NVN-074543

Dear Interested Party:

The Bureau of Land Management, Elko District, Wells Field Office has released an Environmental Assessment (EA) for public review. Tetuan Resources Corporation proposes to drill Marys River APD 34-26 , an oil well located in Bishop Flats of Elko County Nev., on Oil and Gas Lease NVN-074543.

The proposed oil well would be located on a new drill pad to be constructed at the end of a three-mile access road to be built from Metropolis Road to the well pad. The access will cross public and private land. Tetuan has applied for an Application for Permit to Drill (APD) and a BLM Right of Way. If drilling results prove to be successful and a plan to develop is submitted, an appropriate NEPA document and determination would be prepared.

The EA may be viewed at: www.blm.gov/rv5c/ under NEPA, Projects under National Environmental Policy Act review. The EA is available for review until September 12, 2011, close of business.

If you have questions or wish to be removed from our mailing list for this project, please call Frank Bergwall at (775) 753-0331 or mail him at the address above. He may be contacted by email: frank_bergwall@blm.gov.

Sincerely,

Bryan K. Fuell
Manager, Wells Field Office
