Dear Reader:

This environmental assessment (EA No. DOI-BLM-NM-L000-2012-0007-EA) has been prepared to analyze the effects of the Bureau of Land Management's (BLM's) issuance of a right-of-way (ROW) grant constructing, operating, maintaining, and terminating a new refined petroleum products pipe line. The proposed pipeline would traverse numerous surface ownerships including Federal, State, and private land, and would follow a route around the north and west sides of the El Paso area, continuing west through Anthony Gap, and down to Santa Teresa, NM.

Questions and comments regarding the proposal may be directed to Anthony Hom, Realty Specialist, at (575) 525-4331 or email at ahom@blm.gov. Please submit written comments to this office no later than November 13, 2012.

Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment - including your personal identifying information - may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
