STATE OF NEW MEXICO
SANTA FE, NEW MEXICO

To whom it may concern,

I am a resident of Highland Village Texas and purchased a home on Lake Lewisville a year ago. We have also invested in home improvements by renovating our home over the last 8 months and are in the process of installing a new pool and outdoor living area to enjoy our view of beautiful Lake Lewisville.

We were extremely concerned when we recently received notice from a neighbor of potential drilling in the area from oil and gas leases that would affect environmental changes in the land (above and below the surface). There is published and proven negative effects of fracking in nearby Oklahoma and other places that should be enough information to prevent these leases from being approved.

Please accept this letter as our protest in allowing The Bureau of Land Management to auction off any of its holdings in the Lake Lewisville area to oil and gas leases scheduled for April 20th 2016.

Upon receipt of my letter you have acknowledged our protest of these oil and gas leases. If you have any questions or comments, below is how you can notify or contact us.

If to Homeowner:
