|-----------------------|------------------|------------|---|
| Susan Helms           | Coppell, TX      | 2016-02-09 | I'm signing this because it is highly irresponsible to let fracking go on under a lake with a compromised dam & a lake that provides drinking water to many.  |
| Deborah Crumpler      | Coppell, TX      | 2016-02-09 | The dam holding back all the water in Lewisville Lake is under stress already and at a risk of failing. I would think shifting more earth under this Lake could cause even greater issues   |
| Karl Macken           | Coppell, TX      | 2016-02-09 | To protect the environment and drinking source.   |
| Marla Williams        | Coppell, TX      | 2016-02-09 | Fracking under a lake with a compromised dam is NOT a good idea.  |
| Roz Coates            | Dallas, TX       | 2016-02-09 | I live in Dallas, TX, and my city is supplied drinking water from Lake Lewisville. There is too much risk of contamination to drill under Lake Lewisville.  |
| Anissa Irby           | Denton, TX       | 2016-02-09 | This effects my area and homes in the area.   |
| Suzanne Jackowski     | Flower Mound, TX | 2016-02-09 | If could have prevented the Flint water crisis, would you? What about the New Orleans levee failures? Now's your chance. Don't be a tool for Big Energy. Don't buckle to profit-driven politics. No profit is worth these risks. Follow your conscience and protect your fellow citizens.   |
| Carol Bell-Walton     | Dallas, TX       | 2016-02-09 | Because the earthen dam cannot sustain the impact of fracking without being further damaged.  |
| Fulya Bayolken        | Coppell, TX      | 2016-02-09 | I live in Coppell and will be impacted  |
| Judy Loomis           | Coppell, TX      | 2016-02-10 | I'm signing because I care about Lake Lewisville and our community. We don't need has at the expense of everything else.  |
| Dennis Monson         | Cedar Hill, TX   | 2016-02-10 | Fracking near this unstable dam is just plain stupid.   |
| Fatih Bayolken        | Coppell, TX      | 2016-02-10 | I live in Coppell   |
| Marian Weix           | Coppell, TX      | 2016-02-10 | I do not want fracking done at Lewisville Lake!   |
| Jayashree Arunachalam | Coppell, TX      | 2016-02-10 | It is a foolish idea.   |
| Darrell Prichard      | Coppell, TX      | 2016-02-10 | I care about the health and well being of my family. The Lewisville dam is already at a crisis point - there's not evidence that fracking will not exacerbate the problem as well as introduce toxic chemicals into the water.  |
| Emily Polk            | Dallas, TX       | 2016-02-10 | I do not want fracking to occur under Lake Lewisville. The earthquakes that will likely occur will further damage the already questionable stability of the dam. Say nothing for the toxic chemicals that will be shot into the earth under our drinking water. I find it hard to believe that anyone can support this blatant cash grab at the expense of millions of individuals. |
| Carrie Miller         | Dallas, TX       | 2016-02-10 | Fracking has been proven to contaminate the the living environment of hundreds of animal species and the drinking water of thousands. Not to mention the serious threat to the dam and all of the surrounding communities.  |
| Linda Myers           | Coppell, TX      | 2016-02-10 | I am concerned about flooding and water quality. Other fracking areas have created earthquakes around Irving, TX.   |
| Paula doxey           | coppell, TX      | 2016-02-10 | I don't want fracking!  |
| Jennifer Lane         | Denton, TX       | 2016-02-10 | I live here and drinking on this water. This sale is beyond the pale and must be stopped. The documents actually prohibit environmental groups from buying the Rachel's and preventing them from being "developed." How that could even be legal mystifies me.  |

| Name            | Location       | Date       | Comment  |
|-----------------|----------------|------------|--|
| phyllis mlnton  | Denton, TX     | 2016-02-10 | I am a citizen whose drinking water comes from this lake. The Army Corp of Engineers has told us that the dam which holds this lake is fragile and in need of \$8 billion in repairs. I am scared to death about the potential catastrophic damage which could occur from dam failure...before any fracking takes place. Fracking is a danger our area can not gamble with at this location. Have you ever heard of the Army Corp of Engineers?  |
| Carla Verrando  | Coppell, TX    | 2016-02-10 | Fracking under a lake that is the source of drinking water for thousands of people is wrong and against the environment.   |
| Nancy Rogers    | Denton, TX     | 2016-02-10 | This needs to stop. Period.  |
| Jane Cindric    | Denton, TX     | 2016-02-10 | It absolutely makes no sense to allow fracking under Lewisville Lake given its fragility and the earthquakes occurring in the DFW area which have been tied to fracking. As a resident of this area I oppose the fracking under Lewisville Lake.   |
| Heldl Klein     | Denton, TX     | 2016-02-10 | There have been many documented cases of property that has suffered leaking chemicals on the surface from horizontally drilled wells thousands of feet below. The practice of hydraulic fracturing has no business being implemented under a lake that supplies drinking water to hundreds of thousands of people. It would be unconscionable for this deal to take place.   |
| Sharon Moore    | Lewisville, TX | 2016-02-10 | I am against fracking anywhere!!!  |
| Rebekah Barnes  | Coppell, TX    | 2016-02-10 | I'm signing because the Lewisville Lake Dam is already in disrepair, and fracking won't help at all. Also, I am concerned about water contamination, considering this lake is where our city gets its drinking water from.   |
| Nina Austin     | Denton, TX     | 2016-02-10 | Our water source is too important to be auctioned off to the highest bidder.   |
| Chris Sharpe    | Denton, TX     | 2016-02-10 | As a resident of Denton, TX near the proposed fracking sites around Lewisville Lake, I am strongly against the intended fracking near such a vital source of drinking water for thousands of Texas residents. I, too, share the concerns of other citizens as to the condition of Lewisville Lake's dam and the potential for catastrophic damage to communities down-river in the event the dam falls, and I am concerned fracking in the area could increase the likelihood of seismic activity, leading to a higher likelihood of dam failure. As a previous resident of Lewisville, I experienced many earthquakes that originated from fracking sites in Irving, TX, and I would not like to risk similar earthquakes potentially having far more serious consequences near Lewisville Lake. Thank you for your consideration of my concerns. |
| Laty Ramirez    | Coppell, TX    | 2016-02-10 | We are signing because we are concerned about the short and long-term damage to our community.   |
| Marcella Kellam | Lewisville, TX | 2016-02-10 | I'm writing to protest hydraulic fracturing in regard to Lake Lewisville in Texas.   |
| David Goodson   | Coppell, TX    | 2016-02-11 | The Dam on this lake is very unstable and Fracking has shown to create small earthquakes. Not to mention the pollution and I am an avid fisherman on Lake Lewisville.<br>I SAY NO FRACKING ON LAKE LEWISVILLE!!!!  |
| Marsha Keffer   | Denton, TX     | 2016-02-11 | fracking in or around our drinking water is stupid and not necessary.  |

| Name              | Location             | Date       | Comment   |
|-------------------|----------------------|------------|---|
| Daniel Benson     | Lake Dallas, TX      | 2016-02-11 | I believe this is a terrible mistake for many, many reasons, including: <ul style="list-style-type: none"> <li>1. the certain contamination of the aquifers we depend on for drinking water;</li> <li>2 the high potential for contamination of Lake Lewisville, one of the most heavily used lakes for fishing, boating and drinking water in North Texas;</li> <li>3. and the potential for further pollution of the air.</li> </ul>  |
| Deanna Edwards    | Coppell, TX          | 2016-02-11 | Fracking beneath a dam should never happen.   |
| spencer peacock   | PLANO, TX            | 2016-02-11 | I'm signing because I am concerned for my city. I don't think this is safe for our water supply. I don't think this is safe for the dam. This is not safe for you either. Because this is an attack and we aren't going to just take this sitting down.   |
| Robin Higgins     | Lewisville, TX       | 2016-02-12 | Fear of the water contamination, noise pollution and damage to the environment, not to mention the recent earthquakes in the area that only started after drilling began in the area  |
| Frank Vaughan     | Lewisville, TX       | 2016-02-12 | I live close to the dam and am worried about it's possible failure due to fracking induced earthquakes.   |
| Megan Higgins     | Dallas, TX           | 2016-02-12 | I am concerned about the constant fracking without proper environmental studies . We do not know the devastating consequences at hand   |
| Lynn Hall         | Little Elm, TX       | 2016-02-12 | I am completely against this.   |
| Carlos Ortiz      | Lewisville, TX       | 2016-02-12 | It's dangerous and if and when they mess up a, "I'm sorry" is not enough. We must take care of our environment over making a dollar. We are not short on oil and our lake is too important.   |
| Robin Cole Jett   | Lewisville, TX       | 2016-02-12 | This is where I live and I am very concerned that this kind of activity will be detrimental to our water supply, to the flora and fauna that inhabit the Elm Fork of the Trinity River and the Reservoir, and to the integrity of the dam.  |
| Klm Hoppens       | Highland Village, TX | 2016-02-12 | I live by Lake Lewisville (for 25 years) and I've seen what fracking has done to other local communities. We need to stop this dangerous activity in populated areas.   |
| G Brian Stanfield | Highland Village, TX | 2016-02-12 | I am signing because, we (my wife and children), live in close proximity to proposed auction site and are concerned for the well being of our family, as well as our surrounding community and the environment. Until the fracking companies are transparent in the processes of UOG extraction, and it is determined these processes are harmless to the environment and it's constituents, we are imploring the BLM to vote against the auction of ANY land for fracking, and specifically the parcel of land labeled NM-201604-043 258.80 Acres TX TR F-519; TR F-520A; TR F-520B; TR F-524 Denton County, COE-NSO-LEWISVILLE LAKE |
| craig sunderman   | Lewisville, TX       | 2016-02-12 | i do not want drilling on the public land by Lake Lewisville.   |
| Raymond Jett      | Highland Village, TX | 2016-02-12 | I live on the shores of Lake Lewisville and depend on this for drinking water. The dam is already at risk and is a category 2 on impending failure. The added risk to losing and/or poisoning of our water supply by fracking is NOT worth it. This lake supplies water to a huge number of people and a catastrophe on this lake would be disastrous.  |
| Shaun Treat       | Denton, TX           | 2016-02-12 | Do NOT frack!   |
| Dan Baker         | lakewood village, TX | 2016-02-12 | I DO not want to have my community exposed to the potential risks that come from Fracking!  |
| JANET JORDAN      | DUNCANVILLE, TX      | 2016-02-12 | It is the responsible thing to do.  |

| Name               | Location             | Date       | Comment   |
|--------------------|----------------------|------------|---|
| Jody Stafne        | Lewisville, TX       | 2016-02-12 | I want to protect our water source and our community. We DO NOT want fracking here.   |
| Richard Kelp Jr    | Lake Dallas, TX      | 2016-02-12 | there's too much evidence indicating that fracking is a danger to our environment. Lewisville lake is a major source of water for the surrounding communities.  |
| Madeleine White    | Coppell, TX          | 2016-02-12 | This is an irresponsible decision, putting the lives and livelihood of our community at risk. We know fracking is disruptive and will have a deleterious impact on our water quality and the integrity of this dam. These are the risks we can anticipate, but what we don't know about the long term impact of fracking is what concerns us the most. Water is our most threatened resource over the next generation - don't destroy the future for a short term profit. |
| Brian Wells        | Lewisville, TX       | 2016-02-12 | Too many potential hazards near a water source for so many people.  |
| Carolyn Yezer      | Lewisville, TX       | 2016-02-12 | Directly affected by proposed fracking.   |
| Jenny Brown        | Lewisville, TX       | 2016-02-12 | I live by the lake & I don't want fracking.   |
| Virginia Edwards   | Lewisville, TX       | 2016-02-12 | I live by the lake and I DO NOT want fracking/ drilling in my neighborhood either! STOP this now from approval. ...   |
| Jacob Punnoose     | Lewisville, TX       | 2016-02-12 | Please do not disrupt communities around lake Lewisville in the name of development.  |
| Cheryl Oberkleser  | Lewisville, TX       | 2016-02-12 | I don't want fracking near my water supply.   |
| Kristen Corscadden | Lewisville, TX       | 2016-02-12 | I'm signing because I am opposed to fracking underneath Lake Lewisville. There are too many concerns with contaminated drinking water and seismic activity.   |
| Michelle Bartley   | Lewisville, TX       | 2016-02-12 | I live at the lake and I do not want drilling and fracking! PERIOD!   |
| Ed Higgins         | Highland Village, TX | 2016-02-12 | Message for the original petitioner (Daniel Saucedo): Is our signing this change.org petition sufficient, or must we ALSO send a written letter or fax to the BLM physical address. Many folks I know who oppose this believe that only protests in the form of letters or faxes will be considered.  |
|                    |                      |            | I'm against this also, for all the same reasons as all other posts here. Thank you Daniel for creating the petition. Ed   |
| Carrie Moyer       | Midlothian, VA       | 2016-02-12 | No one should worry about having clean water  |
| Marlys Lamar       | Denton, TX           | 2016-02-13 | I am opposed to fracking in Denton, and under Lake Lewisville, which is a water source for the area. I have developed asthma recently, where I have never had it before and attribute some of this to poor air quality due to fracking in Denton. I am afraid of environmental contaminants from fracking in the water supply coming from Lake Lewisville.  |
| Carol Ann Cordell  | Coppell, TX          | 2016-02-13 | I think this is a terrible idea for the lake and environment and surrounding communities.   |
| Mialisa Gluckert   | Coppell, TX          | 2016-02-13 | I oppose any activity that can cause damage to Lake Lewisville, Lake Lewisville dam, and I live in an area that will flood should the dam fail. I also oppose fracking due to the negative environmental impact it has.   |
| Keith Yezer        | Lewisville, TX       | 2016-02-13 | It could upset the natural ecology of lake Lewisville, plus we do not want earthquakes. I currently work in Irving, and it's plausible the quakes have been caused by fracking.   |
| Dale Townsend      | Lake Dallas, TX      | 2016-02-13 | I can not believe that this is even up for debate after all that has been learned about fracking. You guys obviously don't have any concern for life and health. Money, money, money....that's all you care about.  |
| Scott Keen         | Oak Point, TX        | 2016-02-13 | I depend on water wells that draw from the woodbine and the polyx aquifers.   |

| Name                    | Location          | Date       | Comment   |
|-------------------------|-------------------|------------|---|
| cindy meridith          | lewsville, TX     | 2016-02-13 | I am against fracking   |
| Jamie White             | Lewisville, TX    | 2016-02-13 | I do not want there to be any fracking under Lewisville Lake, and I have concerns what may happen if they start fracking there.   |
| Katina Real Katina Real | Lewisville, TX    | 2016-02-13 | Katina Real   |
| Yolanda Leahy           | Flower Mound, TX  | 2016-02-13 | I live near Lake Lewisville and want to preserve it as a safe recreational place for my family and others.  |
| Maura Lyons             | flower mound, TX  | 2016-02-14 | Please do not allow this, the risks are too great for our well being.   |
| Bonita Hestand          | Lake Dallas, TX   | 2016-02-14 | I do not want fracking in my area.  |
| Bedford Walters         | Lewisville, TX    | 2016-02-14 | I believe it is a risky proposition to drill close to the Lewisville dam, we don't know enough about the risk of fracking.  |
| Arthur Lengua           | Lake Dallas, TX   | 2016-02-14 | Do not Frack in the town of Hickory Creek.  |
| Addam Hamilton          | Argyle, TX        | 2016-02-14 | I'm against fracking!   |
| Brad Henderson          | Coppell, TX       | 2016-02-14 | Fracking could very well jeopardize our drinking water. Cause earthquakes. We certainly don't need the oil.   |
| Karen Buszczak          | Hickory Creek, TX | 2016-02-14 | I want a cleaner, safer place to live. I am tired of corporations telling me what to do and how to live. They are interested in me or you only the money. What happens when we are no longer alive. We need to work together so corporations can do well and we can live safer. Where is the common sense anymore. Look what just occurred in Oklahoma 5.1 earthquake.  |
| Jennifer Cowley         | Lewisville, TX    | 2016-02-14 | Against fracking  |
| Patricia Grebner        | Corinth, TX       | 2016-02-14 | I find the risks quite disturbing including the risk of contamination of our drinking water   |
| Barbara Hale            | Carrollton, TX    | 2016-02-14 | I live in the area as do my children and grandchildren. The earthen Lake Lewisville dam is already one of the most hazardous dams in the country. We need to do everything possible to alleviate further risks.   |
| Ruben Jasso             | Lake Dallas, TX   | 2016-02-14 | I don't want Fracking anywhere near Lake Lewisville, or Denton County.  |
| Michelle Cohen          | Coppell, TX       | 2016-02-14 | We have already been warned about the instability of the dam...how can we consider anything that makes it vibrate?  |
| Mudit Kumar             | Lewisville, TX    | 2016-02-14 | Fracking on Lake Lewisville with severe Dam issue is a VERY dangerous and risky idea. Bad idea.   |
| Paul Boatman            | Denton, TX        | 2016-02-14 | Stupid idea to do anything that risks clean water supply  |
| Robert Till             | Lewisville, TX    | 2016-02-14 | Prevent fracking on the lake  |
| Daisy Haley             | Lake Dallas, TX   | 2016-02-15 | The possibility of contaminating the DFW water supply or causing minor earthquakes or shifting that could further compromise or even break the dam preventing Dallas from flooding is just not worth it.  |
| Rita Mayle              | grepevine, TX     | 2016-02-15 | I have seen changes in this area since the fracking debate has grown and opened the eyes of many of the citizens. I have made an effort to research and learn about the two sides of this debate. Let me state that I prefer to err on the side of safety. There are too many questions not answered. Too many strange changes in health, in water and air quality and earthquakes in areas where they've not occurred in recorded history. Something is wrong here and this plan to begin fracking under a man made lake with dams that, if compromised, would threaten so many.....where is the question here? It is clear this isn't a good idea at all. |
| Michele Babler          | Flower Mound, TX  | 2016-02-15 | I'm in the path of a devastating catastrophe if and WHEN fracking causes even a small earthquake...Lewisville Dam is already in a fragile state and any further movement could cause a disaster. Not a fan.   |

| Name                | Location         | Date       | Comment   |
|---------------------|------------------|------------|---|
| Michelle Epperson   | Lewisville, TX   | 2016-02-15 | Don't want to take the chance on contaminating/poisoning our water supply.  |
| Suzanne CIlnessmith | Carrollton, TX   | 2016-02-15 | We need no more fracking  |
| James Neve          | Frisco, TX       | 2016-02-15 | I live by the lake. Just south of Denton. I do not approve of fracking, and even more I hate when popular opinion is over-ridden by corporate interests.  |
| Sue Ann Lorig       | Los Gatos, CA    | 2016-02-15 | I oppose fracking anywhere. It cannot be done safely and should be stopped.   |
| shannon summerlin   | Flower Mound, TX | 2016-02-15 | This will be a potential catastrophe!   |
| Jane Munsch         | Lewisville, TX   | 2016-02-15 | I moved to Lewisville because of the small city atmosphere. And I love our recreational areas that include camping, fishing and just the beautiful outdoors in our community. Fracking would not only disrupt our way of living here but also destroy the eco-system that we have been working so hard to bring back to our area. |
| Mary Swaim          | The Colony, TX   | 2016-02-15 | Threat to drinking water supply for major municipal area and unknown long term effects of hazards to ground water. Potential earthquake risk connection to already threatened dam that is crucial protection to major metropolitan areas.   |
| sunny McCann        | Lewisville, TX   | 2016-02-15 | I am concerned about the safety of our drinking water.  |
| Rochelle Mortensen  | Flower Mound, TX | 2016-02-15 | I care about the safety of our water supply and the safety of those living in the path of the water flow should earthquakes further damage the dam.   |
| Elaine Kaster       | Lewisville, TX   | 2016-02-15 | I am concerned about water contamination.   |
| Kevin Kossmann      | Lewisville, TX   | 2016-02-15 | I do NOT want my water to be contaminated!!   |
| Tim Tench           | Carrollton, TX   | 2016-02-15 | Protecting lake Lewisville is more important.   |
| Jill Zitelinski     | Flower Mound, TX | 2016-02-15 | It's such bad and greedy idea to explore or frack or in any other way mess with a water supply for so many people. You can do better. Please do.  |
| Sarah Henry         | Carrollton, TX   | 2016-02-15 | I LIVE DOWNSTREAM FROM THE DAM. I DRINK THIS WATER. No, no....and NO!!!   |
| E Mullins           | Flower Mound, TX | 2016-02-15 | The contamination of our local environment, including our water supply, is unacceptable. Please choose people over big business and block fracking under Lake Lewisville.   |
| DONNA Hobden        | Lewisville, TX   | 2016-02-15 | I do believe drilling for gas is a good thing for North Texas. However- I strongly believe that doing so UNDER our only water supply, is risky and irresponsible given the compromised safety condition of our dam , and<br>SHOULD BE STOPPED!<br>The RISK is not worth the REWARD.<br>Donna HOBDEN                               |
| Deborah Glaeser     | Lewisville, TX   | 2016-02-15 | We just learned of proposed fracking that is about to begin. The location would ruin the recreation sight and probably cause environmental damage, earthquakes and pollution of our water supply. This is too high a price for too many. Stop fracking.   |
| Lugene Friedholm    | Dallas, TX       | 2016-02-15 | Fracking has been PROVEN to cause irreparable harm to waterways and grounds, not to mention the earthquakes. We DO NOT WANT FRACKING! PERIOD. There are multiple other safer renewable energy sources to explore. This dangerous practice is destroying resources that CANNOT be recovered! PLEASE DO NOT allow this!!            |
| Angela Laukattis    | Lewisville, TX   | 2016-02-15 | My sons middle school is within a mile from the lake. Any potential upset of the already unstable dam is scary  |

|------------------|----------------------|------------|---|
| Pamela Stevenson | Allen, TX            | 2016-02-15 | I'm signing because I grew up on this lake, my parents own property on this lake and we buy and sell real estate on this lake. We don't need more earthquakes, risks to our water, risks to the wildlife or declining property values. Go somewhere else.   |
| Shirley Rector   | Little Elm, TX       | 2016-02-15 | Fracking in this area potable water resource endangers the entire human community relying on that source of drinking water, and adds to the inherent dangers found with gas-line failures.  |
| Candice Reaser   | Lewisville, TX       | 2016-02-15 | I'm not convinced those doing the work are as knowledgeable as they portray themselves, nor am I convinced it won't pollute our lake, etc. Leave our lake alone!  |
| Ricky Lakey      | Flower Mound, TX     | 2016-02-15 | Common sense. Fracking is dangerous.  |
| Kris Jones       | Little Elm, TX       | 2016-02-15 | I would like to see Lake Lewisville stay as it is without any impediments or potential health / nature risks.   |
| Dianne Jones     | Wilsonville, OR      | 2016-02-15 | There is too much emphasis on money and not enough on what is good and healthy for people and nature.   |
| Suzy Brazeel     | Lewisville, TX       | 2016-02-15 | No fracking should ever be done this close to water supplies. Never!! Millions of us depend on this water and we don't want it contaminated.  |
| Alex Feldhahn    | Denton, TX           | 2016-02-15 | This is a large source of fresh water for Dallas and the surrounding metroplex. One mistake and it will be contaminated. Sign and help put these money mongers to rest, and keep our local water safe.  |
| Leah Odom        | Mount Savage,, MD    | 2016-02-15 | I am a native son of Lewisville, and grew up in Old Town near the lake. Spent many hours wandering the woods that no comprise the LLELA. We visit each year and spend many more with our family. The threats of fracking or obvious and real. The data is clear. Please don't threaten the habitats and communities over a short sighted need for cheap energy. For our children and grandchildren.   |
| Rowyn Peel       | Takoma Park, MD      | 2016-02-15 | I prefer to live on a habitable planet  |
| Kelly Cassell    | Flower Mound, TX     | 2016-02-15 | I'm signing because this is absolutely 100% wrong, dangerous and puts my town and cities and towns around us at risk!   |
| Nicholas Abshler | Flower Mound, TX     | 2016-02-15 | Do not want this  |
| Steven Ellenberg | Highland Village, TX | 2016-02-15 | Fracking produces toxins that will eventually end up in our drinking water and fracking destabilizes the earth and could threaten the dam.  |
| Heather Hofer    | Flower Mound, TX     | 2016-02-15 | I do not my water contaminated.   |
| Michael Thomas   | Lewisville, TX       | 2016-02-15 | I have a number of concerns. The instability of the Lake Lewisville Dam and its potential failure causing devastation and even death to over 400,000 people and leaving millions without potable water. Any potential for contamination of the lake due to possible spills and leakage of containment units should negate the auction of the parcels outright. Additionally, I believe it is a travesty that only a lesser EA was conducted and not a more stringent and through EIS. |
| Cynthia Jan      | Carrollton, TX       | 2016-02-15 | No fracking under Lake Lewisville!  |
| Tyler Forehead   | Lake Dallas, TX      | 2016-02-15 | It's not good   |
| Don Osborne      | Dallas, TX           | 2016-02-15 | Lewisville is my home-town, & I have to many wonderful memories of being on that lake to set idly by, doing nothing?!<br>DAO II.  |
| August Azzarello | Denton, TX           | 2016-02-15 | This is drinking supply water, dammit. Stop the madness.  |

| Name                  | Location             | Date       | Comment   |
|-----------------------|----------------------|------------|---|
| Dawn Lee              | Flower Mound, TX     | 2016-02-15 | I am opposed to the environmental impact of fracking, the unregulated and undisclosed chemicals in fracking fluid and a potential repeat of the proven devastating health impacts fracking has had in other areas and the impact this could have on my family, home and property value.   |
| Linda Spata           | McKinney, TX         | 2016-02-15 | I'm concerned about the potential for earthquakes and other environmental issues that have been associated with fracking.   |
| Christyn Bailey       | Lewisville, TX       | 2016-02-15 | This is my city and I do not want this for our area.  |
| Kyle Green            | Lewisville, TX       | 2016-02-15 | Lake Lewisville is the primary drinking source for thousands of not millions of people. The risk is too great to allow fracking, as well as the likely and possible link to increased seismic activity.   |
| Daniel Dehnel         | Lewisville, TX       | 2016-02-15 | My family and I live in Lewisville.   |
| amos gouaux           | Dallas, TX           | 2016-02-15 | I am signing this because it seems extremely irresponsible to conduct such activity so close to a crucial water supply. Do we really want to risk a fiasco similar to what happened in Flint, MI?   |
| Diana Prichard        | Lake Dallas, TX      | 2016-02-15 | There is a point where the people affected by an onslaught of corporate greed have to put their collective foot down and say no. We must recognize that there is a right to clean water and we don't want to become another Flint. Also what is the rush to drill here anyway? The price per barrel is so low no one is drilling in the U.S.  |
| Suzanne Lindsay       | Lewisville, TX       | 2016-02-15 | I don't want that dam to break and wash us all away!  |
| Tom Ware              | The Colony, TX       | 2016-02-16 | We don't need anymore wells in Denton Co.   |
| Pam Holcomb-McLain    | Heath, TX            | 2016-02-16 | I grew up in Lewisville, and my parents still live in the area. I care about the community and the damage that fracking leaves behind.  |
| Katherine Adler       | Highland Village, TX | 2016-02-16 | All of the reasons stated in the letter.  |
| Amy Smith             | Carrollton, TX       | 2016-02-16 | Please consider the potential collateral damage and stop thinking just about money and re-election bids. Is science and hard evidence just too much to understand? You are smart people. Make the decision that betters our society as a whole and not just who will be padding your campaign with contributions next election cycle.   |
| Caleb Lund            | Wylie, TX            | 2016-02-16 | Although I'm not convinced of the evils of fracking, in general, I am concerned about the potential dangers to the Lewisville Dam. I would strongly prefer significant study of the subject, and solutions implemented, before any operations commence.   |
| Andrew Edgerton       | The Colony, TX       | 2016-02-16 | I drink water.  |
| Gwen Sparkman Whiddon | Carrollton, TX       | 2016-02-16 | I don't want anything done with a 1000 miles of Lake Lewisville that will cause ground instability, dam collapse, drinking water contamination. This is our water supply people. Can you imagine the impact of a contaminated lake in a drought like the one we just survived.  |
| Jesse Lee             | Flower Mound, TX     | 2016-02-16 | I am against drilling in my neighborhood  |
| waqass anwar          | carrollton, TX       | 2016-02-16 | Please visit your neighboring towns (Dish Texas) to see what fracking does to the environment. Or visit Oklahoma to feel the daily tremors and property damage. Only someone with no regard for safety of ordinary citizens will want to add insult to injury by proposing fracking near Lake Lewisville - it is already threatening to breach and flood Carrollton, Lewisville, Flower Mound and Irving and Coppell. |
| Lisa McKenna          | Flower Mound, TX     | 2016-02-16 | I'm against fracking and the dangers involved especially under a lake where my drinking water comes from.   |
| Denise Feeney         | The Colony, TX       | 2016-02-16 | We need to protect our natural resources for future generations.  |

| Name              | Location           | Date       | Comment   |
|-------------------|--------------------|------------|---|
| Jannan Logan      | El paso, TX        | 2016-02-16 | I'm signing this because I frequent lake lewisville.  |
| Sylvia McGehearty | The Colony, TX     | 2016-02-16 | The dam is extremely unstable. Also the lake provides drinking water for many people.   |
| Linzl Pumpelly    | Westminster, CO    | 2016-02-16 | I believe fracking is dangerous to the earth and to our already dwindling water supply  |
| Mary Pinter       | Flower Mound, TX   | 2016-02-16 | Stop the drilling.  |
| Judi Halner       | Hendersonville, NC | 2016-02-16 | I'm signing because the earthquakes in Oklahoma have been linked by Geologists to fracking and Lewisville is my home town where my family still live.   |
| Antonlo Rodriguez | Amarillo, TX       | 2016-02-16 | U am signing because framing is a very bad idea. We must invest in a better future not in easy fixes to get quick money. Save the planet . I Love.  |
| Neil Alvarez      | Fort Worth, TX     | 2016-02-16 | The Lewisville Dam is already on the brink of disaster. Without getting fixed we are looking at the very real chance that the damn will flood and drown a large part of the Lewisville/Flower Mound area, including those areas that follow along the Trinity River where the dam spills out into. This will flood many highly populated areas. If we allow for Oil and Natural Gas leases to be sold to fracking and drilling companies then we will further destabilize the land under the lake and further guarantee the malfunction of the dam risking the lives of hundreds or thousands of innocent people. |
| Sherry Holcomb    | Middleton, WI      | 2016-02-16 | I'm signing because I'm from Lewisville and my parents are still in the area.   |
| Charlene Bonner   | Lewisville, TX     | 2016-02-16 | I live very near the lake, have been in this house since 1970. I am adamant in desiring that Lake Lewisville, a water source for the area, be left in tainted by these activities. As the daughter of an oilman, I voiced warnings to people selling their mineral rights for quick, easy money.  |
| John Haley        | Lake Dallas, TX    | 2016-02-16 | The causation evidence of fracking and local earthquakes is overwhelming. There are hundreds of thousands of people living down stream of the compromised dam. Find an insurance company to underwrite the potential losses of this venture and include its' cost to the benefactors of this venture prior to any consideration of proceeding.<br>I also do not want fracking fluid is such close proximity to my drinking water supply.  |
| Jim and Kate Kohl | garden ridge, TX   | 2016-02-16 | I'm signing to protect lives of humans, animals, water quality and beauty of our lake.  |
| Shannon Stevens   | The Colony, TX     | 2016-02-16 | I'm signing because I live near the affected area and am totally against fracking anywhere.   |
| Shelby Smith      | Hot Springs, AR    | 2016-02-16 | My family lives there and the evidence against fracking that was presented was eye opening.   |
| Raina Benli       | Plano, TX          | 2016-02-16 | I'm adding signing because my friends and family are experiencing almost dally tremors in Oklahoma due to fracking, the countless claims by regular folks of water toxicity from fracking, the damn dam instability, and the fact that pumping the earth with toxic chemicals is wholly irresponsible.<br>We can do better, we should do better, for futures sake.  |
| Ayaz Sheikh       | Irving, TX         | 2016-02-16 | I live in the Las Colinas, Irving area and have felt the effects of fracking first hand with 100 plus earthquakes.<br><br>I strongly oppose the idea of any fracking anywhere.  |
| Sellna Salomon    | The Colony, TX     | 2016-02-16 | I do not want to put our water & land up to any risk imposed by fracking  |
| Jennifer Sawyer   | Double Oak, TX     | 2016-02-16 | Please do not Frack Lewisville Lake.  |

| Name                | Location            | Date       | Comment   |
|---------------------|---------------------|------------|---|
| Lona Carver         | Princeton, TX       | 2016-02-16 | That is my home town. You will be destroying the lake. The people who still live there. That's wrong!!!!  |
| Virginia Ring       | Flower Mound, TX    | 2016-02-16 | This is a terrible idea   |
| lakshmi Jay         | Irving, TX          | 2016-02-16 | We live in Coppell. There are families with children growing up in these neighborhoods. Lake Lewisville is in our backyard, the source for our water supply. No fracking here please. Let's keep the environment clean and safe for all of us and the next generation!  |
| Ileana Suchta       | The Colony, TX      | 2016-02-16 | I am signing because I live by the lake and want no part of this ruining our resources, water and lake amenity.   |
| Ann Webster         | Lewisville, TX      | 2016-02-16 | I just moved to a house very close to Lake Lewisville and I have two young children   |
| Ray L               | Beverly Hills, CA   | 2016-02-16 | The overwhelming scientific evidence that fracking causes earthquakes, environmental damage, and ecosystem destruction concerns me as someone who lives next to this lake.  |
| Deborah Beltran     | Dallas, TX          | 2016-02-16 | This is not only insane, it is immoral.   |
| Sheamus Byrne       | College Station, TX | 2016-02-16 | I'm signing because the Lake Lewisville dam is already one of the MOST FAILURE PRONE dams in the entire United States. Anything that would cause increased seismic activity in the area near the dam is an incredibly dangerous idea. Please no fracking under or anywhere near the Lake Lewisville.  |
| Christine Busch     | Lewisville, TX      | 2016-02-16 | I don't want Lewisville to become another Flint, Michigan. Lewisville has one of the best water ratings and many cities depend on it. I think the risk is far too great. Do the right thing and pick somewhere else to drill.   |
| Jonathan Burns      | Lake Dallas, TX     | 2016-02-16 | Because I've seen what fracking can do to ground water. Plus disposal wells not properly made. I for 1 am against fracking under lake Lewisville  |
| Craig Broussard     | Carrollton, TX      | 2016-02-16 | Resident close by and do not want this in my area   |
| Randall Anderson    | Lewisville, TX      | 2016-02-16 | You can't convince me fracking didn't cause real problems...  |
| Monica Priovolos    | Lewisville, TX      | 2016-02-16 | No Fracking!  |
| B. Lisa Sardarabadi | Krum, TX            | 2016-02-16 | We cannot risk the safety of our drinking water. Lake Lewisville supports Denton and Dallas County drinking water and fracking is too risky. We don't need to end up poisoned like Flint MI. Go frak somewhere else.  |
| Suzan Mayberry      | Irving, TX          | 2016-02-16 | Our earth can't.  |
| Valentina Harmjanz  | Argyle, TX          | 2016-02-16 | I am concerned about the drinking water contamination risk, and the devaluation of house prices   |
| Ann Derwort         | Lewisville, TX      | 2016-02-17 | Evidence shows fracking is upsetting the water table. Plus, we really would like to repair our dam not lose it to earthquakes.  |
| Rick Paddock        | Colleyville, TX     | 2016-02-17 | I do not agree with the BLM leasing the land and mineral rights. You have to look at the purpose of the BLM as a federal agency, which is to manage public lands that have not already been given purpose (national parks/reserve, etc). They are not the DOE or the bureau of natural gas development. I believe it is outside their scope and purpose, and that it would not be a "beneficial use" of the land as they are required to fulfill. |
| Terse Ferrell       | Lewisville, TX      | 2016-02-17 | I am against fracking!  |
| Juan Pousada        | Carrollton, TX      | 2016-02-17 | Fracking should NEVER be done near populated areas, much less threatening the water supply.   |
| Alex Osinga         | Fort Worth, TX      | 2016-02-17 | I'm signing this because I have family in Parker County whom I want to protect.   |
| Shandy Copher       | Little Elm, TX      | 2016-02-17 | My family is more important to me than your bottom line. Stop jeopardizing my family's lives.   |

| Name             | Location             | Date       | Comment   |
|------------------|----------------------|------------|---|
| Wayne Piets      | Lewisville, TX       | 2016-02-17 | Very concerned about water contamination!   |
| Vincent Fava     | Carrollton, TX       | 2016-02-17 | I think that this is a bad idea at this time. Grapevine Lake is overflowing, Lake Lewisville has to release water daily to ease pressure on the suspect dam. Why would we add another factor that has shown to create instability into this area right now? Say "No for now" and let us re-evaluate after the dam repairs are complete.   |
| Deanna Kelley    | Lewisville, TX       | 2016-02-18 | I reside near Lake Lewisville and am concerned about the implications of fracking on my family.   |
| Adam Folter      | Carrollton, TX       | 2016-02-18 | I live just South of Lake Lewisville, and believe my home and our city would be impacted on a disastrous level if the dam failed or our drinking water was contaminated due to fracking activity underneath the dam. Fracking in such a geologically and environmentally sensitive area is blatantly irresponsible and reprehensible. Please do not permit this to proceed. Protect the citizens first before you kowtow to the oil and gas sector. |
| Frack Away       | Dallas, TX           | 2016-02-18 | I'm signing b/c fracking has been done nearly 70 years and it keeps the cost of oil production lower.   |
| Angel Womack     | Carrollton, TX       | 2016-02-18 | I don't want to risk having our water contaminated!   |
| christopher haas | Carrollton, TX       | 2016-02-18 | If the lake goes I'm directly underneath  |
| Joanne Nichols   | Carrollton, TX       | 2016-02-18 | It's time to stop destroying our planet and killing people in the process or making them very ill. You lie about the safety in a routine basis dumping contaminated water and other chemicals back into the ecosystem all in the name of greed!   |
| Jose Garza       | Carrollton, TX       | 2016-02-18 | I care about our future.  |
| Lauren Hoffman   | Cary, NC             | 2016-02-18 | Fracking is a terrible practice that ruins the environment, damages wildlife refuges and aquifers.  |
|                  |                      |            | and aquifers.   |
| Jason Turner     | Rockwall, TX         | 2016-02-18 | Fracking near a water source is insane.   |
| Evelyn Dessommes | The Colony, TX       | 2016-02-18 | Near the lake there're thousands of houses, many neighborhoods that will be affected by possible tremors. Who wants that????!!!   |
| Kelly Martin     | Lewisville, TX       | 2016-02-18 | We don't want fracking in Lake Lewisville.  |
| John Heusinkveld | Carrollton, TX       | 2016-02-18 | I don't want drilling and potential contamination in our drinking water reservoir. Also the risk of causing damage to the damn, as well as ruining the view of a recreation area that is not that pretty to start with. At today's prices 80% of the current wells are not profitable. This would be a very poor short sighted decision just for money. Keep our limited recreation areas and drinking water as pristine as possible                |
| Ed Haas          | Carrollton, TX       | 2016-02-18 | Lake Lewisville is a reservoir that provides drinking water to our people. That is too dangerous a proposition to risk on fracking.   |
| Kasey Lee        | Amarillo, TX         | 2016-02-18 | It can lead to water contamination, which will effect our water supply.   |
| Monique Landry   | Little Elm, TX       | 2016-02-18 | I want to keep me and my kids safe.   |
| Elissa Barbosa   | Carrollton, TX       | 2016-02-18 | We do not need any fracking to cause Lake Lewisville to be more of a threat than it already is and possibly flood and cause immeasurable damage! In my own neighborhood and surrounding cities!   |
| Lesley Harris    | Highland Village, TX | 2016-02-18 | Water source for Highland Village and instability of Lake Lewisville Dam  |

| <b>Name</b>   | <b>Location</b>  | <b>Date</b> | <b>Comment</b>  |
|---------------|------------------|-------------|---|
| Carol Collins | Flower Mound, TX | 2016-02-18  | The risk is too great due to the Lewisville dam instability and Lewisville Lake is a major water source for Flower Mound and Highland Village. Too many accidents happen with fracking. |

Re: Public Protest concerning auctioning of mineral rights under Lewisville Lake described more specifically as: NM-201604-043 258.90 Acres TX TR F-519; TR F-520A; TR F-520B; TR F-524; Denton County

To Amy Leuders:

This public protest is made pursuant to regulation Title 43 CFR 3120.1-3. I posted a link to this position on Nextdoor.com so that my neighbors could sign this petition. In signing this petition, they signees elected me to represent them to you. We hereby object to the sale or lease of the mineral rights near and/or underneath Lewisville Lake. It has come to our attention that a public auction is scheduled to take place on April 20th, 2016. The winner will secure the rights to extract natural gas locked in the Barnett Shale beneath a 258.9-acre collection of parcels underlying the western arm of Lewisville Lake near Hickory Creek.

We are interested parties because we are residents of the city of Carrollton and

Lewisville, Texas. Our home lie in the inundation area south of the Lewisville Lake dam. In addition, our water source comes from Lewisville Lake.

No drilling should be allowed because of the potential impact on the Lewisville Dam and the potential impact of water pollution.

The Lake Lewisville Dam is an earthen dam that is more than 60 years old and is showing signs of stress. The high levels of rainfall in May and June last year stressed this dam significantly. The damages have not yet been completely repaired.

According to the U.S. Corps of Engineers Fact Sheet released to the public in February 2014, the Lewisville Lake dam has already been designated as a high risk dam because of the risks associated with stability of the spillway and seepage that leads to internal erosion of the foundation and embankment. In addition, the lives and property of hundreds of thousands of people would be impacted should the dam fail.

With the "high risk" dam in need of repairs, adding another factor to the mix is inappropriate at this time. With the evidence coming in from one study after another, scientists are now more certain than ever that oil and gas drilling is causing hundreds upon hundreds of earthquakes across the U.S. It is indisputable that fracking has contributed to earthquakes in the Dallas area over the past few years and they are increasing in number. Adding drilling anywhere near this dam is irresponsible.

In addition, water contamination has already been linked to drilling activities in North Texas. See: <a

href="https://stateimpact.npr.org/texas/2014/09/15/research-links-drilling-activities-to-water-contamination-in-north-texas/"

rel="nofollow">https://stateimpact.npr.org/texas/2014/09/15/research-links-drilling-activities-to-water-contamination-in-north-texas/</a> As stated by the Director of Dallas Water Utilities, Jody Puckett, "These direct impacts from oil and gas activities have not been adequately studied and represent an unacceptable level of risk to DWU." Dallas Water Utilities provides drinking water to 2.4 million people in the city and surrounding communities.

Because Lewisville Lake is the water supply for millions of residents in the Dallas/Fort Worth Metroplex, any drilling activity near the lake poses a great risk of contaminating the water supply.

Sincerely,  
Libbi Stovall  
1603 Hartford Dr.  
Carrollton, TX. 75007
