NOTE TO MAP USERS

The surface and mineral rights are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been shown as general planning tools due to the lack of information available to BLM with respect to the nature of acquisition. No warranty is made by the BLM use of all mineral rights. The BLM use of all mineral rights is made in accordance with the respective offices of the Bureau of Land Management or other Federal agencies. Users should check for specific status on any specific tract of land. Inquiries in the BLM maps should be reported to the respective Bureau of Land Management office from which the maps were obtained.

PUBLIC ACCESS

Roads crossing public lands may be traveled by the public unless closed by signing or notice by the land management agency. Public lands reserved by private lands may not have public access. Permission is required from the private landowner to cross private land, unless access is provided by a Federal, State or County road or a BLM road with legal access.
