There may be private inholdings within the boundaries of the National or State reservations shown on this map. Land lines are omitted in areas of extensive tract surveys. THIS MAP COMPLES WITH NATIONAL MAP ACCURACY STANDARDS. In general, BLM Public Lands are open to a number of recreational activities in addition to those that may be highlighted on the map. These activities include camping, fishing, hiking, and hunting. Certain restrictions may apply. Contact appropriate BLM District, or Field Office for more information.

NOTE TO MAP USERS
The surface and mineral management status overlaps are published as general planning and management information. Some public lands and mineral rights may have been shown as potential lands due to the lack of information available to BLM with respect to the status of acquisition. No warranty is made by the BLM for use of the map for purposes not intended by BLM. The official land records in the respective office of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inquiries in the BLM maps should be reported to the respective Bureau of Land Management office from which the maps were obtained.

PUBLIC ACCESS
Roads crossing public lands may be traveled by the public unless closed by signs or notices by the land management agency. Public lands interior to private lands may not have public access. Permission is required from the private landowner to cross private land, unless access is provided by Federal, State, or County road, or a BLM road with legal access.
