09, 2015

As a Silver City resident, I look forward to this project as it gains traction. It will be a huge boost to the local economy as other mining properties in our area wain.

Gretchen Campbell United States, Las Cruces

Nov 09, 2015

Gretchen Campbell Elephant Butte NM

Thank you for working so hard to keep this project alive. It will be great for Sierra County

Robert Vise United States, Crockett

Nov 09, 2015

This will be good for the commuit.

Ralph A Gonzalez United States, Albuquerque

Nov 09, 2015

Long time in development and regulatory requirements. Hopefully, there will be no other problems as this will represent a significant boost to the local economy.

Anonymous

Nov 09, 2015

Let's get this project going the county needs the tax dollars.

Monty Brown United States, Lorenzo

Nov 09, 2015

Let's get this ball rolling !

Thomas Sullivan United States, Ypsilanti

Nov 09, 2015

I fully support this project and look forward to continuing to support it. The project and the direct and indirect jobs it will create are a perfect fit for the local area, the State and the Country. The project is situated on a formerly utilized mine site, so redeveloping a brownfield site makes perfect sense.

Jimmy Capps United States, Elephant Butte

Nov 09, 2015

This project will provide a large economic boost for all of Sierra County.

Les Gutierrez, Tectonic Engineering United States, Albuquerque

Nov 09, 2015

The approval of the Copper Flat Project would be major boost the e local Sierra County as well as to the local businesses, and workforce in Truth or Consequences. As an owner of a local residential mobile home park and am excited to hear that THEMAC is very near approval. I urge federal and state agencies to grant NM Copper Corporation the required permits to proceed.

Alma Grantham United States, Roswell

Nov 09, 2015

The area needs the jobs that this project will bring.

William Turner United States, Albuquerque

Nov 09, 2015

This is a project that has been a long time coming. If the Environmental Statement is positive, permit the mine. Politicians talk about creating jobs but when jobs are their and their are no adverse environmental impacts they seem to vote against the jobs. Lets get on with it. Further no one has shown me that there will be any long term problems with water supply. If there are some impacts, grant THEMAC a permit for a Plan of Replacement a statute that I wrote 35 years ago to allow mining and oher types of projects to go forward to move ahead.

Andrew Maloney United Kingdom, London

Nov 06, 2015

This will be a great project for New Mexico and Sierra County

Steven Elam United States, Duluth

Oct 20, 2015

A great project for the people of Sierra County and New Mexico.

I support the Copper Flat Mine Project.

RESOLUTION # 30-11/12

A RESOLUTION SUPPORTING THE COPPER FLAT MINE AS GENERATOR OF JOBS WITHIN THE CONFINES OF SIERRA COUNTY:

WHEREAS, the New Mexico Copper Corporation is proposing to establish the Copper Flat Mine to recover copper, molybdenum, gold, and silver in Sierra County, and

WHEREAS, it is the desire of the City of Truth or Consequences to encourage economic development in the area that benefits job creation, and,

WHEREAS, the City of Truth or Consequences is in favor of appropriate industries that provide jobs which pay competitive wages to keep our younger generation in the community; and,

WHEREAS, these potential jobs will have a multiplier effect on the community's economy allowing other industries to thrive including restaurants, lodging, groceries, fuel, real estate, construction and businesses that provide goods and services; and,

WHEREAS, a healthy and sustainable economy improves the quality of life for all residents in the City of Truth or Consequences; and,

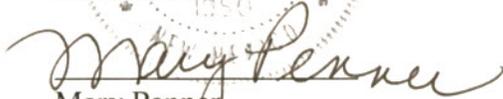

WHEREAS, it is the desire of the City of Truth or Consequences to welcome and support businesses to locate in and near the city and employ local citizens while also demonstrating environmental stewardship with copper and other natural resources production.

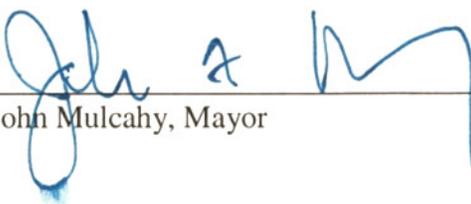

NOW THEREFORE, BE IT RESOLVED that the City of Truth or Consequences urges and encourages the granting of state and federal permits needed to facilitate the operation of Copper Flat Mine in the County.

PASSED, ADOPTED AND APPROVED THIS 24th day of April, 2012.
