Dear Sir or Ms:

Please do not open up Lewisville Lake (located near Frisco, Little Elm, The Colony, Lewisville, and Denton, TX) for oil exploration. We live nearby and are very concerned about our safety, well-being, and quality of life if the ground underneath the lake were used for oil production. Once again, we urge you not to allow oil exploration in Lewisville Lake.

Thank you for considering the request from the public who will be greatly affected by your decision.

Sincerely,

John and Becky Holmes

John and Becky Holmes
